PROFESSIONAL SUMMARY

Financial Operations professional with 2+ years of experience in Asset Servicing, specializing in cash and position reconciliation, dividend and interest income processing, income accrual reconciliation, break investigation, and financial reporting. Experienced in resolving reconciliation exceptions, collaborating with global stakeholders, and ensuring accurate and timely processing of income-related events while meeting SLA and operational deadlines. Strong knowledge of trade lifecycle, corporate actions, and securities operations with excellent analytical and problem-solving skills.

SKILLS AND INTEREST

- **Domain Expertise:** Asset Servicing, Corporate Action, Trade Life Cycle, Financial Analysis, Reconciliation, Derivatives, Income Processing
- **Tools & Software:** MS Office Suite (Excel, PowerPoint, Word, Outlook), Bloomberg, DTCC, Bancs.

PROFESSIONAL EXPERIENCE

Financial Associate 2

07/2023 - 05/2025

State Street, Mumbai

Cash Reconciliation

- Performed daily reconciliation of dividend and interest payments of corporate action events between custodian and client records, ensuring accuracy and timely resolution of discrepancies.
- Investigated and resolved high value cash breaks by performing detailed root cause investigation and coordinating with internal and external stakeholders.
- Performed reconciliation for Tax and FX settlement breaks by analyzing transaction data, validating payment details, and coordinating with internal teams to resolve exceptions.
- Monitored aged reconciliation breaks and ensured timely resolution in accordance with client SLAs and operational procedures.
- Supported processing and reconciliation of corporate action income events, including dividend and interest payments. Addressed client queries by providing investigation updates and resolution within agreed turnaround times.

Consultant

BCT Consulting (On Contract)

01/2026 – 07/2026

J.P. Morgan Chase, Mumbai (Client)

- Prepared and delivered daily and weekly reports covering cash and position reconciliation breaks across investment banking operations teams. Collected and validated data from multiple sources to ensure accurate and timely reporting.
- Reviewed SWIFT corporate action messages (MT564, MT566, and MT568) to verify event details, identify outstanding reconciliation breaks, and support accurate reporting.
- Compared SWIFT message details with reconciliation reports and internal systems to investigate discrepancies and determine the status of outstanding breaks.
- Coordinated with internal operations teams to validate data and resolve reporting discrepancies before final report distribution.
- Maintained reporting documentation and supported daily operational reporting by ensuring data accuracy and completeness.
- Developed a good understanding of the trade lifecycle and corporate action process through daily reporting and reconciliation activities.

KEY PROJECTS

Client On boarding

- Contributed to the successful onboarding of a sensitive client by supporting reconciliation activities and ensuring a smooth transition into daily operations.
- Investigated outstanding DTM and Abandoned Property breaks by analyzing backend data and supporting the concerned team with accurate information for resolution.
