

CHAKRABORTYRISHAV

Senior Software Engineer

+916290231494 rishavchakraborty787@gmail.com
[linkedin.com/in/rishav-chakraborty-287](https://www.linkedin.com/in/rishav-chakraborty-287) Kolkata, India

PROFESSIONAL SUMMARY

Senior Software Engineer with **5+ years** of experience designing and scaling enterprise-grade **Java Spring Boot microservices** across **banking, payments, and healthcare** domains. Proven expertise in **distributed systems, event-driven architectures, cloud-native deployments**, and **security-compliant platforms**, delivering **40%+ performance gains, 99.9%+ uptime**, and production-grade **CI/CD automation**.

TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, Python, SQL
Backend	Spring Boot, Hibernate, JPA, Spring Security, Node.js
Frontend	React.js, Angular 17, HTML, CSS
Architecture	Microservices, REST, GraphQL, SOAP, Kafka, Event-Driven Systems
Databases	PostgreSQL, MongoDB, Redis
DevOps/Cloud	Docker, Kubernetes, Jenkins, GitHub Actions, AWS, CI/CD
Tools	Git, Splunk, JUnit, Mockito, Jira

PROFESSIONAL EXPERIENCE

Delivery Senior Software Engineer
Mphasis India Pvt. Ltd.

July 2025 – Present
Bangalore, Karnataka, India

- Architected and launched **15+ Spring Boot microservices** for **Tier-1 U.S. banking platforms** handling **millions of daily transactions** with **99.9% availability**.
- Engineered **REST and Kafka-based event-driven services** using **PostgreSQL, MongoDB, and Redis**, decreasing inter-service latency by **30%**.
- Established **CI/CD pipelines** with **Docker, Kubernetes, and GitHub Actions**, enabling **zero-downtime deployments**.
- Spearheaded production incident triage using **Splunk**, cutting **MTTR by 35%**.

Associate Production Software Engineer
Oracle Cerner

June 2022 – July 2025
Kolkata, West Bengal, India

- Optimized large-scale **MapReduce data pipelines**, accelerating processing time by **30%** across **healthcare analytics systems**.
- Constructed **Job Registry microservice** with **Spring Boot and React**, enhancing operational reliability by **40%**.
- Instituted **fault-tolerant CI/CD pipelines** using **Jenkins**, minimizing deployment failures by **35%**.
- Formulated **AWS-based monitoring and alerting**, slashing platform downtime by **40%**.

Software Engineer
PricewaterhouseCoopers (PwC)

May 2021 – May 2022
Kolkata, West Bengal, India

- Delivered high-performance **REST and SOAP services** on **AWS**, trimming API latency by **20%**.
- Orchestrated enterprise-grade **cryptographic security layer** with **RSA-SHA256 digital signatures** and **Visa/MasterCard MLE standards**, achieving **100% PCI DSS compliance**.
- Crafted secure **Java modules** for **BRAC and CITY Bank**, boosting transaction throughput by **40%**.

KEY PROJECTS

Account Inquiry Microservice | Java, Spring Boot, GraphQL, Splunk

December 2025 – March 2026

- Developed **high-throughput service** handling **1M+ daily account inquiries** using **multi-threading**, elevating throughput by **45%** and achieving **sub-200ms response times**.
- Integrated **GraphQL APIs** and **thread-safe caching**, lowering database load by **60%** and reducing query execution from **500ms to 180ms**.
- Deployed **centralized logging and monitoring** across **5 environments**, shortening incident resolution time by **30%** and enabling **99.95% uptime**.

Funds Transfer Service | Java, Spring Boot, Kafka, MongoDB

July 2025 – December 2025

- Built **mission-critical banking service** processing **500K+ daily transfers** with **99.99% availability** and **\$2B+ monthly transaction volume**.
- Orchestrated **multiple external banking APIs**, decreasing reconciliation failures by **45%** and reducing settlement time from **4 hours to 30 minutes**.

Healthcare Analytics Platform | Java, Spring Boot, MapReduce, AWS

January 2022 – December 2024

- Streamlined **analytics pipelines** processing **10TB+ healthcare datasets daily**, compressing execution time by **30%** and handling **5M+ patient records**.
- Strengthened **system reliability** through **fault-tolerant service design and monitoring**, achieving **99.8% uptime** across **3 data centers**.

QR-Based Payment System (Visa & MasterCard) | Java, Spring Boot, AWS

January 2021 – December 2022

- Structured secure **QR payment platform** for **real-time merchant transactions** at **BRAC Bank**, processing **250K+ daily transactions** worth **\$5M+**.
- Pioneered **end-to-end encryption framework** leveraging **RSA-SHA256 cryptographic protocols** and **Visa/MasterCard MLE specifications**, fortifying regulatory adherence across payment infrastructure.
- Amplified transaction throughput by **40%** while mitigating fraud risk, reducing fraudulent transactions by **65%**.

EDUCATION

Maulana Abul Kalam Azad University of Technology

January 2016 – December 2020

Bachelor of Technology in Electronics & Communication Engineering

GPA: 8.37/10

- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Object-Oriented Programming
- **Academic Projects:** Designed real-time embedded systems, developed signal processing applications, and built network simulation tools

AWARDS & RECOGNITION

Creator Award – Process Automation | Oracle Cerner

May 2024

- Recognized for developing **innovative automation framework** that reduced manual operational tasks by **70%**, saving **200+ engineering hours monthly**

Overachiever Award – Jira Excellence | Oracle Cerner

August 2023

- Acknowledged for **exceptional project management** and consistently delivering **15+ high-priority tickets monthly** with **98% on-time completion rate**

Mission-Critical Delivery Award | PwC

March 2022

- Honored for successfully delivering **critical payment gateway system 2 weeks ahead of schedule**, enabling **\$10M+ monthly transaction processing** for BRAC Bank
