PROFESSIONAL EXPERIENCE

GLOBALANT INDIA PVT. LTD. – Pune, India

Senior Technical Project Manager / Scrum Master / Delivery Manager | Feb 2022 – Present

Client: EY (Ernst & Young)

Project: EY Virtual App Store

Domain: Assurance / Legal & Compliance Technology

- Lead **end-to-end Agile delivery** for EY Neo POD supporting a legal and compliance platform focused on digital transformation, anomaly detection, and regulatory compliance.
- Manage **one Agile POD of 14 cross-functional team members** within an overall **70+ member program**, coordinating delivery across multiple geographies and time zones.
- Drive **quarterly release planning and execution**, ensuring alignment of sprint goals, milestone commitments, and stakeholder expectations across distributed teams.
- Improved delivery turnaround time by strengthening sprint execution, backlog readiness, dependency tracking, and release governance.
- Oversee **project financial operations for a Multi million \$ engagement**, including budgeting, costing, revenue tracking, margin monitoring, forecasting, and invoicing.
- Facilitate Agile ceremonies including **Sprint Planning, Daily Stand-ups, Backlog Refinement, Sprint Reviews, Retrospectives, and stakeholder demos** to maintain delivery cadence and team alignment.
- Partner with Product Managers, Business Analysts, Architects, and engineering teams to prioritize roadmap items, refine features and user stories, and align delivery with business objectives.
- Drive delivery visibility and governance through **Azure DevOps dashboards, velocity tracking, burndown reporting, defect monitoring, and executive status reporting**.
- Support **PI planning, capacity planning, risk/issue management, dependency management, and quarterly business reviews** to improve predictability and stakeholder confidence.
- Enabled faster release cycles and continuous flow of changes through adoption of a **Continuous Delivery Pipeline (CDP)** and disciplined Agile delivery practices.
- Lead people management activities including **hiring support, onboarding/offboarding, mentoring, performance feedback, career discussions, and conflict resolution**.
- Ensure adherence to Agile best practices, Scrum principles, and organizational delivery governance standards while supporting high-quality, predictable client delivery.

Environment: Azure DevOps, Aha!, .NET, Angular, Azure App Services, Microservices, CI/CD

CAPGEMINI INDIA PVT. LTD. – Pune, India

Scrum Master / Engagement Manager | Oct 2011 – Jan 2022

Project: POL – Payments Orchestration Layer

Client: HSBC | **Domain:** Banking Payments | **Duration:** Jan 2021 – Jan 2022

- Led Agile POD delivery across **Hong Kong, Singapore, and Thailand** for a payments orchestration platform supporting **MVP milestones aligned to ISO 20022 adoption**.
- Facilitated **Scrum ceremonies, sprint planning, backlog refinement, sprint reviews, retrospectives, and daily stand-ups** to ensure smooth sprint execution and alignment with release objectives.
- Worked on **payment orchestration** initiatives supporting SWIFT payment flows and ISO 20022 migration for HSBC Payments platforms.

- Managed **backlog planning, sprint tracking, delivery reporting, and Agile metrics** using **Jira and Confluence** to improve delivery visibility and governance.
- Monitored **velocity, burndown, defect trends, and backlog health** to improve sprint predictability, transparency, and release readiness.
- Coordinated **cross-POD planning, stakeholder demos, and knowledge-sharing sessions** across distributed teams and business stakeholders.
- Tracked and mitigated **risks, issues, and dependencies** through RAID management and proactive stakeholder follow-ups.

Environment: Jira, Confluence, Java, Spring Boot, Kubernetes, Kafka, Oracle, Git, Jenkins, Postman, REST APIs

Project: LCRF – Large Corporate Receivable Finance

Client: HSBC | **Domain:** Commercial Banking | **Duration:** Oct 2018 – Dec 2020

- Served as **Scrum Master for a 20-member Agile team** delivering a **Straight-Through Processing (STP)** solution for supplier invoice and credit note processing via **HSBCNet**.
- Drove **Agile Scrum adoption** and coordinated delivery across **Business, Transformation, and Technology teams** to support milestone execution and business objectives.
- Facilitated **Sprint Planning, Daily Stand-ups, Backlog Refinement, Sprint Reviews, and Retrospectives** while partnering with the **Product Owner** on backlog prioritization and user story readiness.
- Managed **Jira dashboards, sprint metrics, and delivery reporting** to provide visibility into progress, risks, dependencies, and release readiness.
- Supported **business walkthroughs, sprint demos, user validation activities, and stakeholder communication** across the end-to-end delivery lifecycle.
- Contributed to **team onboarding, engagement, and continuous improvement initiatives**, helping strengthen Agile ways of working and team collaboration.

Environment: Jira, Confluence, Java, Spring Boot, ReactJS, REST APIs, Oracle, Git, Jenkins, Postman, Tosca

Project: GSP – Global Services Platform

Client: HSBC | **Domain:** Retail Banking | **Duration:** Jan 2016 – Sep 2018

- Led the **Move Money and HK FPS Agile POD** as **Scrum Master**, delivering functionality for **real-time 24x7 payments and retail banking services**.
- Facilitated Agile ceremonies including **Sprint Planning, Daily Stand-ups, Backlog Refinement, Sprint Reviews / Demos, Retrospectives, and Scrum of Scrums** to support sprint execution and release alignment.
- Supported **requirement analysis, backlog refinement, sprint execution, and stakeholder reporting** across business and technology teams.
- Managed **Jira / Confluence delivery artifacts, sprint metrics, and Agile reporting** to improve delivery governance, transparency, and progress visibility.
- Removed delivery impediments and supported **team onboarding, mentoring, and cross-functional collaboration** to strengthen Agile ways of working within the POD.

Environment: RTC, Quality Center, Jira, Confluence, Git, Jenkins, Maven, Postman, REST Client

QA Manager / Test Lead – Morgan Stanley

Client: Morgan Stanley | **Domain:** Capital Markets | **Duration:** Oct 2011 – Dec 2015

- Led **QA delivery and quality assurance activities** for capital markets applications, including **test planning, execution management, defect tracking, release support, and stakeholder communication**.
 - Managed **test teams, quality reporting, and release readiness activities**, ensuring adherence to delivery timelines and quality standards.
 - Built strong experience in **SDLC execution, delivery governance, cross-functional coordination, and stakeholder reporting**, which supported later transition into Agile delivery leadership roles.
-

MINDTREE LTD. – Pune, India

QA Lead / Test Analyst | Sep 2005 – Sep 2011

Worked across enterprise applications and Microsoft platforms, progressing through QA and test leadership roles.

Key assignments included:

- **Morgan Stanley – SDR Herald | Capital Markets | QA Manager**
- **Microsoft Musiwave, France | Web Application | Test Specialist**
- **Microsoft Windows Azure, USA | Cloud Platform | Module Lead**
- **Windows Live OneCare, Microsoft USA | Web & Desktop Application | Test Analyst**

Highlights:

- Led QA planning, test execution, defect management, and release validation for enterprise web, desktop, and cloud-based products.
 - Built a strong foundation in SDLC, quality engineering, stakeholder coordination, and release readiness that later strengthened delivery and project management capabilities.
-

EDUCATION
