Tools & Technical	JIRA & Confluence SQL (data analysis & workflow optimisation) Agile / Scrum CSM Certified

PROFESSIONAL EXPERIENCE

Senior Business Analyst Tata Consultancy Services	Jan 2023 – Present
--	--------------------

► Client: Trafigura | Axiom Regulatory Reporting

- Analysed and interpreted regulatory reporting requirements; translated them into detailed BRDs and FSDs for implementation on the Axiom Controller View platform.
- Defined functional specifications for data cubes, workflows and reporting outputs; reviewed designs with development teams to ensure business requirements were accurately reflected.
- Identified and documented data workflow gaps in collaboration with technical teams; optimised SQL-based reporting processes, reducing execution time by ~1 hour.
- Conducted requirement walkthroughs and reviews with business stakeholders; managed scope changes and ensured traceability from requirements through to delivery.
- Facilitated weekly business review calls, produced status reports and managed requirement-related escalations to resolution.
- Defined and owned release documentation in JIRA; coordinated sign-off and ensured requirements were met prior to each release.
- Analysed transaction reporting obligations and documented functional requirements to support compliance with regulatory reporting SLAs.
- Conducted root cause analysis on reporting incidents; documented findings and worked with development teams to implement fixes.
- Collaborated with cross-functional teams to identify process improvement opportunities and documented revised workflows and business rules.
- Acted as requirements point-of-contact for business stakeholders, clarifying scope and ensuring timely resolution of functional queries.

► **Client: Citi Group | Fund Service Reporting**

- Gathered and documented detailed business requirements for audit and transaction reporting solutions covering equity, fixed income, dividend and interest reports.
- Authored functional specifications defining clear scope for report migration and enhancement; ensured requirements were aligned with business and compliance expectations.
- Analysed existing reporting systems to identify gaps and improvement opportunities; documented findings to support migration planning.
- Planned and executed UAT for daily asset summary and by-type reports; designed test scenarios, tracked defects and managed resolution through the full defect lifecycle.
- Coordinated requirement dependencies across development, QA and business teams; proactively flagged and resolved ambiguities to avoid delivery delays.
- Presented requirements and UAT outcomes to business stakeholders; secured sign-off by ensuring deliverables met functional expectations.

Operation Executive – Dealer (Equity & Derivatives)
Stock Holding Corporation of India Ltd.

Sep 2016 – Dec 2019

- Provided financial planning and investment advisory to HNI clients across equity and derivatives markets based on market research and risk profiling.
- Ensured compliance with SEBI regulations, KYC guidelines and audit requirements; handled Demat account operations for domestic and NRI clients.
- Managed DP operations including dematerialisation, transmission, DIS processing and account modifications.
