Capital Market | Financial Modeling | Valuation | Data Governance | Private Equity C Venture Capital | Data Visualization

Summary

Business Data Analyst with 4+ years of experience in Capital Markets, Private Equity, Venture Capital, and Alternative Investments, specializing in Data Governance, Business Analysis, and Investment Data Management. Experienced in business requirement gathering, BRD/FRD preparation, metadata management, data quality, data validation, governance frameworks, and collaborating with data stewards, data owners, and cross-functional stakeholders to improve data integrity and governance processes. Skilled in SQL, Power BI, stakeholder management, and delivering data-driven insights across M&A, valuations, cap tables, transaction data, fixed income, derivatives, and investment datasets to support investment and operational decision-making.

Professional Experience

BlackRock - Bengaluru, Karnataka

Analyst - Data Governance

Feb '23- Present

- Developed a Private Markets Index covering 200+ high-value pre-IPO US companies, collaborating with the Strategy team to support investment tracking and benchmarking.
- Led end-to-end governance of M&A and private equity transactions, performing business requirement analysis, documenting functional requirements, and validating data across portfolio companies, funds, valuations, and ownership structures.
- Performed valuation analysis (DCF, trading comps, pre/post-money) using Excel, SQL, and Power BI on structured financial datasets.
- Analyzed financial performance metrics (revenue, EBITDA, net debt, capex), delivering audit-ready insights.
- Extracted and reconciled ownership, cap table, and transaction data from statutory filings (10-K/10-Q/8-K, AoA, shareholder registers, capital records).
- Standardized deal classification frameworks by analyzing business processes and stakeholder requirements, improving consistency and comparability across investment datasets
- Supported buy-side due diligence, company profiling, and sector research across Healthcare, Energy, FIG, TMT, and FMCG.
- Delivered market intelligence and deal coverage across 800+ US & UK companies, enabling transaction-ready insights.
- Reconciled datasets across Preqin Pro, Bloomberg, and regulatory filings, performing variance analysis using SQL and Excel to improve data reliability.
- Verified entity-level data via SEC/EDGAR, MCA, and Companies House filings.
- Managed workflows via JIRA, collaborating with cross-functional teams to resolve data gaps and improve processes.
- Analyzed 300+ companies and 600+ fundraising rounds across funds, managers, and service providers.
- Built MIS dashboards (Power BI, SQL) tracking KPIs, error trends, and SLA performance while preparing MI reports and executive dashboards for stakeholders to support governance and operational decision-making.
- Prepared business documentation including Business Requirement Documents (BRDs), Functional Requirement Documents (FRDs), process documentation, and functional specifications to support reporting enhancements and data governance initiatives.

Zigram - Gurugram, Haryana

Research Analyst

Nov '21- Nov '22

- Executed AML/KYC workflows, including entity verification and ownership mapping across 1,500+ entities.
- Identified and catalogued 2,000+ PEPs, Hate Groups, HNWLs, and related entities for risk and compliance assessment.
- Built detailed profiles of companies and individuals using global regulatory filings and intelligence databases.
- Improved data validation processes, reducing turnaround time and increasing workflow efficiency.
- Delivered analytical reports and insights to support decision-making across high-priority projects.
- Mentored 5+ associates, ensuring quality, consistency, and adherence to standards.
- Developed Excel-based trackers and databases to streamline analysis and reporting.

Achievements

- Earned a lateral promotion at BlackRock to the Data Governance C Quality team based on strong performance and impact.
- Certificate of Appreciation- Recognized at Zigram as Best Performing Employee of the Quarter for exceptional research quality and team contribution.
- Part of the Recruitment Committee; streamlined resumes for BlackRock.
