

CHARAN SAI PONDURU

ENGINEERING MANAGER | CLOUDOPS | DEVOPS | SRE | CI/CD

Bangalore, KA 560109 • 9040660409 • charansai.pondhuru@gmail.com

TARGET ROLES: SENIOR ENGINEERING MANAGER | DIRECTOR – CLOUDOPS/DEVOPS | HEAD OF SRE/

PROFESSIONAL SUMMARY

- **Engineering Leader** with 15+ years in **CloudOps, DevOps, and, SRE**, leading teams of up to **40+ engineers** and **delivering 99.99%** uptime for global SaaS platforms.
- Proven record in multi-cloud architecture, automation, and large-scale distributed systems, delivering **30% cost savings** and accelerating release cycles from weeks to hours.
- Proven 8-year track record in engineering leadership, delivering large-scale cloud and automation initiatives with measurable business impact.
- **Extensive expertise in DevOps practices and SRE principles**, delivering high-availability, resilient, and scalable systems.
- **Proficient in multi-cloud environments** including AWS, GCP, Azure, and Oracle Cloud, with hands-on experience in architecture, migration, and optimization.
- **Skilled in DevOps toolchains** such as Git/GitHub, Jenkins, Docker, and Kubernetes for CI/CD automation and container orchestration.
- **Experienced in enterprise monitoring and observability solutions** including Datadog, AppDynamics, Prometheus, and Zabbix for proactive incident prevention.
- **Recognized trainer and mentor** in Oracle WebLogic, Cloud, and DevOps, enabling team upskilling and knowledge transfer across global teams.
- **Strong leadership in strategic planning and governance**, driving enterprise cloud strategy, IT compliance, stakeholder alignment, and global delivery excellence.

PROFESSIONAL ACHIEVEMENTS

- Delivered **99.9% uptime** for critical production systems by implementing High Availability & Failover strategies.
- Architected self-healing infrastructure for **100+ Linux servers**, reducing MTTR by 50% via automated anomaly detection (Python + Datadog).
- Spearheaded cloud migration projects and saved a lot annually in infrastructure costs.
- Implemented **CI/CD pipelines**, reducing deployment time significantly.

CORE LEADERSHIP HIGHLIGHTS

- **Strategic Roadmap Execution:** Led multi-cloud platform engineering across 4 clouds (AWS, Azure, GCP, OCI), achieving 99.99% uptime for mission-critical retail SaaS products.
- **DevOps Transformation:** Architected self-service CI/CD pipelines and IaC frameworks (Terraform, Ansible, Helm) cutting infra provisioning time from 3 days to 45 minutes.
- **Global Team Leadership:** Managed 35+ engineers across geographies, fostering a culture of engineering excellence, agile delivery, and innovation.
- **Cost Optimization:** Achieved 30% annual cloud spend reduction through reserved capacity, autoscaling policies, and resource rightsizing.

KEY PROJECTS

- Scaled multi-cloud infrastructure (**AWS/GCP/Azure/OCI**) for **2M+ users**, achieving **99.99%** SLA via HA architectures and AI-driven observability.
- Led **OCI migration** of **30+ client environments**, delivering seamless transition with <2 hours downtime and ensuring full compliance with security and performance SLAs.
- Designed autoscaling policies for Kubernetes clusters handling 2B+ daily API calls.

CORE COMPETENCIES AND SKILLS

Cloud Tech Stack	AWS Cloud, Azure Cloud, Google Cloud and Oracle Cloud.
DevOps Tools	Git/GitHub, Jenkins, Dockers and Kubernetes
Monitoring Tools	Datadog, AppDynamics, Prometheus and Zabbix.
Server Stack	Oracle WebLogic, Apache Tomcat and Nginx
Leadership Skills	Agile/Scrum, IT Governance & Compliance, OKR/KPI Development
Distributed Systems	AWS EKS, GKE, AKS, Kubernetes, Istio
DevOps/SRE	Terraform, Ansible, Prometheus, Datadog, SLI/SLO frameworks

PROFESSIONAL EXPERIENCE

- **Engineering Manager- DevOps/Cloud/SRE, Oracle – Bengaluru, India**, 04/2017 to 09/2025
- **Principal Technologist, Oracle – Bengaluru, India**, 10/2014 to 04/2017
- **Senior WebLogic Administrator, CGI – Bengaluru, India**, 06/2009 to 10/2014

KEY PROJECTS AND ROLES:

ORACLE – GLOBAL BUSINESS UNIT – SAAS APPLICATIONS

- **Develop, maintain and administer tools** which will automate operational activities and improve engineering productivity.
- Mentored and upskilled team of 35+ engineers across DevOps, SRE and Cloud adoption.
- Developing configuration and infrastructure solutions for internal deployments.
- Working with **Kubernetes/Docker** containers.
- Manage systems on **OCI infrastructure** including application servers, database servers.
- Researched and resolved complex issues discovered during **Migrations**.
- Manage high availability of existing systems and proactively address system maintenance issues.
- Manage OCI infrastructure configurations along with Application Load Balancers, HTTPS configuration.
- Managing 50+ Linux servers & component provisioning & handling configuration & deployment of infrastructure & services.
- Managed the infrastructure, avoided single point of failure, monitored RAM CPU space Virtualisation & Load Balancing.
- Created server & components by application of Virtualisation Concept using Docker.

- Employed HAProxy to conduct load balancing for handling a constantly increasing user base & ensuring scalability & reliability Cloud Based Distributed Computing.
- Implemented CI/CD pipelines across diverse tech stacks, enabling zero-downtime deployments and cutting release cycles from weeks to hours.
- Pioneered Infrastructure-as-Code adoption with Terraform, Ansible, and Kubernetes Operators, accelerating infrastructure provisioning by 70%.
- Drove DevOps practices embedding security scanning, compliance checks, and automated rollbacks into every build and release pipeline.

CGI – BANKING DOMAIN

- Day to day operation of WebLogic platforms like restart, monitoring, etc.
- Deployment of applications into servers.
- Apache-Web Logic plugins configurations.
- 24X7 support provided for the infrastructure of Prod/DR/PRE-PROD.
- Installation of WebLogic server and Apache web servers.
- Communicating with the client, Testing Team & Development Team.
- Configuring WebLogic resources like JDBC data source, connection pool.
- Fine tuning of various application/web server environments.
- Performed root cause analysis and implemented corrective actions.
- Designed and incorporated process design improvements.
- Troubleshoot issues with websites and fixed scripting and use issues.
- Proved successful working within tight deadlines and fast-paced atmosphere.
- Carried out day-day-day duties accurately and efficiently.

EDUCATION

- **Bachelor of Technology – Electronics and Instrumentation – JNTU, Anantapur (2005 – 2009)**

AWARDS & RECOGNITIONS

- **Oracle Q4 Leadership Award (2023)**
Recognized for driving AI-powered operational improvements.
- **Oracle Excellence Award (2020)**
For successfully delivering 20+ cloud migration.

CERTIFICATIONS

- Certified Amazon Solutions Architect – Professional
- Certified Oracle Cloud Infrastructure Architect – Professional
- Certified Oracle Cloud Infrastructure Architect – Associate
- Certified Oracle WebLogic Administrator – Associate
- Certified Kubernetes Administrator (CKA)
- Docker Certified Administrator (DCA)
