- **Leadership & Stakeholder Management:** Team Leadership, People Management, Stakeholder Engagement, Cross-functional Collaboration, Training & Mentoring, Client Relationship Management

WORK EXPERIENCE

Senior Associate (Team Leader)

Nov 2021 – Present

Goldman Sachs, Bengaluru, India

- Lead Middle Office operations for Private Wealth Management, overseeing account lifecycle activities and driving operational excellence to deliver a seamless client experience.
- Partner with Business Intelligence teams to automate and streamline key operational processes, delivering annual capacity savings equivalent to 2 FTEs while enhancing process efficiency and control effectiveness.
- Designed and executed targeted remediation strategies that reduced terminated accounts with residual balances by 80%, from \$8M to \$1.6M, strengthening risk management and operational governance.
- Collaborate with regional leadership and business stakeholders to drive dormant account closure initiatives, optimizing system capacity, reducing maintenance costs, and mitigating operational and fraud-related risks.
- Spearheaded the enterprise-wide migration from SRS to Keystone, ensuring successful implementation, standardized reporting, and improved operational consistency across multiple business divisions.
- Manage vendor onboarding, governance, and outsourcing initiatives, strengthening third-party partnerships and improving service delivery and turnaround times.
- Led the migration of global Middle Office processes by coordinating with cross-functional teams, delivering a seamless transition with 100% process accuracy and no business disruption.
- Develop and enhance operational dashboards and management reporting solutions in collaboration with Business Intelligence and Operations teams, enabling data-driven decision-making and increased stakeholder transparency.
- Provide UAT support for new account setup and strategic process enhancements, ensuring successful implementation of technology and operational change initiatives.

Business Implementation Analyst

May 2021 – Nov 2021

Societe Generale, Bangalore, India

- Supported implementation of business and technology solutions by gathering requirements, analyzing workflows, and coordinating with cross-functional stakeholders.
- Facilitated **User Acceptance Testing (UAT)**, issue resolution, and deployment activities to support successful project delivery and business transitions.
- Partnered with operational teams to identify opportunities for **Process Improvement**, workflow optimization, and automation initiatives that enhanced service delivery.
- Prepared and maintained SOPs, process documentation, business requirement documents, and operational reports to ensure compliance with governance standards.
- Assisted in risk assessments, issue tracking, and control reviews to support operational stability and regulatory compliance.
- Collaborated with business, technology, and operations teams to manage change initiatives, resolve implementation challenges, and support continuous improvement programs.

Analyst

Mar 2020 – May 2021

Northern Trust, Bengaluru, India

- Supported **Fund Accounting** and **Fund Administration** activities, including **NAV Validation**, financial reporting, and client servicing for institutional investment funds.
- Performed **Cash Reconciliations**, **Position Reconciliations**, and **Market Value Reconciliations**, investigating and resolving exceptions to ensure accuracy of portfolio and accounting records.
- Assisted in the preparation and review of **Financial Reporting** packages, supporting timely month-end and periodic reporting requirements.
- Collaborated with global stakeholders to resolve operational queries, manage escalations, and ensure adherence to service delivery standards and SLAs.
