Professional profile

Fund Accounting professional with 10+ years of experience in Cash & Position Reconciliation, Trade Settlement, NAV Support, Corporate Actions, Fixed Income, Equities, Derivatives, SWIFT Messaging, Trade Lifecycle, pricing validation, and collaborating with brokers, custodians, and middle office teams. Seeking a challenging role where my skills and commitment to excellence will contribute to the growth of the Organization.

Professional Experience

State Street (Apr 2019 - Dec 2025)

- Performed cash and share position reconciliations between the accounting system and custodian records, investigating and resolving all outstanding breaks before NAV release.
- Conducted security pricing validation by obtaining market prices from approved sources, including Bloomberg, Global Plus, client websites, emails, and other authorized pricing platforms.
- Verified and processed corporate actions, including dividend and ensuring accurate portfolio valuation.
- Coordinated with client operations, oversight, cash operations, corporate actions, pricing, and custody teams to resolve operational issues impacting NAV.
- Managed client queries by performing detailed investigations and providing timely resolutions while maintaining service level agreements (SLAs).
- Performed General Ledger (GL) to Sub-Ledger reconciliations to ensure completeness and accuracy of accounting records.
- Released monthly NAV reports to clients through Document Type Definition (DTD) and CD reporting processes in accordance with client reporting schedules.
- Performed NAV validation by reviewing tolerance exceptions, investigating significant NAV movements, and documenting appropriate justifications before final approval.
- Published daily NAVs to NASDAQ after completing all validation checks and obtaining required approvals.
- Consistently met critical NAV deadlines by effectively prioritizing work, resolving complex reconciliation issues, and collaborating with cross-functional global teams.

JP Morgan Chase (Feb 2018 – Mar 2019)

- Performed daily cash and position reconciliations between the accounting system and custodian records to ensure accurate portfolio reporting.
- Supported the fund accounting team in the daily NAV calculation by investigating reconciliation breaks before NAV release.
- Reviewed and validated equity, fixed income, FX, and derivative transactions to ensure accurate accounting.
- Monitored the complete trade lifecycle from trade capture through settlement and accounting.

- Assisted in processing corporate actions, including dividends, stock splits, mergers, and rights issues, ensuring accurate portfolio updates.
- Validated security prices and FX rates using approved market data sources before NAV calculation.
- Performed month-end accounting activities, including accrual validation and reconciliation of investment balances.
- Conducted root cause analysis for aged reconciliation breaks and implemented corrective actions to prevent recurrence.
- Prepared operational reports and participated in daily client calls.

State Street HCL Services (Mar 2014 – Apr 2017)

- Performed cash and securities settlement reconciliation between Geneva, custodian records, and broker statements to ensure accurate accounting.
- Investigated settlement exceptions arising from instruction mismatches, failed trades, corporate actions, pricing differences, and FX issues.
- Coordinated with middle office, fund accounting, custody, and trading teams to resolve settlement breaks before NAV cut-off times.
- Monitored DVP (Delivery Versus Payment) and RVP (Receive Versus Payment) settlements to ensure successful exchange of securities and cash.
- Supported processing of FOP (Free of Payment) transfers for internal security movements and custody transfers.
- Reviewed settlement reports daily and ensured all outstanding items were tracked, escalated, and resolved within SLA timelines.
- Validated SWIFT settlement instructions and collaborated with counterparties to resolve settlement discrepancies.
- Participated in daily operational and client calls to provide updates on settlement status, aged breaks, and high-priority exceptions.
- Worked with IT team for Missing SSI setup and issue in missing trades or any technical issue. Interacted with custodians for trade unmatched issues.
- Escalated unsettled trades to middle office & management as per escalation matrix and prepared daily reports for outstanding trades/breaks.
- Perform Pre-Matching and Fails Management by adhering to the market and settlement deadlines of specific markets.
