Professional Experience

Deputy Vice President - ESG | Kotak Mahindra Bank Ltd., Mumbai

Sep 2019 - Sep 2025

This role is pivotal in integrating ESG principles into core business strategy, requiring a forward-thinking approach to sustainability, policy evolution and stakeholder alignment. It involves aligning ESG priorities with strategic goals, redesigning policies and processes for resilience and leading both voluntary and compliance-based disclosures.

Key deliverables include the Integrated Annual Report, BRSR and GHG Inventory along with water and waste, Climate Risk assessment along with stakeholder engagement and assurance coordination. Designing and implementing comprehensive framework for responsible financing by embedding ESG considerations into the core operations (energy, water, waste etc) of the Bank. The role also required to drive sustainability initiatives, fosters best practice adoption and leading materiality assessments. A critical focus is on modernizing ESG data systems—transitioning from legacy methods to agile, tech-enabled platforms for real-time insights.

Senior Lead Consultant - Sustainable Development | Goodera (formerly Nextgen PMS Ltd.), Mumbai

Feb 2017 - Sep 2019

Spearheaded end-to-end sustainability projects across diverse industries, ensuring strategic alignment and timely execution. The responsibilities were to develop and implement ESG Strategy, develop customized ESG frameworks, policies, and implementation roadmaps and facilitation of materiality assessments through stakeholder consultations to prioritize ESG issues effectively. Delivered gap analyses, peer reviews and actionable recommendations to enhance ESG performance.

Conducting workshops and training sessions to build ESG literacy across client organizations. Value chain assessment was one of the prime roles which included evaluation of supply chain partners against sustainability benchmarks through structured audits. Authored ESG reports developed in-line with GRI, TCFD, SASB, BRR and similar such frameworks and coordinated the third-party verification and assurance processes. Drafted project proposals and contributed to award applications by curating compelling sustainability narratives.

Analyst - Knowledge Management | Prudential Process Management Services, Mumbai

Dec 2015-March 2016

Led end-to-end project management initiatives focused on transforming complex business challenges into strategic Knowledge Management (KM) solutions. Executed the development of comprehensive KM frameworks, optimized existing knowledge repositories and designed scalable processes for KM systems, ensuring seamless ongoing governance of enterprise knowledge assets.

Authored high-impact project proposals and established standardized operating procedures to facilitate the effective retrieval of internal knowledge, along with mechanism to organize and utilize it across multiple concurrent projects in a fast-paced, deadline-driven environments. Played a pivotal role in formulating and implementing strategies to position and enhance vertical offerings for key stakeholders and prospective clients. Maintained consistent delivery of high-quality services by cultivating strong, trust-based relationships with primary stakeholders, driving alignment between business objectives and KM initiatives.

Consultant - Management Systems (HSE & CSR) | Q Factor Consulting Pvt Ltd, Mumbai

Oct 2013 - Dec 2015

Conducted market research, developed strategic plans and long-term goal to drive organizational growth and client success. Delivered expert consultancy across Quality, Environment, Health & Safety, Waste Management and Food Safety for multi-sector clients. Provided end-to-end support on certification guidance, product development, process mapping, documentation, training, audits and management reviews. Spearheaded business development by identifying opportunities, conducting negotiations and ensure client retention through tailored solutions and innovative service offerings.

Faculty | CLIMB FIRST, Mumbai

Aug 2012 - July 2013

Delivered lectures and developed curriculums for competitive exam aspirants. Maintained strong student engagement, provided structured resources and resolved subject-related queries. Managed assessments, prepared and evaluated test papers, monitored assignment completion and offered timely feedback to guide student progress.

Microbiologist (QA) | J.P INDIA PRODUCTS, Mathura

Feb 2012 - Jun 2012
