PROFESSIONAL EXPERIENCE

Citi Bank (Optimum Infosolutions Payroll)

Feb 2026 – Present

Business Analyst – Capital Markets | UAT & Migration

Pune, Maharashtra

- Lead business analysis activities for the migration from NCS to TCS BaNCS, supporting Capital Markets processes across Corporate Actions, settlement, payments and SWIFT release workflows.
- Gather and refine functional requirements, BRDs/FRDs, user stories and acceptance criteria for Corporate Action settlement, announcement payments and SWIFT release processes.
- Collaborate with Business, Technology and QA stakeholders to clarify requirements, identify functional gaps and support resolution of implementation issues.
- Participate in Agile delivery through sprint updates, stakeholder governance and progress reporting; maintain visibility of risks, issues and release readiness.
- Support UAT and business validation by reviewing scenarios, validating delivered functionality and supporting sign-off for Capital Markets migration releases.

Deutsche Bank

Feb 2023 – Feb 2026

Business Analyst – Capital Markets

Pune, Maharashtra

- Worked on Capital Markets change and migration initiatives across Equities, Fixed Income and Corporate Actions, supporting end-to-end trade, settlement and payment processes.
- Gathered and analysed functional requirements and translated them into BRDs, FRDs, user stories and acceptance criteria for system enhancements and migration initiatives.
- Worked on Corporate Action settlement and payment processes, including mandatory and voluntary events, announcement flows and downstream settlement impacts.
- Supported SWIFT-based settlement and payment workflows by analysing message flows, release issues and downstream processing requirements.
- Participated in Agile/Scrum delivery, supporting backlog refinement, user-story grooming, sprint updates and stakeholder reviews with the Product Owner.
- Performed gap analysis and process mapping across trade lifecycle, settlement and payment workflows to identify process improvements and system enhancement opportunities.

- Collaborated with Business, Technology, QA and Project teams to define functional behaviour, resolve issues and support implementation; led UAT and business sign-off for a Payment Automation project.
- Supported regression and sanity validation following deployments and defect fixes as part of the broader SDLC.

BNY Mellon

Nov 2020 – Jan 2023

Intermediate Representative – Corporate Actions

Pune, Maharashtra

- Processed mandatory and voluntary Corporate Action events and performed post-payment reconciliation across Capital Markets workflows.
- Conducted quarterly UAT with business sign-off for system releases and supported automation initiatives for Corporate Actions processing.
- Resolved system issues raised through JIRA and partnered with stakeholders on requirement gathering and solution documentation.
- Conducted training and knowledge-transfer sessions for new joiners to improve onboarding and process understanding.

SELECTED CAPITAL MARKETS PROJECTS

Payment Automation – Deutsche Bank

- Gathered business requirements and supported UAT through production validation across Corporate Action payment processing and SWIFT flows.

Corporate Action System Migration – Deutsche Bank

- Supported requirement refinement and migration of mandatory/voluntary Corporate Action payment processing, including exceptions and SWIFT validation.

TCS BaNCS / NCS Migration – Citi

- Supporting product transformation across Corporate Actions settlement, announcement payments and SWIFT release processes.

IMPACT & TOOLS

- Built a Power BI Business Volume Monitoring Dashboard to help leadership track performance metrics and support organizational restructuring decisions.
- Developed Excel Macros for Corporate Action entitlement calculations, improving productivity and accuracy by 25%.

Tools: JIRA, Confluence, SQL, Power BI, Advanced Excel, Macros, CATS, TCS BaNCS
