OBJECTIVE:

To leverage my **5 years of experience in ServiceNow development, ITSM implementation, and platform administration** to contribute to organizational growth by delivering efficient solutions, improving business processes, and ensuring high-quality service management systems.

PROFESSIONAL SUMMARY:

- 5 years of hands-on experience as a **ServiceNow Developer and Administrator**.
- Extensive experience in **ServiceNow implementation, customization, enhancement, and support**.
- Expertise in **ITSM modules**: Incident, Problem, Change, Request, and Knowledge Management.
- Implemented multiple business value-add solutions to improve operational efficiency and user experience.
- Designed and implemented **bulk asset data loading solutions**, eliminating manual processes and ensuring data accuracy.
- Strong experience in **Client Scripts, Business Rules, Script Includes, UI Policies, UI Actions, and Server-side scripting**.
- Worked extensively with **Import Sets, Transform Maps, and Data Integrations** from external sources.
- Developed and maintained **SOAP and REST API integrations** with third-party applications.
- Built and enhanced **Service Catalogs, Workflows, and Flow Designer solutions** for process automation.
- Hands-on experience in **Service Portal development and customization**.
- Implemented and maintained **Discovery, CMDB, Software Asset Management (SAM), and Hardware Asset Management (HAM)**.
- Experience in **Update Set migration, Notifications, Notification Scripts, Reports, Dashboards, and Homepage Widgets**.
- Contributed to **ServiceNow Mobile App development** and platform modernization initiatives.
- Participated in **ServiceNow upgrades, skipped update remediation, and platform maintenance activities**.
- Good knowledge of **MID Server installation, configuration, and troubleshooting**.
- Strong expertise in **CMDB, Flow Designer, Integration Hub, and custom actions**.
- Hands-on experience with **HTML, CSS, JavaScript, and AngularJS** for UI customization and portal development.
- Performed **peer reviews, code reviews, mentoring, and implementation governance**.
- Strong understanding of **technical and functional design requirements**, solution design, and ServiceNow best practices.

WORK EXPERIENCE:

- Software Consultant – **Bank of America**, Hyderabad from Aug 2025 – May 2026.
- Software Engineer – **TCS (Tata Consultancy Services)**, Hyderabad from Aug 2021 – July 2025.
