

ANKIT OJHA

AI Product Manager | Delivery Manager | Scrum Master

connect.ankitojha@gmail.com | +91-7985023920 | linkedin.com/in/connectankitojha | New Delhi, India

PROFESSIONAL SUMMARY

- Product Manager with ~9 years in product and delivery across **Healthcare, MarTech/AdTech, AutoTech and Telecom**, including ~3 years hands-on **GenAI and Agentic AI** product ownership. **PMP®, SAFe® 6 Agilist, CSPO®, CSM®**.
- Shipped GenAI in production**. Own a **RAG-based Tier-1 customer care assistant** handling ~40,000 support interactions per month for a global consumer healthcare (OTC) business — **91% agent adoption, 15.5% AHT reduction** (8.4 to 7.1 min), hallucination rate held at **3%** against a **5%** release gate and **90% retrieval accuracy** sustained in production.
- Delivery track record**: **25%** sprint velocity gain, **15%** project cost reduction through scope governance, and **30%** reduction in post-release rework across enterprise SaaS programs.

SKILLS

- Agentic AI / GenAI Product**: Retrieval-Augmented Generation (RAG), LLMops, Prompt Engineering, Embeddings & Vector Databases, Chunking & Top-K Retrieval Tuning, Model Evaluation & Held-Out Test Sets, Groundedness & Hallucination Guardrails, Token & Inference Cost Management, Fine-Tuning, API Function Calling, Agent-to-Agent (A2A) Architecture, Model Context Protocol (MCP), Responsible AI, Model Drift Monitoring.
- Product Management**: 0-to-1 Product Strategy, Product Roadmapping, OKRs & KPI Definition, Customer Discovery & Requirement Elicitation, MoSCoW Prioritization, PRD / BRD / FRD / NFR Authoring, Go-To-Market (GTM) Strategy, Gap & SWOT Analysis, Product Analytics, A/B Testing & Experimentation, Stakeholder Management.
- Agile Delivery & Governance**: Product Ownership (Scrum / SAFe), Backlog Refinement, Program Increment (PI) Planning, Agile Release Train (ART), Sprint Planning / Review / Retrospective, Gherkin Acceptance Criteria, Requirements Traceability Matrix (RTM), UAT Sign-Off, Risk & Scope Governance, RACI Matrix, Root Cause Analysis (Ishikawa).
- Data & Analytics**: SQL, Enterprise Data Dictionaries, Data Schema Mapping, KPI-to-Model Mapping, Power BI Dashboarding, Advanced Excel, Marketing Mix Modeling (MMM).
- Platforms & Tools**: Jira, Jira Automation, Confluence, Aha!, Azure DevOps (ADO), Azure Monitor, Miro, Mural, Figma, Balsamiq; Anthropic Claude, OpenAI GPT-4o, Google Gemini, LangChain, Hugging Face, n8n, Cursor IDE, GitHub Copilot, Azure Cosmos DB, Azure AI Search, Azure AI Foundry.
- Cloud & Infrastructure**: Microsoft Azure, Azure DevOps Pipelines, Databricks, Microsoft SharePoint, GCP, Adobe Experience Manager (AEM).

PROFESSIONAL EXPERIENCE

WNS Global Services Pvt. Ltd. (Part of Capgemini) | Gurugram, India

Feb 2025 – Present

Assistant Manager — GenAI & Agentic AI (Healthcare)

Flagship product: Tier-1 Customer Care Assistant (RAG) for a global consumer healthcare (OTC) client — ~40,000 support interactions/month

- Ran the full **6-phase CPMAI life cycle** from business case to post-deployment monitoring with a **cross-functional pod** of **12 ML engineers, data scientists and developers** across 5 geographies, delivering a **\$378K annualized run-rate benefit**.
- Architected the retrieval layer on **Azure AI Search** — **vector retrieval** with **semantic reranking**, plus **metadata filters** and **scoring profiles** that keep answers scoped to the right SKU and geography. Converted a stale, contradictory knowledge base (312-page product PDFs, FAQs, **90,000 historical tickets**, ~16% stale) into **~1,200 governed embedded chunks**, **cutting token cost 35%** at top-3 retrieval while defending **baseline accuracy**.
- Designed the **conversation and telemetry store** on **Azure Cosmos DB** — **session state**, interaction transcripts, agent feedback and override events.
- Stood up build, evaluation and deployment on **Azure AI Foundry** — **model benchmarking** and selection, **prompt orchestration** and versioning, **content safety filters**, and **automated groundedness/relevance evaluations** wired directly into the **release gate**, giving a repeatable path from prompt change to production.
- Defined the **evaluation strategy** and **release gate**: **held-out test sets** and **groundedness checks** that shipped the agent at a **3% hallucination rate** against a **5% executive gate**.
- Built **healthcare-specific guardrails**: authored and iterated **system prompts** in the Azure AI Foundry playground to restrict responses to **MLR-approved product labeling** — no dosing, diagnostic or off-label claims — layered content safety filters on top, and **fine-tuned the model** on curated healthcare support conversations to improve tone and domain accuracy.
- Built the **LLMOps monitoring layer** — **proxy drift signals** (agent override rate, retrieval miss rate) surfaced on **Azure dashboards**, which detected and reversed a live production accuracy drop before it reached **SLA breach**.
- Ran **SAFe cadence** for the product line: **backlog refinement**, **PI Planning**, and **Agile Release Train** syncs across distributed international teams.

AdGlobal360 India Pvt. Ltd. | Gurugram, India

Oct 2022 – Feb 2025

Analyst – Projects (Product & Delivery) — Automotive OEM SaaS

Products: Honda & Suzuki SaaS suite — Lead Quality System (LQS), CMS, dealer web portals, dealership sales platform

- Defined **MVP scope** for automotive SaaS products using **gap analysis, SWOT and MoSCoW prioritization**, serving multiple dealerships across 4 markets.
- Authored **PRD, BRD, FRD and NFR** documentation with interactive developer walkthroughs — **reduced post-deployment rework by 30%**.
- Facilitated full **Scrum** cadence (sprint planning, stand-ups, reviews, retrospectives) and rigorous backlog refinement — **lifted team sprint velocity 25%**.
- Delivered **15% project cost reduction** through proactive risk mitigation, scope-creep control and structured change governance.
- Engineered **enterprise data dictionaries** and schema mapping to translate business operations into database migration scripts during enterprise **CRM overhauls**.
- Owned **Requirements Traceability Matrices (RTM)** and **UAT sign-off**; drove releases from discovery through **GTM** rollout across full SDLC.

Earlier Experience — AdTech, MarTech & Programmatic Platforms

Publicis Global Delivery | Gurugram, India

Nov 2021 – Oct 2022

Associate Manager — AdTech (DSP, SSP & Programmatic Platforms)

- Partnered with **QA engineering** on scenario-based requirement walkthroughs to maximize automated test coverage and eliminate defects pre-production.
- Executed **Root Cause Analysis** using **Ishikawa (Fishbone) diagrams** and **RACI** mapping; reported delivery status to executives via sprint demos, roadmap reviews and Jira/Confluence dashboards.

Omnicom Media Group India Pvt. Ltd. | Gurugram, India

Apr 2021 – Nov 2021

Senior Associate — Agile Delivery

- Tracked sprint trajectory via **Jira burndown charts** and velocity metrics; accelerated feature deployment by refining user stories and enforcing **Definition of Ready (DoR)** standards.

Cognizant Technology Solutions India Pvt. Ltd. | Gurugram, India

Jul 2019 – Mar 2021

Process Executive — Marcel Cloud SaaS Platform

- Supported **real-time bidding (RTB)** engine infrastructure and ad auction workflows on a global programmatic platform built for microsecond scalability; administered change requests and hotfix deployments across Dev, Staging, UAT and Production.

Smart Software Services (I) Pvt. Ltd. | Pune, India

Jan 2018 – Jun 2019

Research Analyst

- Managed project charters, stakeholder communications and schedule tracking against client milestones; ran market research and competitor benchmarking to inform feature backlog prioritization.

CERTIFICATIONS

- Project Management Professional (PMP®)** – Project Management Institute (2025) · **SAFe® 6 Agilist** – Scaled Agile (2024) · **Certified Scrum Product Owner (CSPO®)** – Scrum Alliance (2024) · **Certified ScrumMaster (CSM®)** – Scrum Alliance (2024)
- Additional:** Generative AI & Prompt Engineering – PMI (2025); Registered Product Owner™ & Registered Scrum Master™ – Scrum Inc. (2025); Generative AI Fundamentals – Databricks (2025); Modern AI Fundamentals – Cisco (2025).

EDUCATION

- Bachelor of Technology (B.Tech), Electrical & Electronics Engineering** – ABES Engineering College, AKTU (2018)
