Organizational Experience

WELLS FARGO, Hyderabad | Since Jul'22

Senior Independent Testing Specialist & Senior Control Management Specialist

- Conduct verification testing across the Issue Management lifecycle to assess the effectiveness of remediation efforts, validate issue closure, and provide Issue Ratings in line with enterprise risk standards. Collaborate with business stakeholders to gather and document business, risk, and control requirements, perform impact assessments, and support enterprise risk, regulatory, and control enhancement initiatives. Partner with Audit, Legal, Compliance, Technology, QA, and Operations teams to ensure alignment with enterprise control frameworks, coordinate UAT, and support successful implementation of control enhancements. Perform independent assurance testing and validation for RCSA controls, IMTV (Independent Monitoring Testing & Validation), CARA (Compliance Aggregated Risk Assessment), and ICT (Incremental Compliance Testing) across global business functions. Conduct end-to-end control evaluations, evidence reviews, root cause analysis, and gap assessments to evaluate the effectiveness of processes, systems, procedures, and internal controls, while recommending control enhancements. Prepare functional documentation, test scenarios, validation artifacts, detailed testing reports, executive-ready summaries, and governance documentation to communicate key observations, risk impacts, and remediation status. Support end-to-end project execution by coordinating requirements gathering, testing, implementation, post-production validation, stakeholder communication, and business sign-offs while maintaining project governance trackers and monitoring milestones. Drive consistency and quality across testing programs by standardizing methodologies, strengthening governance practices, supporting continuous improvement initiatives, and identifying automation opportunities to enhance operational effectiveness. Prepare monthly management dashboards, executive presentations, risk metrics, checklists, and governance reports while supporting leadership with strategic reporting, transformation initiatives, and process optimization.
