PROFESSIONAL EXPERIENCE

SR PRODUCT MANAGER - TPO | Experis IT Pvt Ltd. - BNY | Pune, MH

July 2025 – July 2026

Product Ownership & Strategy - Custody FX and Program Trading Business – BNY – Mobile & Web

Own end-to-end delivery of product enhancements, features, and functional improvements from discovery through launch.

Collaborate with Product Manager and key stakeholders to shape product discovery, vision, roadmap, and prioritize aligned to business objectives and GTM documentation.

Translate discussions, stakeholder input, & data insights into actionable product initiatives delivering measurable customer & business value.

Contribute to roadmap planning by identifying opportunities, assessing trade-offs, and aligning initiatives with strategic goals.

Cross-Functional Collaboration

Partner closely with Engineering, Design, Architecture and Operations teams to drive product initiatives in fast-paced, Agile environment.

Lead cross-functional discussions to clarify requirements, resolve ambiguities, and ensure alignment on scope and timelines.

Balance stakeholder priorities while maintaining focus on delivering maximum customer value.

Product Development & Agile Execution

Breaking down roadmap initiatives into well-defined epics, features, user stories, and acceptance criteria.

Own, prioritize, continuously refine backlog by business and customer needs & performance data, ensuring efficient execution and deliver.

Identify risks, dependencies, and trade-offs early, proactively driving mitigation plans.

Ensure compliance with organizational governance processes and required documentation for production releases.

User Experience & Customer Focus

Collaborate with Design and User Research teams to define intuitive and scalable user experiences.
Incorporate customer feedback and usability insights into product iterations.
Define support, monitoring, and post-launch feedback loops to ensure product stability and customer satisfaction.

Performance & Continuous Improvement

Track and analyse product performance post-launch using defined KPIs.
Use insights to inform iteration, optimization, and future investment decisions.
Contribute to the evolution of product practices by participating in and strengthening the Product Owner Centre of Excellence.
