PROFESSIONAL SUMMARY

Finance Analyst with 4+ years of experience across financial reconciliation, hedge fund operations, portfolio services, cash management, trade settlement and regulatory reporting. Hands-on experience supporting MiFID II regulatory compliance and NDF transaction reporting, with strong expertise in reconciliation, exception investigation, cash and liquidity management, trade settlement and operational oversight. Experienced in working with investment, trading, custodial and service-provider teams to resolve breaks, maintain operational controls and deliver time-sensitive regulatory and client requirements.

PROFESSIONAL EXPERIENCE

Finance Analyst | Morgan Stanley

Aug 2024 – Present

- Manage regulatory and product-specific reporting activities, including MiFID II regulatory reporting and Non-Deliverable Forward (NDF) transaction reporting, ensuring data accuracy, completeness and adherence to applicable reporting requirements.
- Perform data validation, reconciliation and exception analysis across regulatory and operational reporting flows; investigate discrepancies, identify root causes and coordinate timely resolution with relevant stakeholders.
- Conduct oversight reconciliations across multiple investment strategies, investigating trade breaks, failed trades, overdraft exceptions and settlement-related discrepancies.
- Monitor internal and external operational deliverables, including service-provider performance, accuracy, timeliness and SLA adherence; escalate material exceptions to Global Oversight and functional teams.
- Handle client and operational queries, coordinating with Investment, Trading, Treasury, Operations, custodians, counterparties and service providers to resolve issues within defined SLAs.
- Support client training and process walkthrough sessions, explaining operational workflows, reporting processes and issue-resolution procedures to client stakeholders.
- Support UAT and system enhancements by preparing test scenarios, validating expected versus actual results, investigating defects and coordinating fixes with technology teams.
- Manage cash projections, liquidity requirements and settlement funding across multiple investment strategies, coordinating with State Street IMS, Trading teams, counterparties and custodians.
- Support Money Market Fund subscription and redemption settlement instructions, ensuring accurate and timely processing of fund transactions.
- Manage MiFID II research operations, including research package administration, disclosure management, data reconciliation and query resolution.
- Prepare and maintain operational reports, exception trackers and management information to support oversight, regulatory requirements and decision-making.
- Utilized Excel VBA-based automation to streamline repetitive reconciliation and reporting activities, reducing manual intervention and improving operational efficiency.
- Contribute to process and workflow improvement initiatives, identifying opportunities to reduce operational exceptions and improve reporting and processing efficiency.

Financial Analyst | SS&C GlobeOp Financial Services

Aug 2021 – Aug 2023

- Performed daily hedge fund reconciliations between Geneva accounting records and Prime Broker/Custodian statements across cash, derivatives, equities, and mutual funds, identifying and resolving reconciliation breaks and exceptions.
- Configured the SS&C platform based on client-specific requirements and processed trade uploads through manual and automated workflows, ensuring accurate and timely trade processing.
- Processed and booked corporate actions, including rights issues, bonuses, stock splits, and dividends; supported NAV calculation and investigated and resolved breaks with brokers and fund managers.
- Prepared monthly, quarterly, and year-end fund reports, ensuring accuracy and timely delivery; responded to ad-hoc investor queries and supported fund reporting requirements.
- Coordinated with UK and US clients, brokers, fund managers, Finance, and Asset Management teams to resolve operational issues, manage exceptions, and ensure timely and accurate fund operations.
