

AYUSH SAXENA

+91 7007578720 ◇ Bengaluru, India

ayushsaxena0210@gmail.com ◇ [linkedin.com/in/ayushsaxena210/](https://www.linkedin.com/in/ayushsaxena210/)

OBJECTIVE

Machine Learning Engineer with 4 years of hands-on experience, specialized in applying cutting-edge machine learning algorithms and deep learning architectures to address complex challenges and drive innovation, seeking full-time roles.

EDUCATION

Master of Science in Machine Learning & AI

IIIT Bangalore & LJMU

2023 - 2025

Bachelor of Technology in Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University

7.16 CGPA

2017 - 2021

SKILLS

Technical Skills	TensorFlow, Keras, PyTorch, Scikit-learn, Langchain, MLflow, Airflow, AWS Sagemaker, OpenAI, LlamaIndex, RAG, CNNs, RNNs, LSTMs, GANs, Transformers - LLama, Mistral, GPT, BERT, LLM fine-tuning, Generative AI
Data Analysis	Pandas, NumPy, Matplotlib, Seaborn
Deployment	Docker, Flask, FastAPI, Streamlit, Django
Cloud	GCP, AWS
Programming	Python, Java, C
Version Control	Git, BitBucket, DVC
Databases	SQL, NoSQL, MongoDB, PostgreSQL

EXPERIENCE

Machine Learning Engineer (R&D)

NEC Corporation India

Sep 2021 - Present

Bengaluru, India

- Led end-to-end machine learning workflows, including data collection, feature engineering, model training, and deployment using Django and Streamlit.
- Fine-tuned LLM models for social media text analysis and created efficient inference APIs with Flask.
- Contributed to data strategy, identified/integrated new datasets, and collaborated on end-to-end AI/ML projects. Implemented analytical models in production, collaborating seamlessly with software developers.
- Communicated analytic solutions to stakeholders and iteratively improved operational systems.
- Conducted ideation, contributing to innovative solutions in Healthcare and Smart City domains.

Trainee

NEC Corporation India

Jan 2021 - Aug 2021

Bengaluru, India

- Developed predictive models aligned with product owner requirements, collaborating with data scientists, BIEs, and BAs. Executed projects, designing, implementing, and maintaining large-scale ETL processes for a global client.

PROJECTS

AI-Powered Urban Grievance System

Jan 2024 - Present

- Developing an AI-driven Grievance Management System for Indian Smart Cities, leveraging **GenAI (OpenAI, LLaMA3), Retrieval-Augmented Generation (RAG),** and **BERT models**. The system captures citizens' problems from a vast corpus of social media and RSS feed data, enabling city operators to proactively address issues, enhance city maintenance, and improve safety

SNS Analysis Tool, ICCC

Apr 2023 - Feb 2024

- Developed an advanced SNS Analysis Tool incorporating high-accuracy **BERT & GPT models** for sentiment analysis and grievance classification. This tool empowers authorities to efficiently address citizen concerns on platforms like Twitter.

MedTechAssist: AI-Enhanced Smart Notepad

Jan 2023 - Aug 2023

- This AI-driven solution streamlines medical workflows, utilizing ML algorithms & **OpenAI models** to structure prescriptions efficiently, save in EMR, and generate insightful graphs for informed decisions.

Risk Analysis Tool

Nov 2021 - Dec 2022

- Engineered a comprehensive risk analysis tool for visualizing industry and company-level risks, categorizing them by sentiment and opinion. This tool analyzed real-time news from various sources, facilitating fund managers in efficient risk management.

ACHIEVEMENTS

ACE OF INITIATIVE AWARD, NEC Corporation India

2023

- Recipient of the ACE OF INITIATIVE AWARD for visionary leadership in proposing the concept of Visual Pollution Detection.

Team SPOT Award @ NEC R&D

Jan 2022

- Associated with NEC, for developing CropIQ. Team showed exceptional contribution and has gone out of the way.

Winner of AGBI Digital HealthTech Global Hackathon

- Organized by Virtusa & Dr. Mehta's GH @HackerEarth

Runner up in SX-AURORA TSUBASA Global Hackathon

- Conducted by HackerEarth held @ Bengaluru on 28-29th Sept. 2019

Winner of National Level IOT-INNOVATIONS TECHNOLOGIES Competition

- Conducted by IIT BHU Varanasi

CERTIFICATES

Business Analytics for Decision Making

University of Colorado Boulder

2022

Convolutional Neural Networks in TensorFlow

DeepLearning.AI

2022

Natural Language Processing in TensorFlow

DeepLearning.AI

2022

Sequences, Time Series and Prediction

DeepLearning.AI

2022
