PROFESSIONAL EXPERIENCE

Associate II | State Street

July 2022 - Present | ETD DERIVATIVES F&O

- Derivatives-Processing and reconciliation (Futures and Options).
- Handling critical merger activity, corporate actions, expiry & assignments.
- Carry out basic and complex trade processing and reconciliation functions in accordance with established procedures.
- Calculating NAV impact to mitigate the risk.
- Supported daily NAV preparation and validation by assessing the impact of trade activity, pricing, cash movements, corporate actions, and reconciliation breaks on fund NAV.
- Performed daily cash and position reconciliation between Investment Manager, broker, and internal accounting records, investigating breaks and ensuring resolution prior to NAV finalization.
- Managed end-to-end trade settlement activities including trade matching, confirmation/affirmation, settlement monitoring, failed trade investigation, and exception resolution across broker and custody workflows.
- Performed daily Fund Accounting activities for assigned funds, including review of fund transactions, cash activity, income, expenses, and investment positions to support accurate NAV preparation.
- Perform futures cash activity and manage cash exceptions (TLP).
- Playing vital role in new fund onboarding.
- Processing trades sent by Investment Managers to OTC Hub and MCH.
- Tracking ending cash balances from the broker and booking cash movements.
- Performing reconciliation Investment Manager VS Broker.
- Preparation and delivery of valuation reports to internal and external clients and/or agents in a timely manner.
- Identify, research and resolve pricing breaking set tolerance levels.
- Reviewing/auditing trades processed by other team members to ensure accuracy.
- Perform and review global pricing tasks in a continuous operations environment.
- Managing query in timely manner
- Cash and Forex posting
- Review and approve pricing packages/checklists with a focus on accuracy & detail.
