SUMMARY

Transformation leader with 14+ years of experience across consulting and insurance sectors, specializing in large-scale business transformation, global transitions, and digital strategy. Proven track record of leading high-impact programs (\$100M+), managing cross-functional teams, and winning strategic engagements through RFPs. Recognized for combining strategic thinking with execution excellence to deliver measurable business outcomes and build high-performing teams.

EXPERIENCE

Grant Thornton Bharat LLP

Aug '22 - Present

Manager

- Spearheaded global risk and broking transformation programs across North America, EMEA, and APAC, delivering **\$101M+ cost savings** through operating model redesign and digital enablement.
- Managed enterprise transformation initiatives involving cross-functional teams across technology, operations, risk, and business functions.
- Directed end-to-end core banking implementation and data migration for an Urban Cooperative Bank covering **17 branches** with zero business disruption.
- Governed UAT, vendor management, parallel run execution, and risk mitigation, improving operational efficiency by **20%**.
- Managed ESG transformation initiatives for the Corporate & Investment Banking (CIB) division at **HSBC Holdings plc**, supporting ESG data ingestion and governance for the HSBC Utility Project.
- Coordinated business and technology stakeholders to streamline ESG data integration, validation, and reporting processes.
- Led RFP response strategy and proposal development for banking and financial services clients, reducing proposal turnaround time by **30%** through reusable frameworks and accelerators.
- Designed operating models and strategic roadmaps for digital-first financial services initiatives, improving lending opportunity identification by **20%**.
- Implemented KPI–OKR–KRA frameworks, improving productivity by **15%**.

Oct '16 - Apr '22

Allianz Services Pvt Ltd

Deputy Manager

- Led a **68-member operations team** with **3 deputy managers** for policy administration in Entertainment Insurance, improving operational efficiency by **25%** through effective planning and workload management.
- Managed process excellence initiatives using process mapping, Lean Six Sigma, and Kaizen to track progress, mitigate risks, and improve quality across operations.
- Developed phased transition plans covering knowledge transfer, reverse shadowing, parallel run, and operational stabilization.
- Built and executed transition blueprints and capacity plans from KT to BAU for the US Entertainment portfolio, ensuring a smooth go-live and stable operations.
- Revamped underwriting support workflows and deployed automation solutions using **Blue Prism** and **UiPath**, reducing turnaround time for high-premium policies by **20%**.
- Streamlined lean operating models by eliminating non-value-added activities and aligning KPIs to business goals.
- Successfully managed and closed multiple internal and client process audits by ensuring adherence to compliance standards, strengthening process controls, and driving timely closure of audit observations with zero critical escalations.

Apr '12 - Jul '16

AXA Business Services Pvt Ltd

Project Lead Specialist

- Spearheaded the end-to-end transition and transformation of claims operations from Singapore, including project planning, knowledge transfer, and process redesign, achieving a **20% efficiency gain** and **20% reduction in processing time**.
- Supported activity mapping, process documentation, and gap analysis during transition readiness assessments.
- Assisted in FTE estimation and productivity benchmarking for new service lines.
- Instituted SOPs and controls that improved claim registration accuracy by **15%**, strengthened fraud-risk verification, and ensured SLA compliance.
- Guided a team of **11 analysts** in refining resource allocation and shift planning, achieving a **15% reduction in TCO**.
- Mentored team members to improve quality and reduce error rates by **12%**.
- Developed performance dashboards to track TAT, SLA breaches, and client satisfaction, resulting in a **7% increase in client satisfaction (NPS)**.

Analyst

- Conducted end-to-end verification of business entities using ROC, TAN, GST, and domain registration databases to assess legitimacy and identify fraudulent or shell companies.
- Performed employee background verification and professional conduct assessments, supporting clients in informed hiring and risk evaluation decisions.
- Analyzed work ethic, behavioral patterns, strengths, and development areas through structured profiling and verification processes.
- Prepared audit-ready compliance reports by consolidating findings from multiple verification sources in line with KPMG quality and documentation standards.
