Crystal Report, RDLC

Data Report, XML Report

Visual Studio 2019+

MS Azure, AWS, Docker

Microservices, Kubernetes

Profile

Senior .NET Full Stack Developer with **10+ years of experience** in designing, developing, and deploying enterprise-scale applications using **C#, ASP.NET Core, .NET, Azure Cloud, Angular, Microservices, SQL Server, Power Apps, Power BI, Microsoft Power Automate, SharePoint, Docker, and Kubernetes** leveraging AI-powered development tools such as **GitHub Copilot, Cursor AI, ChatGPT, Claude AI, and OpenAI APIs** to improve code quality, accelerate development, generate unit tests, and enhance productivity. Proven expertise in building scalable, secure, and high-performance solutions across **Automotive, Payments, Banking, Cards, Retail, and Healthcare** domains.

Experienced in developing **RESTful APIs**, cloud-native applications, distributed systems, and microservices architectures, with strong knowledge of **Azure DevOps, CI/CD pipelines, system integration, database optimization, and cloud-based enterprise solutions**. Hands-on experience in delivering business-critical applications involving **vehicle and manufacturing management systems, automotive digital platforms, payment processing, core banking operations, card management systems, customer onboarding, retail business solutions, healthcare workflows, and enterprise digital transformation initiatives**.

Strong understanding of **SOLID principles, Design Patterns, Agile/Scrum methodologies, Test-Driven Development (TDD), and the complete Software Development Life Cycle (SDLC)**. Experienced in collaborating with cross-functional teams, product owners, business stakeholders, and global teams to deliver innovative, reliable, and customer-centric solutions that improve operational efficiency, system performance, and business growth.

Employment History

Software Developer at Expleo Group, Pune

FEBRUARY 2021

- Having 10+ years of IT experience in requirements gathering, analysis, design, development, and maintenance of Windows and Web-based applications using Microsoft technologies including **C#, ASP.NET, ASP.NET Core, .NET, Web API, MS Azure, Angular, Microservices, Power Apps, Power BI, Microsoft Power Automate, and SharePoint**.
- Designed and developed Microservices-based applications using ASP.NET Core.
- Experience in distributed systems, event-driven architecture, and cloud-native application development.
- Hands-on experience with Azure App Services, Azure Functions, Azure Storage, Azure Service Bus, and Azure Key Vault.
- Skilled in implementing secure and scalable cloud solutions using Azure services.
- Experience in Azure API Management and cloud integration patterns.
- Built microservices for account management, fund transfers, loan processing, and customer onboarding.
- Developed scalable ASP.NET Core microservices for account management, fund transfer, loan processing, and customer onboarding modules serving 1M+ banking customers.
- Designed secure REST APIs and integrated Core Banking systems with payment and third-party financial services.
- Developed Core Banking solutions for account management, customer onboarding, loan processing, and transaction management.
- Experience integrating SWIFT, SEPA, NEFT, RTGS, and payment gateway systems.

Software Developer at Ceinsys Tech Limited , Pune

MAY 2020 — JANUARY 2021

- Strong expertise in **C#, ASP.NET Core, .NET 6/.NET 8, Web API, MVC, and Entity Framework Core**.
- Strong understanding of Agile Scrum methodology and Software Development Life Cycle (SDLC).

Languages

English

Marathi

- Experienced in designing and developing scalable RESTful APIs and enterprise-grade applications.
- Proficient in implementing asynchronous programming using async/await and multithreading concepts.
- Developed healthcare applications supporting patient management, appointment scheduling, and reporting solutions.
- Hands-on experience with SOLID principles, Design Patterns, Dependency Injection, and Clean Architecture.

Software Developer at PDS Infotech Pvt. LTD, Kolkata

DECEMBER 2016 — MARCH 2020

- Optimized user effectiveness by creating a detailed feedback queue for users to discuss functionality, convenience, and effectiveness.
- Developed responsive and user-friendly web applications with reusable UI components.
- Researched primary technological developments to determine whether implementation into organizational processes was efficient and feasible.
- Good interpersonal skills, commitment, result-oriented, hard working with a quest and zeal to learn new technologies and undertake challenging tasks.

Software Developer at Graficali , Mumbai

JANUARY 2016 — DECEMBER 2016

- Maintained a system for documenting code and keeping track of software developments.
- Software requirement analysis, Software designing, Coding, Database structure, Designing and development, Software development, manual testing and handled demos, interacted with both offshore and onshore clients.

Software Developer at ADCC INFOCAD Ltd , Nagpur

AUGUST 2014 — OCTOBER 2015

- Experience in card management systems including card issuance, transaction processing, and settlement workflows.
 - Presented to management an end-of-term demonstration on valuable software developments that were in the works.
- Good skills in Object Oriented Technology (Oops) and experience in designing/customization of Forms and developing of Windows, web based Applications using 3 tier architecture.

Education

Bachelor of Computer Application (BCA), DR.C.V.Raman university, Bilaspur

APRIL 2011 — MARCH 2014

Courses

Exam 486: Developing ASP.NET MVC Web Applications, Microsoft

JANUARY 2021

- *Designing and developing web applications in an ASP.NET MVC model*
- *Planning and designing user interaction solutions based on business requirements*
- *Experience with the full software development life cycle of web applications*
- *Developing and deploying to multi-tier environments, including Azure*
- *Designing and developing asynchronous solutions*

Exam AZ-204: Developing Solutions for Microsoft Azure, Microsoft

FEBRUARY 2021
