Enterprise Transformation Leader – Banking & Financial Services

Driving enterprise-scale business and operating model transformation across global banking environments, translating strategy into execution through structured programs, governance frameworks, and digital enablement.

EXECUTIVE SUMMARY

- **Transformation & Program Delivery** Leader with 17+ years of experience driving enterprise transformation initiatives across global banking and GCC environments. Experienced in leading **end-to-end transformation** programs spanning operating model redesign, **process re-engineering**, automation adoption, and performance improvement.
- Delivered **USD 1.86M in cost optimization**, **~20% performance uplift**, and up to **55% efficiency gains** through structured transformation programs, disciplined program governance, and data-driven execution.
- Driving responsible adoption of **AI-enabled capabilities** by establishing governance frameworks, execution models, and guardrails that support scalable and compliant integration of AI into enterprise workflows.
- **Trusted partner** to senior stakeholders, translating **strategic priorities into executable transformation roadmaps** and leading cross-functional teams to deliver measurable and sustainable business outcomes.

CORE COMPETENCIES

- | | | |
|--------------------------------|----------------------------------|-----------------------------|
| • Business Transformation | • Operating Model Transformation | • Process Re-engineering |
| • Program & Project Management | • Process Excellence | • Automation & Digitization |
| • Transformation PMO | • Continuous Improvement | • Change Management |

CAREER HIGHLIGHTS

- Delivered **15–22% productivity gains** and **20–25% TAT reduction** through workflow simplification and process transformation initiatives.
- Collaborated on **AI governance and Prompt Engineering frameworks** to enable responsible enterprise AI adoption
- Led **large-scale operating model transformation initiatives**, improving productivity, process efficiency, and service performance.
- Drove **workflow automation transformation** across disputes, KYC, claims, refunds, and reconciliations using PEGA, RPA, STP, and Adobe Sign.
- Built **regional analytics and reporting platform**, integrating multi-system data to enable data-driven decision making across APAC banking operations.

CERTIFICATIONS

- Certified Project Management Professional (PMP®)
- Lean Six Sigma – Black Belt
- Certified Scrum Master (CSM®)
- SAFe® Product Owner / Product Manager (POPM 6.0)
- Certified Scrum Product Owner (CSPO®)
- AWS Certified Cloud Practitioner

TECHNICAL SKILLS

SAS, R, Power BI, Tableau, SQL, VBA and Python

PROFESSIONAL EXPERIENCE

VP – Lead Control Management Officer - Wells Fargo - Oct 2022 to Present

- Executed enterprise **control evaluation activities**, partnering with business, risk, and compliance stakeholders to assess control testing effectiveness and strengthen risk monitoring across critical banking processes.
- Diagnosed **structural control design gaps during QA reviews** and implemented sustainable process improvements to improve control reliability and reduce recurrence of control weaknesses.
- **Automated QA workbook validation using VBA**, eliminating manual errors and field mismatches across multi-sheet testing workbooks and improving accuracy and efficiency of QA reviews.
- Developed **VBA-based decision support tools**, embedding business logic to enable faster and more consistent evaluation of control testing outcomes.
- Implemented **centralized SharePoint-based QA tracking**, enabling real-time visibility into QA sample completion, observations, and testing progress.
- Contributing to **AI governance** and **Prompt Engineering** for Control Management defining usage standards, control frameworks, and operating guardrails to enable safe and effective adoption of AI-driven capabilities.

AVP – HSBC - Mar 2019 to Oct 2022

- Spearheaded **large-scale service transformation initiatives** across global teams (1,000+ FTEs), improving delivery resilience, performance consistency, and customer outcomes.
- Transformed **customer experience transformation** through **process excellence** and service improvement initiatives.
- Optimized operating models through **data-driven** organizational design, **improving productivity** and capacity utilization.
- Delivered **cost transformation** initiatives, improving **operational efficiency** while sustaining service performance.
- Implemented **process automation and digitization initiatives**, improving **cycle times** and **efficiency** across banking workflows.
- Developed enterprise **performance dashboards** and transformation metrics to support **data-driven decision making**.
- Institutionalized **transformation governance** frameworks enabling structured execution of cross-functional **change programs**.

Manager – HSBC - May 2017 to Feb 2019

- Diagnosed systemic performance gaps and **led targeted operational improvements** by translating large-scale KPI and productivity insights into process and workforce interventions.
- Enabled accurate **demand forecasting** and **optimized resource allocation** through volume analysis and production planning.
- Enabled **data-driven capacity optimization** through volume analytics and demand forecasting.
- Improved **process governance and operational stability** across card operations through structured process improvements.
- Led **240+** contact center and back-office staff, **re-engineering processes** to improve **customer experience**, governance, and **cost efficiency**.

Assistant Manager – HSBC - May 2013 to Apr 2017

- **Delivered end-to-end process transitions and standardization initiatives**, improving controls, compliance, and operational efficiency across cards and loans servicing.
- **Improved accuracy, turnaround time, and compliance** with card network standards by streamlining fraud monitoring, reconciliation, and dispute resolution processes **for Visa and MasterCard**.
- Streamlined **fraud monitoring, reconciliation, and dispute processes**, improving accuracy and turnaround time across card network operations.
- **Led a 40+ member team** of **MI Analysts, SMEs and complaint handlers** managing card transaction disputes, consistently tracking KPIs and performance metrics to meet and exceed agreed **service-level standards**.

Early Career – Operations - HSBC – Dec 2008 to Apr 2013

- Subject Matter Expert – Training & Quality Assurance - Nov 2010 – Apr 2013
- Complaints Resolution - Nov 2009 – Oct 2010
- Processing Executive - Dec 2008 – Nov 2009
