EXPERIENCE

Lead Business Analyst

Publicis Sapient

Feb 2023 - Present

Bangalore

Roles and Responsibilities:

- Working on WINS (Wellington Investment Strategy), a multi-year enterprise initiative supporting firmwide investment strategy capabilities
- Partnered with Client Onboarding and Client Servicing teams to gather business requirements and enhance end-to-end client lifecycle processes across the WINS investment platform.
- Worked closely with Operations, Client Servicing, Portfolio Management, and Technology teams to support onboarding of new institutional clients and improve client servicing workflows.
- Collaborated with cross-functional teams to streamline client onboarding, account setup, and investment strategy processes, ensuring regulatory and operational compliance.
- Collaborating with stakeholders to identify, define, and document business and functional requirements
- Managing product backlog, epics, and user stories aligned with Agile delivery
- Defining use cases and acceptance criteria for development teams
- Supporting QA teams in test case creation and ensuring alignment with requirements

- Driving UAT and sprint demos through business validation
- Providing functional support for production issues
- Performing data analysis using SQL

Key Achievements:

- Streamlined reconciliation processes for WINS platform, significantly reducing false breaks and improving operational accuracy
- Identified and resolved critical system issues, reducing manual reconciliation effort and saving ~8 hours per day for the BA team
- Designed and implemented a Recon Dashboard, enabling real-time monitoring and successfully transitioning reconciliation ownership to Operations team
- Enabled seamless delivery of a firmwide investment strategy platform by aligning cross-functional stakeholders across business and technology

Lead Business Analyst

Tata Consultancy Services

Jul 2021 - Feb 2023

Gurgaon

Roles and Responsibilities:

- Led UAT for migration from TLM 2.7 to Recs Premium reconciliation platform
- Coordinated testing across global stakeholders (Japan, Singapore, India, UK)
- Created and managed user stories, use cases, and backlog refinement
- Facilitated sprint planning and alignment between business and QA teams
- Reviewed UAT test cases, defects, and QA deliverables

Key Achievements:

- Successfully managed UAT across multiple geographies and stakeholders, ensuring smooth coordination and timely execution
- Delivered a high-quality production release with zero critical defects post go-live
- Accelerated UAT cycles by proactively defining test scenarios and improving business validation readiness

Senior Business Analyst

IHS Markit

Jul 2019 - Jul 2021

Gurgaon

Roles and Responsibilities:

- Worked on TradeServ platform for credit and FX trade confirmation, clearing, and regulatory reporting
- Gathered and documented functional requirements and supported implementation
- Assisted in defect resolution and change request management
- Supported UAT and business validation processes

Key Achievements:

- Contributed to modernization of trade processing platform, improving operational efficiency and system reliability
