

Ghodake Ratnaganga - 9657631133

ratnaghodke09@gmail.com

Professional Summary

Seasoned **Project Manager and Certified Scrum Master (6.5 years)** with 14+ years of experience driving large-scale **banking, lending, and regulatory compliance programs** across global financial institutions. Proven expertise in managing end-to-end project delivery — from scope definition and sprint execution to **go-live readiness, release governance, and hypercare support, with strong stakeholder communication.**

Adept at leading **Agile–Waterfall** hybrid delivery models, integrating Project Tracking Systems (PTS) for milestone tracking, **risk mitigation**, and audit readiness. Skilled in managing **cross-functional**, onshore–offshore teams and coordinating with PMOs, vendors, and business stakeholders for seamless delivery.

Experienced in **digital transformation** initiatives focused on **mobile banking, digital onboarding, and customer journey modernization**, leveraging API-led integration, automation, and data governance frameworks to enhance customer experience and **regulatory compliance**. Strong exposure to service transition, including **BAU handover, documentation, and end-user training** to ensure smooth adoption.

Skill & Core Competencies:

Agile & Project Management:

- Certified **Scrum Master (CSM)** & **DASSM-certified Project Manager** with proven expertise in end-to-end project delivery for **banking, lending, and compliance programs**.
- Skilled in **Agile–Waterfall hybrid delivery models** ensuring on-time, quality-driven results across global teams.
- Led end to end delivery of **Digital customer Journey Transformation** programs for loan origination and drove **agile transformation** by implementing **Scrum and kanban frameworks** enabling faster release cycles 25-30 % improvement in time to market
- Strong in **release governance**, with hands-on expertise in all **Scrum ceremonies** including Sprint Planning, Daily Stand-ups, Reviews, Retrospectives, and Backlog Refinement.
- Skilled in managing enterprise-level project tracking through **PTS (Project Tracking System)** for governance, milestone tracking, and delivery reporting.
- Proven expertise in **end-to-end project lifecycle management** from initiation and planning to execution, monitoring, and closure.
- Managed **go-live readiness activities** including release planning, cutover checklist, environment readiness, and stakeholder sign-offs.
- Led **hypercare support (post go-live)** by tracking production issues, prioritizing fixes, and coordinating with development, testing, and business teams.
- Owned **handover from project delivery to Business-as-Usual (Service Management)** including documentation, knowledge transfer, and support process alignment.
- Conducted **training and walkthrough sessions** for business users and operations teams to ensure smooth adoption.
- Experienced in **regulatory, compliance, and system integration** projects under tight delivery timelines with cross-regional stakeholder coordination.
- Strong ability to create and maintain project artifacts (charters, PTS dashboards, status reports, **RAID (Risks, Assumptions, Issues, Dependencies)** logs, and CMP trackers) ensuring

transparency and audit readiness.

- Set up governance frameworks with PMO for project status reporting, escalation management, and decision tracking.
- Adept at maintaining **audit-ready documentation and governance artifacts**, ensuring transparency and regulatory compliance.
- Managed end-to-end **Change Request lifecycle**, including impact analysis, documentation, approval workflows, and implementation under Citi's PMO governance.
- Worked with technical teams to **estimate effort; define scope, timeline**, and resource allocation
- Adept at maintaining audit-ready documentation and governance artifacts, ensuring transparency and regulatory compliance.
- Worked as **JIRA Administrator** for multiple Citi projects, configuring workflows, issue types, and user access to support Agile delivery.

Banking & Lending Domain Expertise:

- Over **11.5 years of BFSI experience**, delivering end-to-end **banking, lending, and regulatory compliance programs** for global institutions including **Citibank**.
- Successfully led Citi projects such as **Procure-to-Pay (P2P) modernization, FINRA compliance automation**, and **KSA RHQ entity onboarding**, ensuring governance, audit readiness, and regulatory alignment across multiple regions.
- Expertise in **Loan Origination (LOS) and Loan Management Systems (LMS)** – covering KYC, document verification, underwriting, sanctioning, disbursement, EMI scheduling, repayment, foreclosure, and NPA workflows.
- Hands-on experience in **digital lending products** such as **Loan Against Property (LAP), SME Loans, Business Loans, Consumer Durable Loans**, and **Emerging Enterprise Group (EEG)** portfolios.
- Strong knowledge of **core banking systems** – **Finacle, TCS BANCS, Pennant, FINNONE Neo**, and **Welcom Financier** – managing integrations, product enhancements, and module testing.
- Proficient in **payments & transaction processing** (NEFT, RTGS, IMPS, SWIFT, NACH, BACS, ARUDD, ADDACS) and system automation for digital operations.
- Deep understanding of **regulatory & compliance frameworks** – **FINRA, CKYC, CIBIL/CRIF** – ensuring transparency, data governance, and risk mitigation.
- Adept at bridging **functional, technical, and compliance delivery** in complex financial ecosystems, enabling digital **transformation** under strict PMO and governance controls.

Tools & Technologies:

- Project & Agile Tools: Jira, Confluence, Zephyr, TFS, Trello, MS Project, Visio
- Testing & Quality Tools: Microsoft Test Manager, HP ALM
- Integration & Collaboration Tools: DocuSign, Fieldglass, Nexis, ServiceNow

Technical & Functional Skills:

- End-to-end delivery management of **digital lending, banking, and compliance platforms**, ensuring governance, quality, and timely go-live.

- Strong understanding of **system architecture, API integration, data flow design, and end-to-end functional testing** for enterprise BFSI systems.
- Experienced in preparing and reviewing **business & functional requirement documents (BRD/FRD), impact assessments, and regression analysis.**
- Skilled in **UAT planning, defect tracking, release management, and test evidence validation** for audit compliance.
- Hands-on experience in **PTS, JIRA, Confluence, Zephyr, MS Project, and ServiceNow** for project tracking, reporting, and documentation.
- Proficient in coordinating **system integration testing (SIT) and user acceptance testing (UAT)** across onshore-offshore teams.
- Adept at bridging **functional and technical stakeholders**, ensuring alignment between business needs, technology delivery, and compliance frameworks.
- Strong analytical, documentation, and problem-solving skills ensuring audit readiness and traceability of all project deliverables.

Professional Experience

Virtusa Pvt Ltd – Pune | Client: Citibank (Global BFSI Projects)

Feb 2022 – Till Date

Project Portfolio:

Delivered three major Citi programs focused on regulatory compliance, cross-border governance, and financial system enablement – including KSA RHQ Entity Enablement, Procure-to-Pay (P2P) Modernization, and FINRA Compliance Automation ensuring governance, audit readiness, and regulatory alignment across multiple regions (KSA, China, Asia).

- **KSA RHQ Entity Onboarding – Set up new legal entity and regulatory framework for Citi's KSA operations under MISA & CBAT compliance.**

The KSA RHQ Entity Enablement Project was initiated under a Saudi regulatory directive requiring Citibank to establish a Regional Headquarters legal entity and secure a MISA license. The initiative complied with CBAT (Cross-Border Approval & Transparency) processes and involved enabling and validating critical financial systems – APS, FFS, PERL, GENESIS, P2P, and eRECON – ensuring seamless integration, data integrity, and operational independence of the new entity.

- **FINRA Compliance Automation - Automated onboarding and review process for non-employee compliance validation.**

The FINRA Compliance Automation Project focused on automating compliance governance and onboarding processes for eligible non-employees across the Asia region. The project focused on implementing technology-driven solutions to automate the onboarding and compliance review process.

- **Procure-to-Pay (P2P) Modernization – Modernized procurement and financial workflow for Citi China entities.**

The Procure-to-Pay (P2P) Modernization Project was executed as part of Citi's global P2P program to expand procurement and finance operations in China. It involved the setup of two new legal entities, Citi Securities and Citi Futures Company, regulatory approvals, and system integration across Fullsuite, PEARL, and S2, including implementation of GL and FA modules. The project

adopted a dual-cycle testing strategy – pre- and post-regulatory approval – to ensure compliance, audit readiness, and localization of financial operations.

Roles & Responsibilities

- Led **end-to-end project lifecycle**, covering initiation, planning, execution, monitoring, and closure across multiple Citi workstreams.
- Defined **project scope, milestones, budgets, and resource plans** ensuring timely and cost-efficient delivery.
- Oversaw **PTS-based project tracking**, milestone adherence, and RAID management (Risks, Assumptions, Issues, Dependencies).
- Collaborated with **Citi PMO, Compliance, Legal, and Finance teams** for regulatory approvals and governance reviews.
- Managed **UAT cycles, test evidence, and release documentation** ensuring audit readiness and regulatory compliance.
- Coordinated across onshore-offshore teams (India, Singapore, China, and KSA) for seamless execution and alignment.
- Reported **project status, risks, and dependencies** to senior Citi stakeholders and leadership committees.
- Facilitated all **Scrum ceremonies** – Sprint Planning, Daily Stand-ups, Reviews, and Retrospectives ensuring disciplined Agile delivery.
- Partnered with Product Owners and Business Analysts to define, refine, and prioritize **product backlogs**.
- Removed impediments, improved sprint flow, and maintained transparency between development, QA, and business teams.
- Promoted cross-functional collaboration, accountability, and sprint goal ownership across distributed Agile teams.

Earlier Professional Experience

Infosys (Client: US Healthcare)

Project Manager | Oct 2021 – Jan 2022

- Led end-to-end delivery of healthcare API modernization initiatives, managing project timelines, resources, and stakeholder expectations.
- Strengthened regression automation coverage → reduced release risks & improved velocity.
- Worked closely with stakeholders to define deliverables, prioritize product backlogs, and ensure quality releases.

Growth Source Financial Technologies

Project Manager/ Scrum Master | Jan 2020 – May 2021

- Led end-to-end delivery of LOS & LMS modules for digital lending products such as LAP and Business Loans.

- Streamlined Agile processes, improving sprint velocity and release predictability across product teams.
- Collaborated with NBFC stakeholders to align features with regulatory and business goals.

Quality Kiosk – Pune (Client: DBS Bank India)

Scrum Master | Feb 2018 – Nov 2019

- Managed Agile delivery and implementation across multiple **Finacle modules – Loans, Payments, Deposits, Account Origination, and CRM** – for DBS Bank's India expansion.
- Led project planning, sprint execution, and cross-functional coordination ensuring timely rollout across 24 new branches.
- Managed Agile ceremonies, stakeholder communication, and sprint execution across lending and payments modules. Monitored testing governance, and risk management to ensure quality and regulatory compliance.

QSG (Client: Welcom Digital)

Test Engineer → Acting Scrum Master | Mar 2013 – May 2017

- Delivered Payday Loan product enhancements (Uniface Financier) for UK-based digital lending.
- Experience in ARUDD, BACS, ADDACS workflows & full-cycle functional/ regression testing.
- Executed Agile sprints for digital payday-loan platform and lending modules.
- Handled test planning, functional & regression testing, and release coordination.

Metalsoft Technologies Pvt.LTD

QA Support Executive (Jan 2010 to Feb 2013)

Wipro BPO

Technical Support Executive (Jul 2007 to Dec 2009)

Education

- MPM (Masters in Personnel Management) - Pune University (Passed out - 2013)
 - BCA (Bachelor of Computer Applications) - Kolhapur University (Passed out - 2007)
-

Certifications

- Certified Scrum Master (CSM)
 - DASSM Certification
