

ASHISH S. DUBEY

Mumbai, Maharashtra | +91- 8149386877 | Dubeashish1@gmail.com | linkedin.com/in/ashish-dubey123

PROFESSIONAL SUMMARY

Results-driven **Senior Business Analyst with 7+ years** of enterprise delivery experience specializing in **Procure-to-Pay (P2P), Contract Lifecycle Management (CLM), and Supply Chain**. Delivered full-cycle CLM implementations across Agiloft and Legadox platforms for **7+ enterprise clients** — Croma, Tata Capital, Sun Pharma, SBI General, Mastek, Sterling & Wilson, and SPARC — and architected a P2P Procurement Portal achieving a **30% boost in operational efficiency**. Expert in translating stakeholder complexity into precision BRDs, FRDs, and User Stories; orchestrating zero-defect UAT cycles; and driving Agile delivery using Jira, Confluence, and Zoho Projects.

CORE COMPETENCIES

Business Analysis & Requirements Engineering: BRD, FSD, User Stories & Acceptance Criteria, RTM, Use Case Development, Requirements Gathering & Elicitation, Stakeholder Analysis

Procure-to-Pay (P2P): Purchase Requisition (PR), Purchase Order (PO), GRN, Invoice Governance, Three-Way Matching, Procurement Workflow Automation

Contract Lifecycle Management (CLM): Agiloft CLM, Legadox Platform, Contract Drafting & Negotiation, Obligation Tracking, Renewal Automation, Compliance Monitoring, Vendor Contract Governance, DocuSign Integration

Business Process Optimization: AS-IS/TO-BE Analysis, Gap Analysis, Business Process Reengineering, Process Mapping, Workflow Optimization, BPMN

Governance & Approval Frameworks: Approval Matrix Design, Delegation of Authority (DoA), Workflow Routing, Governance Controls, Regulatory Compliance

Agile Delivery & SDLC: Scrum, Sprint Planning, Backlog Refinement, Agile Delivery, Waterfall & Hybrid SDLC

Testing, Release & Implementation: UAT Strategy, Test Planning, Defect Management, Risk Mitigation, Release Readiness, Go-Live Support

Vendor & Stakeholder Management: Vendor Lifecycle Management, SRM, SLA Governance, Cross-Functional Alignment, JAD Sessions, Requirements Workshops

Tools: JIRA, Confluence, Zoho Projects, Visio, Lucid chart, Advanced Excel, SQL, Data Visualization, MS Office Suite, Agiloft CLM, DocuSign, Logic Gate Risk Cloud (TPRM), Deloitte Omnia

PROFESSIONAL EXPERIENCE

Senior Business Analyst – AWS

Apr 2026 – Present

Aditi Consulting (Amazon), Mumbai

- **AWS Stakeholder Management:** Engaged with cross-functional AWS product and engineering stakeholders to gather, analyze, and prioritize business requirements; facilitated JAD sessions and requirement workshops ensuring end-to-end alignment between business objectives and technical delivery.
- **Business Requirements & Documentation:** Authored detailed BRDs, FRDs, User Stories, and Acceptance Criteria for AWS operational workflows; maintained full traceability through RTM and managed requirements lifecycle across Agile sprints in JIRA and Confluence.
- **Data Analysis & Visualization:** Conducted end-to-end process analysis of AWS operational datasets; created dashboards and visualization reports to monitor key performance indicators, service metrics, and engagement efficiency — providing actionable insights to leadership for data-driven decision-making.
- **Automation of Data Analysis:** Identified manual data processing bottlenecks and collaborated with engineering teams to define requirements for automating data analysis workflows — reducing manual effort, minimizing errors, and improving turnaround time for reporting cycles.
- Conducted AS-IS/TO-BE process mapping and gap analysis for AWS internal operational workflows; defined TO-BE state requirements and contributed to business process reengineering initiatives improving operational efficiency.
- Coordinated UAT cycles for AWS process solutions — developed test scenarios, managed cross-functional stakeholder validation, triaged defects, and confirmed production readiness for smooth go-lives.

Business Analyst – Procurement & Supply Chain

Jun 2025 – Mar 2026

Yashuss Unlimited Business Solutions, Mumbai

- **Stakeholder Workshops & Requirements:** Spearheaded cross-functional workshops with procurement, finance, and operations teams to elicit, analyze, and document business and functional requirements, ensuring end-to-end stakeholder alignment.

- **Documentation & Traceability:** Authored BRD, FSD/FRD, User Stories, Acceptance Criteria, and maintained RTM to bridge business needs with system configurations; managed full requirements lifecycle through Agile sprints.
- **P2P Lifecycle Engineering:** Engineered end-to-end PR → PO → GRN → Invoice Validation → Three-Way Matching → Multi-Level Approval Routing → Budget Controls pipeline with full procurement workflow automation.
- Conducted AS-IS/TO-BE process analysis and gap analysis to identify inefficiencies and drive business process reengineering — directly contributing to 30% operational efficiency improvement.
- Designed multi-level Approval Matrix (DoA) frameworks and defined business validation rules, exception handling logic, and vendor onboarding protocols for robust vendor lifecycle management.
- Configured SLA monitoring dashboards, shipment tracking tools, and supply chain visibility metrics to improve operational coordination and executive decision-making velocity.
- Orchestrated UAT cycles: developed test scenarios, managed cross-functional validation, triaged defects, mitigated risks, and confirmed production readiness for zero-downtime go-lives.
- Authored SOPs, user manuals, and training materials; led KT sessions facilitating smooth change management, high user adoption, and long-term operational continuity.

Business Analyst – CLM & Supply Chain

Dec 2021 – May 2025

Prosares Solutions Pvt. Ltd., Mumbai

- **CLM Delivery – 7+ Enterprise Clients:** Delivered full-cycle CLM implementations across Agiloft and Legadox platforms for Croma, Tata Capital, Sun Pharma, SBI General, Mastek, Sterling & Wilson, and SPARC — driving digital transformation in legal, procurement, and compliance functions. Configured Agiloft workflows, clause libraries, templates, permissions, and reports; managed end-to-end setup, customisation, and implementation including DocuSign integration for e-signature automation.
- Conducted deep-dive requirements elicitation with legal, procurement, and compliance stakeholders; translated complex contractual needs into functional specifications and system configuration requirements.
- **Contract Lifecycle Workflows:** Designed contract drafting, clause library management, multi-level approval routing, automated renewal triggers, amendment tracking, termination processes, and end-to-end obligation management; integrated DocuSign for seamless e-signature workflows within the contract lifecycle.
- Implemented approval governance frameworks with regulatory compliance checks, risk mitigation controls, and full audit traceability — supporting internal and external regulatory audits.
- **Agiloft CLM Administration & Support:** Administered and customised Agiloft CLM — configuring workflows, approval templates, clause libraries, user permissions, and reporting dashboards; provided ongoing user support, system troubleshooting, and platform enhancements to drive adoption and operational continuity.
- **Risk & Audit Tool Administration:** Supported administration and configuration of Logic Gate Risk Cloud (TPRM) for third-party risk management workflows; worked with Deloitte Omnia audit tool to facilitate audit documentation, control testing coordination, and compliance evidence management.
- Collaborated with engineering teams to configure contract metadata structures, document management controls, workflow routing logic, and CLM platform integration touchpoints.
- Led UAT programmes across all 7+ deployments — developed test scenarios, managed stakeholder validation, triaged defects, confirmed production readiness; zero critical post-go-live defects across the portfolio.
- Maintained comprehensive documentation suite (functional specs, release notes, configuration guides, user manuals) enabling seamless knowledge transfer and sustained operational continuity.

Test Engineer

Aug 2021 – Oct 2021

Foray Software Pvt. Ltd., Bangalore

- Developed and executed functional test cases and regression test suites aligned with business requirements and functional specifications, ensuring high software quality and QA standards adherence.
- Participated in Agile sprint cycles supporting defect triage, bug tracking, defect management, and validation processes in close collaboration with development and QA teams.

Associate Software Engineer

Apr 2019 – Jun 2021

Hexaware Technologies Ltd., Navi Mumbai

- **Airline Domain Testing – Air Canada:** Executed functional and regression testing for the ticket booking module — validating fare calculations, availability checks, passenger reservation workflows, and booking processes against business requirements.
- Reviewed requirement documents, functional specifications, and user stories to identify validation gaps prior to release, contributing to reduced post-production defects.
- Collaborated with BA, Dev, and QA teams in Agile environment for defect triage, root cause analysis, retesting, and verification — maintaining high QA standards throughout the SDLC.

Web Support Engineer

Apr 2018 – Apr 2019

Kush Infosystem Pvt. Ltd., Mumbai

- Provided first-line technical and functional support for enterprise web applications, troubleshooting functionality, performance, user access, and browser compatibility issues.
- Assisted in requirements clarification, user feedback analysis, and documentation updates (knowledge base, FAQs, checklists) — reducing repeat incidents through improved self-service resources.
- Collaborated with Dev, QA, and client teams to reproduce defects, verify fixes in staging, and support post-release monitoring to facilitate smooth deployments.

KEY ACHIEVEMENTS

- **P2P Portal – Full-Cycle Ownership:** Spearheaded end-to-end Procure-to-Pay portal implementation integrating PR, RFQ, PO, GRN, invoice governance, three-way matching, multi-level approval frameworks, and workflow automation — delivering 30% operational efficiency gain and enterprise-wide procurement visibility.
- **CLM at Scale – 7+ Marquee Clients:** Led Legadox and Agiloft CLM deployments for Croma, Tata Capital, Sun Pharma, SBI General, Mastek, Sterling & Wilson, and SPARC — designing governance, obligation management, auto-renewal triggers, amendment tracking, DocuSign e-signature integration, and audit-compliant workflows. Zero critical post-go-live defects across the entire portfolio.
- **UAT Programme Leadership:** Designed and led UAT strategy across multiple enterprise P2P and CLM programmes — developing test scenarios, coordinating stakeholder validation, managing defects, and confirming release readiness — achieving successful go-lives with minimal post-production issues and high user adoption.
- **Organisational Recognition:** Recognised for precision-grade documentation (BRD, FSD, RTM, SOPs, configuration guides), structured JAD facilitation, and governance-driven system design — enabling seamless business-IT alignment and knowledge continuity across Agile delivery environments.

EDUCATION

University of Mumbai, Mumbai, Maharashtra

2017

Bachelor of Science in Information Technology (B.Sc. IT)
