Wells Fargo

Sr. Control Mgmt Specialist – AVP

Jun 2013 – Jan 2020

Northern Trust

*Associate Consultant
(Operations Control)*

PROFILE SUMMARY

- Control Management professional with 12+ years of experience in Business Analysis and Business Control Management across Commercial Banking (CB), Corporate & Investment Banking (CIB), Risk & Regulatory and Consumer and Small Business Banking.
- Expertise in operational risk, control assurance, audit readiness, and governance enhancement within first-line risk frameworks.
- Skilled at driving effective risk mitigation, control standardization, and regulatory compliance within complex global environments.
- Proven track record of managing end-to-end process reviews, cross-functional audits, and stakeholder communications at AVP level across global delivery centers.

WORK EXPERIENCE

Wells Fargo | Jan 2020 – Aug 2025

Senior Control Management Specialist – AVP

Teams: CB & CIB Business Control Management / Global Delivery Control Assurance / Central Control Programs / Operational Risk Events QA

Key Responsibilities

- Worked closely with business stakeholders to gather and document control requirements, assess process impacts, and support the implementation of risk and control enhancement initiatives across Commercial Banking and CIB.
- Partnered with Technology, QA, and Operations teams during control automation and process improvement initiatives, coordinating UAT, validating business requirements, and ensuring successful production implementation.
- Maintained project governance trackers, coordinated project milestones and stakeholder meetings, monitored action items and risks, and provided regular executive status updates and governance reporting to senior leadership.
- End-to-end process reviews to identify, assess, and mitigate risk within set thresholds.
- Supported IRM in conducting business audits and regulatory reviews.
- Advised business units during Global RCSA workshops and EUCT initiatives.
- Provided consultative support for incident management (ORE, Non-ORE, DLP, compromised data).
- Coordinated Shared Control Agreements and quarterly control reporting for business units.
- Acted as a liaison during IP transition and migration projects, ensuring robust control alignment.
- Created executive-level presentations for senior leadership (Council & MBR meetings).
- Trained new hires on control frameworks and best practices.
- Facilitated awareness sessions on trending risk topics (e.g., social engineering, incident handling).
- Supported FMEA documentation, ERIA questionnaires, and cross-training frameworks.
- Partnered with Central Control to prepare IP control reports and BCM data governance input.

Northern Trust | Jun 2013 – Jan 2020

Associate Consultant – Operations Control

Progressed: Senior Analyst → Technical Coordinator → Associate Consultant

Team: Income and International Tax Group (CIB – Securities Operations)

Key Responsibilities

- Led E2E control testing with the middle office ensuring consistency in governance and compliance.
- Produced BOD/EOD regulatory reports for requirements including CASS and Escheatment.
- Approved profit and loss statements for Custody teams and supported internal audits (SOC/GS007).
- Enhanced business documentation consistency and EUC governance.
- Supported Business Continuity Simulations and FMEA creation.
- Managed onboarding and transition for AUD accounts by establishing SOPs and control standards.
- Successfully led Securities Services APAC client migrations to Manila, including training, documentation, and post-migration stabilization.
- **Risk Management:** Led risk mitigation strategies by conducting control checks and quality analysis, ensuring compliance while managing complex issues.
- **Team Leadership:** Spearheaded a high-performing team, utilizing strong project management skills to allocate resources effectively, track progress with dashboards, and provide technical support that boosted team productivity.
- **Problem Solving:** Solved intricate escalated issues with a focus on advanced problem-solving techniques, earning recognition from clients & senior management for exceptional results.
- **Data Analysis:** Drove performance through the preparation and analysis of KPIs and KRIs, consistently delivering insightful reports for strategic decision-making.
- **Change Management:** Implemented robust change management strategies, leading to seamless operations and continuous improvement in service delivery.
- **Process Migration:** Played a pivotal role in process migration across regions, ensuring smooth transitions and minimal disruption.
- **Reconciliation & Settlements:** Managed the timely reconciliation and settlement of client entitlements, enhancing overall operational efficiency.
- **Data Integrity:** Led efforts in identifying and addressing data inconsistencies, collaborating with upstream partners and consultants to close gaps and improve system performance.
- **Process Optimization:** Championed the development and execution of new processes and procedures, resulting in streamlined workflow and measurable productivity gains.
- **Stakeholder Communication:** Drove successful change management initiatives, effectively communicating technology upgrades and process improvements to stakeholders.
- **Cross-functional Collaboration:** Managed cross-functional technical teams, ensuring optimal performance and timely project completion.
