Website Reviewed: <https://www.doright.world>

1. Design Review

- The overall design of the website lacks visual appeal.
 - The **color scheme is dull** and not vibrant, which makes the content less engaging.
 - The **navigation bar only has two buttons**, which makes the website feel incomplete and confusing.
 - The **images used are not attractive** and do not capture attention or reflect the brand effectively.
-

2. User Experience Review

- The website is simple, but it does not offer a **smooth and interactive experience** for users.
 - Important sections like “About Us,” “Contact,” or “Services” are **missing from the top menu**.
 - There are **no clear call-to-action (CTA)** buttons to guide users.
 - The content feels disconnected and **does not highlight the purpose** of the website well.
-

3. Suggestions for Improvement

- Use a **more vibrant and modern color scheme** to improve visual engagement.
 - Add more **navigation options** such as “About,” “Services,” and “Contact” for better usability.
 - Replace current images with **high-quality and brand-relevant visuals**.
 - Add clear **CTA buttons** like “Learn More,” “Get Involved,” or “Join Us” to guide user flow.
 - Improve the homepage layout with **well-defined sections** and headlines to make it easier for visitors to understand the website’s mission.
