Microsoft Power BI | Stakeholder Liaison | Agile/Waterfall environment proficiency | UAT preparation | Advance Excel | SDLC

Results-driven Entrepreneur with over 10 years of experience in IT Project Management and AI-driven application development. Adept at leveraging Generative AI and Low-Code frameworks to accelerate project lifecycles and deploy rapid-response business solutions. Business Intelligence, and Digital Transformation, specializing in data-driven solutions and digital transformation within the financial services sector. Expert in end-to-end project lifecycle management, leveraging Agile/Scrum and Waterfall methodologies, alongside tools like Jira and DevOps for streamlined execution. My core competencies include comprehensive requirements gathering, user story development, test case formulation, and robust documentation (BRD, FSD, RTM). I possess strong analytical skills, with proficiency in data analysis, ETL, SQL, Power BI, and Cyara automation for impactful reporting. Adept at managing IT infrastructure projects, optimizing customer journeys in retail banking, and designing target operating models, I consistently drive process improvement, foster cross-functional collaboration, and manage vendor relationships to deliver strategic objectives and tangible value. Expert in leveraging SQL and Power BI to deliver data-driven strategic insights and executive-level analytics while managing complex financial workflows, including SWIFT operations and global ISO 20022 compliance.

SIGNATURE STRENGTHS & COMPETENCIES

- Product roadmap creation, evolution, vision, mission, and goals
- User story and epic writing
- Strategic alignment of requirements
- Impact assessment for change requests
- Benefits identification and requirement traceability
- Driving adoption of best practices
- Agile environment proficiency
- Stakeholder Management
- Cross-Functional Collaboration
- Documentation expertise
- Process mapping and gap analysis
- Strong experience in Advance XLS and XLX macros
- Change Management
- Experience in writing SQL queries.

CORE BCOMPETENCIES

- **Leadership:** Business Strategy, Founder-led Growth, Vendor Management, P&L Oversight.
- **Project Management:** Agile/Scrum, SDLC, Resource Allocation, Risk Mitigation.
- **Business Intelligence:** SQL, Power BI, Data Analysis, ETL, Financial Reporting.
- **Fintech & Banking:** Payments Domain, ATM Technology, CRM Implementation, UAT.
- **Operations:** Process Mapping, Gap Analysis, IT Infrastructure, Stakeholder Liaison.

TEK System | Lead Project Manager | Bengaluru, India June 2026 – Present

- **UI Team Leadership:** Spearheaded the UI/UX development team through complex analytical dashboard constructions, ensuring 100% compliance with business requirement documents (BRD) and user story specifications.
- **Requirement Architecture:** Facilitated client-facing requirement discovery workshops to map intricate business process workflows into clear Functional Specification Documents (FSD) and System Requirement Specifications (SRS).
- **IT Infrastructure Delivery:** Provided exhaustive lifecycle support for infrastructure modernization initiatives, effectively managing planning stages, project tracking via Jira/Azure DevOps, budget constraints, and risk mitigation strategies.
- **Quality Assurance Alignment:** Partnered with core QA teams to compile end-to-end test cases, evaluate functional UI testing parameters, track defect lifecycles, and run user acceptance testing (UAT).

- **Business Intelligence Integration:** Identified, mapped, and deployed fresh KPIs and performance metrics using advanced MS Excel formulas (Pivot tables, Lookups) and Power BI dashboards, translating raw source data into executive-level presentations.
- **Vendor & Financial Control:** Collaborated closely with the corporate finance division and Head Accountant to manage vendor quote reviews, negotiate commercial contracts, and perform strict cost/benefit and risk analyses.
- **Cross-Functional Agile Leadership:** Served as the strategic bridge across business, engineering, QA, and sales teams to orchestrate day-to-day project operations, streamline release management, and actively prioritize product backlogs.
- **Project Management & Delivery:** Agile/Scrum, Waterfall, SDLC Governance, Sprint Planning, Product Backlog Prioritization, Change Management.

Black Seedspire Technologies Pvt Ltd | Bengaluru, India Jan 2024– Present

Freelancer | Jan 2024 – April 2026

- **Organizational Founding:** Established a full-scale IT and BPO services firm, overseeing legal incorporation, brand identity, and strategic market positioning.
- **Infrastructure Management:** Spearheaded the setup of a high-tech delivery centre, managing end-to-end IT infrastructure, seat allocation, and operational readiness.
- **International Partnerships:** Leading multi-national contract negotiations and optimizing resource allocation to ensure the seamless delivery of large-scale, high-stakes global projects.
- **Talent Acquisition & Retention:** Engineered a robust recruitment engine, successfully sourcing and vetting high-performing FTEs for international fintech and support projects.
- **Business Intelligence Integration:** Leveraging 10+ years of BI expertise to build proprietary reporting tools and dashboards to provide clients with real-time operational transparency.
- **Internation Project:** Travel Desk (Voice, email & chat), chat support.
- **Intelligent Data Systems:** Integrated Google Generative AI with SQL Server backends to automate the creation of proprietary reporting tools and dashboards, enhancing real-time operational transparency for global clients.

India 1 Payment Ltd | Project Manager | April 2023- Feb 2024

- **Project Management Role:** Currently serving as a Project Manager, acting as a vital link between business, development, and testing teams, ensuring smooth coordination and communication.
- **Payments Domain Expertise:** Acquired comprehensive knowledge in the payment's domain, including handling vendors and partners to develop cutting-edge products and ensuring successful product implementation and delivery.
- **Vendor Management:** Proficient in negotiating with vendors and managing internal expectations to optimize organizational satisfaction.
- **Change Management:** Successfully implemented and managed change initiatives, including implementation of a new CRM system and app development.
- **Project Operations Coordination:** Responsible for coordinating day-to-day project operations with service providers.
- **Technical Scope Documentation:** Documenting requirements for extended ATM technology and fintech needs, including creating technical scope documents and obtaining quotes from vendors.
- **Fintech & Payment Operations:** Core Banking Technologies (Loans & ATM Operations), SWIFT Workflows, ISO 20022 Modernization, Vendor Ecosystem Management.
- **ISO 20022 Compliance:** Driving financial messaging transformation, mapping, and global validation standards.
- **Corporate Functions:** Collaborating closely with the Head Accountant and possessing good experience in corporate functions.
- **Cross-Functional Collaboration:** Successfully led and collaborated with diverse teams, including engineering, marketing, sales, and operations, to deliver the projects.
- **Reporting and Approvals:** Generating and delivering daily reports for the switch, reporting to management, and obtaining approvals for system development projects.
- **IT Infra Project:** Experienced in delivering complete end-to-end support for IT infrastructure projects, encompassing planning, execution, stakeholder communication, risk management, budgeting, and quality assurance.
- **System Integration:** Efficiently integrating new systems, programs, and applications with business operations and services.
- **Performance Analysis and Improvement:** Analyzing and enhancing the performance of web-based customer portals and support services.
- **End-User Proficiency:** Ensuring end-user proficiency with new systems, programs, and applications across departments.
- **Backlog Management:** Prioritizing and managing product backlogs based on business value and customer needs.
- **Central Repository Development:** Designing and building a central repository database for answering all reporting requests.
- **Operational and Financial Reporting:** Building, maintaining, and distributing operational and financial reports using Power BI.

- **Vendor Negotiation:** Engaging with different vendors and negotiating effectively.
- **Transformation Projects:** Experience in working on various transformation projects with a functional focus.
- **Tools and Methodologies:** Proficiency in tools such as Jira/DevOps, MS Project, MS Excel, MS SharePoint, PowerPoint, along with methodologies like Agile/Scrum and Waterfall.
- **Documentation Expertise:** Skilled in preparing various documents including FRD, BRD, SRS, cost/benefit analysis, GAP analysis, risk analysis, and RTM.
- **Technical Skills:** Experience in source data analysis during migrations and developing comprehensive test plans. Hands-on experience in MS Excel (Pivot, VLOOKUP & HLOOKUP), Power BI, test case writing, UI testing, confluence, Cyara Automation tool, Postman, and Power BI reporting tool.

WIPRO Technologies, India | Business Analyst - Team Lead | Nov 2017 – Apr 2023

- **UI Team Leadership:** Led UI team in dashboard development, ensuring compliance with business requirements and BRD specifications.
- **Effort Estimation and Planning:** Estimated analysis efforts and devised plans aligned with project timelines for efficient execution.
- **Documentation Management:** Created BRD, FSD & User Story and utilized Azure DevOps/JIRA for tracking requirements, changes, and issue resolutions.
- **IT Infra Projects:** Experience providing comprehensive support throughout the project lifecycle, including planning, execution, stakeholder communication, risk management, budgeting, and quality assurance in IT infrastructure projects.
- **Test Case Collaboration:** Collaborated with testing team to develop comprehensive test cases, ensuring coverage of all scenarios. In-depth experience in executing QA processes and ensuring deliverables meet quality standards.
- **Stakeholder Engagement:** Engaged with diverse stakeholders to gather and understand process requirements, delivering cohesive solutions.
- **KPI Identification:** Identified new KPIs and metrics to measure performance against business objectives using tools like Power BI.
- **Status Reporting:** Provided regular status reports to team and management, fostering transparency and accountability.
- **Data Analysis and Reporting:** Gathered data from internal and external sources, generating insightful reports for decision-making.
- **Project Administration:** Managed project administration tasks, ensuring smooth execution and adherence to timelines.
- **Test Case Verification:** Actively participated in test case verification, ensuring alignment with project objectives.
- **Cost Control:** Spearheaded delivery of cost-effective, high-performance technology solutions aligned with project objectives and budget constraints.
- **ISO Messaging:** Spearheading the transformation and validation of financial messaging to align with global ISO 20022 compliance standards.
- **SWIFT Workflows:** Managed high-volume cross-border financial transactions with a strong focus on security, processing accuracy, and liquidity management.
- **Financial Tech Expertise:** Deep domain knowledge in retail banking systems, ATM technology networks, payments, and robust CRM integrations.
- **ISO 20022 Standardization:** Led complex financial messaging transformations, schema mapping, and validation workflows to meet global compliance standards.
- **Requirements Facilitation:** Facilitated business requirements gathering sessions, ensuring alignment with project goals.
- **Client Deliverables:** Analysed client requests and delivered presentation-quality dashboards and reports for enhanced insights.
- **Stakeholder Communication:** Presented business process workflows to stakeholders, fostering understanding and alignment.
- **Issue Coordination:** Coordinated project issues, risks, and change controls, ensuring timely resolution and mitigation.
- **Financial Management:** Managed various financial calculations and reporting, providing comprehensive insights for decision-making.

Internship | May 2012 – Apr 2016

In my academic pursuit encompassing both my BBA and MBA degrees, I was engaged in multiple internships across a diverse spectrum of industries including Banking, Insurance, and Mining companies.

- **Birla Sunlife Insurance** – Structure of Indian Banking Sector and Financial Institution, Portfolio Management, Equity Research and Derivatives.
- **HDFC** – A study on the role of financial company in agency channel of HDFC Life.

- **Canara Bank** - Financial analysis, Documentation, Solution development and delivery and financial evaluation
- **BEML Ltd** – A study on Working Capital Management with reference to BEML Ltd.

EDUCATION & CERTIFICATION

- MBA & PGPM –Finance and operations (Full-Time, Amity University), India (2015-2017) First Division CGPA
- Bachelor of Business Management- Finance (Full-Time, PES College of Business Management), India (20011-2014)

CERTIFICATIONS/TRAININGS:

- PMC certified April 2024
- Payments, Cards and ATM (Wipro internal certification)
- Consumer/Corporate/Core Banking (Wipro internal certification)
- ITIL - Information Technology Infrastructure Library (Wipro internal certification)
- Interview Certification Program (Wipro internal certification)
- SOFTWARE REVIEWS AND TESTING (Wipro internal certification)
- SOFTWARE CONFIGURATION MANAGEMENT (Wipro internal certification)
- Diversity and Inclusion Training Program (Wipro internal certification)
- ERM - Data Privacy Awareness for Wipro Support Functions (Wipro internal certification)
- ERM - Data Privacy Awareness for Delivery Teams (Wipro internal certification)
- Business Continuity Management Awareness (Wipro internal certification)
- Curriculum: Information Security Awareness Course (Wipro internal certification)
- Curriculum: Business Continuity Management Awareness (Wipro internal certification)
- Distinct: GIS- Transformation Feasibility and Future Readiness (Wipro internal certification)
- DISTINCT - Business Analysis Part 1
- Distinct: Business Analysis –Part 2
- DISTINCT - Business Analysis Training material
