

ABHISHEK HANASHI

Platform Engineer

Email: abhishek.hanashi02@gmail.com

Phone: 7411781787

PROFESSIONAL SUMMARY

- Having **5+** years of experience in Power Apps Developer skilled in building Canvas and Model-Driven applications using Power Platform, Dataverse, and Power Automate. Experienced in workflow automation, integrations, and Agile delivery.
- **Power Apps:** Canvas Apps & Model-Driven Apps, responsive UI design, Power Fx formulas, validations, reusable components, role-based access, performance optimization
- **Dataverse:** Table/entity creation, relationships, business rules, calculated columns, views, forms, charts, dashboards, security roles, data import/export
- **Power Automate:** Automated, instant & scheduled flows, approval workflows, Dataverse triggers, expressions, conditions, error handling, integration with Power Apps
- **Integration:** REST APIs, HTTP actions, JSON handling, standard connectors (SharePoint, Outlook, Teams, Excel, SQL), custom connectors (basic)
- **Security & ALM:** Environment management, security roles, DLP policies, solutions (managed & unmanaged), deployment best practices
- **Tools & Methodologies:** SharePoint Online, SQL (basic), Excel (advanced), Git (basic), Azure DevOps (basic), Agile / Scrum
- Experience with JavaScript and Web API.
- Worked on Creating Teams and Access teams.
- Work Experience with Ribbon Workbench.

EXPERIENCE

- Worked at **STARLITE INFOTECH LIMITED** from JUN 2023 to JAN 2026
- Worked at **CAPGEMINI INDIA** from JUL 2021 to JUN 2023
- Worked at **ZEEL CODE LABS** as an **Intern** from JUNE 2020 to MAY 2021

EDUCATION

- **Bachelors of Engineering (BE)** In Electronics and Communication Engineering, from Jain College of Engineering Belagavi, Karnataka
- **Diploma** In Electronics and Communication Engineering, from Motichand Lengade Bharatesh Polytechnic Belagavi, Karnataka

TECHNICAL EXPOSURE

Languages	C#, .Net 7.0/6.0 and Python
Databases	SQL Server 2016/2014, Oracle PL/SQ, Dataverse
Power Platform	Microsoft Power BI, Power Apps (Canvas and Model Driven), Power Automate (Flows and Power Automate Desktop), AI Builder
Chat Bots	Virtual Agent/ Co-pilot studio
Automation Tool	RPA-UI Path, Power Automate Desktop
Azure Platform	Azure Cognitive Services, Web Apps, Indexing (RAG and LLM), Azure AI Foundry Azure, Blob Storage Identity and Access Management, Networking, Azure DevOps and Azure Logic Apps

PROJECTS HANDLED

STARLITE INFOTECH LIMITED (June 2023 – Jan 2026)

- Worked as a leveraging the Microsoft Power Platform (Power Apps, Power Automate, Power BI, Dataverse).
- Currently leading cross-functional teams, defining governance and ALM processes, and integrating with Microsoft 365/Azure ecosystems to drive digital transformation and business process automation.

1.Project: Document Translation Model

Technologies: Power Apps, Power Automate and Azure Cognitive Services

Project Description:

- Built a document-translation solution using Power Apps as the front end, Power Automate for orchestration, and Azure Cognitive Services Document Translation to translate documents across multiple languages while preserving layout and format
- Enabled business users to upload documents via Power Apps, triggered translation through automation workflows, logged metadata in Dataverse, and reduced manual effort

2.Project: Expense Management system

Technologies: Power Apps, Power Automate and Azure AI Foundry

Project Description:

- Developed an Expense Management System where users upload receipts and invoices via a Power Apps interface

- Leveraged Azure AI Foundry (including GPT-based models) to automatically extract key data from documents, and orchestrated the workflow with Power Automate.
- Built an approver layer where assigned reviewers could view the
- extracted data, approve or reject it, after which it was forwarded to the finance team for final processing.

3.Project: Project Transfer Form Automation

Technologies: Power Apps, Power Automate and Azure AI Foundry

Project Description:

- Built a sequential multi-stage approval workflow in Power Automate (from approver to approver) and implemented reminders for any outstanding approvals.
- Once all approvers approved, the system generated a PDF and sent it to the uploader; if any approver rejected, the uploader received an email with comments.

CAPGEMINI INDIA (JUL 2021 to JUN 2023)

- Worked as a Power Platform Analyst on various tools on Power Platform like Power BI, Power Apps, Power Automate, Power Virtual Agents, Dataverse and AI-Builder.
- Created 120 Power Automate Cloud Flows, 10 PowerApps Canvas Application, 2 Model Driven Apps, 8 Power BI Dashboards and 2 Power Virtual Agent Chatbot.

1.Project: RES Plus Rock Heroes - Monthly Voting

Technologies: PowerApps and Power Automate

Project Description:

- This Power App allows monthly recognition of associates by their managers, with each manager limited to one vote per associate per month.
- A Power Automate Flow captures responses from a Nomination Microsoft Form and inserts them into a SharePoint list for managers to vote for their associates.

2.Project: RH Optimization

Technologies: Power BI, PowerApps, Power Automate and Dataverse

Project Description:

- This Power App allows monthly recognition of associates by their managers, with each manager limited to one vote per associate per month.
- A Power Automate Flow captures responses from a Nomination Microsoft Form and inserts them into a SharePoint list for managers to vote for their associates.

3.Project: Send Qualtrics Response to Monday for Software and Services Survey

Technologies: Power Automate

Project Description:

The Power Automate flow will connect Qualtrics surveys - that are sent by GDM BD/AM reps to vendors when they are interested Gartner's Landing Page (LP) service - to Monday.com's Marketing Services Team workspace.

ZEEL CODE LABS (JUNE 2020 - MAY 2021)

Project Title: Employee Request & Approval Management System

Technologies: Power Apps, Power Automate, Dataverse, SharePoint

Description:

Designed and developed a Canvas App to manage employee service requests such as leave applications, asset requests, and approvals. Integrated the application with SharePoint and Dataverse for centralized data storage. Implemented automated approval workflows using Power Automate with email and Teams notifications. Enhanced user experience by creating responsive UI screens and validation logic using Power Fx.

Personal Details

- Father Name: Umesh Hanashi
- Permanent Address: Hanuman Nagar Belagavi, Karnataka 590019
- PAN no: ASMPH1156Q.
- Nationality: Indian
- Language Known: English, Kannada, Hindi & Marathi.

Declaration

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
