PROFILE SUMMARY

Senior Business Analyst with 9+ years of BFSI experience across Commercial Lending, Pricing and Trade Finance. Expertise in requirements elicitation, impact assessment, data analysis, Agile delivery and translating complex business needs into technology solutions. Strong experience in stakeholder management, backlog prioritization and delivering data-driven solutions aligned with business value, operational efficiency and governance.

KEY SKILLS

Requirements Gathering & Analysis	Product Roadmap & Delivery	Stakeholder Engagement
Change Management, BRD, FRD	Solution Design & Data Analysis	Release Planning & Execution
Trade Finance Workflow	Commercial Lending & Pricing	Risk, Issue & Dependency Management

CORE COMPETENCIES

- Strong analytical skills with experience identifying trends and supporting strategic decisions
- Data-driven decision-making using dashboards, reporting insights and business impact analysis
- End-to-end workflow optimization and scalable solution delivery across enterprise banking platforms
- Strong stakeholder management with the ability to bridge business, technology and cross-functional teams

WORK EXPERIENCE

Senior Business Analyst (Senior AVP) at Wells Fargo, Hyderabad from September'24 to present

Project – Commercial Lending & Pricing Platform (Relationship Pricer)

Key Action Areas:

- Defined product vision, roadmap and backlog strategy with stakeholders, enhancing delivery clarity by ~25%
- Developed data mappings, analyzed data models and validated ETL transformations and data warehouse load
- Designed API contracts, integration specifications and data flow designs to enhance platform capabilities
- Leveraged SQL and Power BI to analyze business data, identify trends and support product decisions
- Prepared stakeholder discussions, governance updates and delivery status reports to support business
- Applied AI tools to analyze data, identify trends, and enable process optimization and operational efficiency

Consultant at Deloitte USI, Hyderabad from July'21 to September'24

Project – Internal Enterprise Transformation Program

Key Action Areas:

- Defined data requirements, transformation rules and reporting specifications for business initiatives
- Led As-Is/To-Be analysis, impact assessments and risk analysis, enabling ~15% efficiency improvement
- Coordinated business readiness activities and change adoption across transformation initiatives
- Developed status reports and meeting communications to support program governance and alignment
- Owned test scenario definition, output validation and defect resolution coordination for high-quality releases

Technology Analyst at Infosys Ltd., Pune from June'19 to July'21

Client – UBS, Switzerland

Key Action Areas:

- Managed RAID logs, governance reporting and project plans to improve project execution by ~30%
- Shaped Epics and decomposed them into user stories with acceptance criteria aligned with trade workflows
- Directed backlog prioritization, refinement and roadmap planning aligned with product strategy
- Led Sprint Ceremonies including Sprint Planning, Daily Stand-ups, Sprint Reviews and Retrospectives
- Designed wireframes to translate business needs into intuitive UI/UX, improving developer understanding

Senior Analyst at Capgemini Technology Services India Ltd., Mumbai from Nov'16 to June'19

Client – HSBC, Hong Kong and Servier, France

Key Action Areas:

- Facilitated discovery sessions with stakeholders to align requirements, priorities and solution outcomes
- Documented BRD, FRD, and SRS artifacts along with BPMN process design and ERD for database design
- Achieved 90%+ release readiness via 100% RTM (Requirements Traceability Matrix) coverage
- Supported SIT/UAT, release implementation and business adoption activities across cross-functional teams
- Contributed to application development using .NET Framework, C#, Node.js, Angular 4 and SQL Server
