PROFESSIONAL EXPERIENCE

PricewaterhouseCoopers (PwC) - Assistant Manager

(February 2022 – Present)

- Delivered comprehensive ESG reporting solutions by drafting SEBI mandated Business Responsibility and Sustainability Reports (BRSR) and Sustainability reports in reference to GRI-Standards for 15+ clients across Manufacturing, Battery, Pharma, Steel, Banking, and E commerce sectors, achieving 100% on-time delivery.

- Conducted advanced materiality assessments including double materiality analysis and IRO mapping for multinational corporations, identifying critical sustainability matters for CSRD reporting compliance.
- Authored strategic CDP responses providing gap assessments and actionable recommendations that elevated client scores to CDP Leadership A-level.
- Calculated and reported greenhouse gas emissions (Scope 1, 2 & 3) for diverse organizations using GHG Protocol
- Managed end-to-end project lifecycles for 15+ ESG engagements, maintaining 97% client satisfaction rate from initial proposals through final delivery
- Led client workshops and training sessions for 200+ stakeholders across various organizations/key departments, improving ESG data collection accuracy and reducing reporting cycle time by 25%
- Developed ESG and compliance policies by conducting thorough gap assessments for 8+ clients, resulting in 90% policy implementation success rate and enhanced regulatory compliance

S&P Global Inc - Senior Data Researcher I - ESG Data

(November 2018 - January 2022)

- Analyzed and disseminated ESG data for DJSI Index family by drafting 500+ comprehensive Corporate Sustainability Assessment (CSA) responses
- Served as Subject Matter Expert (SME) providing resolutions for ESG-related queries
- Performed quality assurance reviews of ESG data points, achieving high data accuracy and reducing error rates.
- Conducted ethical exclusionary screening for 200+ companies annually, analyzing corporate involvement in restricted sectors and determining revenue impact.
- Directed data quality review projects, ensuring accuracy, consistency, and methodological integrity across large ESG datasets.
- Analyzed climate disclosures (CDP, TCFD, SDGs) and materiality matrices, benchmarking companies against global ESG standards.

S&P Global Inc - Data Researcher III - Corporate Governance Takeover Defence

(August 2010 - October 2018)

- Managed research workflows to capture corporate governance and takeover defense strategies for Fortune 500 and global firms.

- Extracted and validated governance data from proxies, annual reports, SEC/Sedar filings, and public disclosures.
 - Delivered benchmarking reports on governance frameworks and shareholder rights to support institutional investors.
 - Collaborated with cross-regional teams, ensuring timely delivery and accuracy of governance datasets.
-
