SUMMARY

Results-driven Business Analyst with 7 years in global cards and payments, specializing in GPP and ISO 20022 migration. Expertise in requirements gathering, stakeholder management, and delivering solutions across complex payment ecosystems. Experience in Retail Banking focusing on transaction lifecycle management and scalable, customer-centric solutions.

EXPERIENCE

Oct 2022 — Current

Product Owner

FINASTRA, Pune, India

- Led end-to-end implementation of GPP (Global Payments Platform), ensuring seamless integration with core banking systems.
- Hands-on experience in ISO 20022 migration, including message mapping, validation, and compliance with SWIFT standards.
- Hands-on expertise in SEPA (Single Euro Payments Area) payment processing, ensuring compliance with European regulatory standards.
- Strong knowledge of digital payments, cross-border transactions, and real-time payment systems.
- Expertise in transaction lifecycle management – from initiation, authorization, clearing, to settlement.
- Expertise in developing jars in internal interface for MX conversion.
- Conducted requirement gathering, gap analysis, and functional specification creation for global payments projects.
- Worked on FRSD documentation, specific to a particular client.
- Owned and prioritized product backlog.
- Collaborated with development and engineering teams to guide product development and maintain project timelines.
- Supported agile methodology adoption across teams, fostering a culture of continuous improvement and adaptability within the organization.

- Prioritized and tracked defects using the bug tracking tool Jira.
- Supported UAT, defect management, and production rollout for large-scale payment transformation initiatives.
- Collaborated with cross-functional teams to define product vision and requirements.
- Facilitated sprint planning sessions to align team efforts with project goals.
- Developed user stories, acceptance criteria, and mockups for new features.
- Delivered training and support for users during the product lifecycle.
- Developed process documentation related to product life cycle management.

Apr 2022 — Sep 2022

IT Business Analyst

Capgemini, Pune

- Gathered client requirements and prioritized deliverables, Business Requirements Document (BRD), and Functional Specification Document (FSD) for smooth project release.
- Published user stories to enhance CG proprietary Payment Hub Framework.
- Reviewed SWIFT messages such as MT103, MT202, MT940, and MT942, along with ISO 20022 messages like PACS.008, PACS.009, CAMT.054, and CAMT.053.
- Collaborated with CG Payments CoPs on ISO20022 and Payment Hub initiatives.
- Prepared materials for the Learning Development team to migrate from older formats to ISO20022 messages.

Oct 2020 — Jan 2022

Academic Counselor

Vedantu, Pune

- Collaborated with product and sales teams to align academic counseling strategies with Vedantu's digital learning solutions, ensuring seamless student onboarding and adoption of the platform.
- Supported product growth by driving enrollments through counseling sessions, directly contributing to revenue targets and platform expansion.

May 2019 — Oct 2020

Deputy Manager

ICICI Bank, Ahmedabad

- Developed and implemented strategies for top-tier customer service.
- Oversaw branch operation and workflow for consistency.
- Managed operational tasks and transactions at the branch

EDUCATION

Jul 2012 — Jul 2016

B.Tech, Electronics And Telecommunications

RSRRCET, Bhilai

Jul 2017 — Jun 2019

PGDM

ISBS, Pune

PROJECTS

- Successfully contributed to the CHIPS ISO Migration project in collaboration with HSBC, BRCL, and MANT Bank, ensuring smooth transition of payment messaging standards to ISO 20022.
- Additionally worked on the FED ISO Migration initiative with the same set of banks, focusing on harmonizing cross-border payment formats and enhancing interoperability.
- Currently leading and managing CBPR+, CHIPS, and FED 2026 regulatory change implementations across HSBC, BRCL, and MANT Bank, ensuring compliance with evolving global payment regulations.
- Responsibilities included requirement gathering, impact analysis, stakeholder coordination, and end-to-end delivery of migration activities, while mitigating operational risks and ensuring business continuity.
