## NETWORK ENGINEER

To obtain challenging position in an organization that requires highly motivated and creative people to learn and contribute in a team environment. Looking for a growth oriented work environment for a mutual benefit with an organization.

---

## TECHNICAL SKILLS

**Over all 6+ years of experience in the IT industry.**

- Implementing and supporting Data Centre Operations.
  - Configuring and troubleshooting Cisco routers (1841,7200, ASR 1002,1006), switches(4509,6513) , Nexus(9504, 7010, 5k, 9300, 3k series) ,Arista, Juniper Worked on
  - fortigate and Palo alto, firewalls.
  - Configured and maintained Routing protocols such as Static, RIP, EIGRP, OSPF and BGP, IPSEC, SSL VPN.
  - Implemented and monitored Switching Protocols: STP,VLAN,VTP,HSRP, VRRP, EtherChannel
  - Implemented traffic filters using Standard access-lists, Route Maps, MPLS QOS.
  - Automation Tools: COAX, DCNM, HPNA, EM7, Cisco-Coral
  - Monitoring Tools: Spectrum, Cisco Prime, solarWinds, and Zabbix.
  - Nexus Switches: 9k, 5k, 7k, 2k,3K and 9504 model
  - Juniper: MX204, MX480, QFX5120, and QFX5100
  - Catalyst Switches: 4000 series, 6500, and 3750 POE, 2960x
  - Routers: ASR1000x ISR , 9481, 3800 model
  - Firewall: Palo alto, Fortigate
  - Ticketing Tools: Remedy, CA-Service-Desk, Helpline, Service-Now, ConnectWise, Myshift, Jeera
- 

## PROFESSIONAL EXPERIENCE

**CtrlS Datacenter      August 2025 - Present Senior Engineer Network and Security**

- Supporting Cisco Data centre across globe Handling on Incidents and troubleshooting and supporting Datacentre issues and implementations.
- Monitoring customer internet and WAN links and check if any link is down or unstable
- Verifying interface utilization, errors and packet drops to find performance issue
-

Creating and implementing configuration scripts for customer deployments on Juniper, Cisco, and Arista devices (BGP,Static routes,HA, route map,ACL)

- Handling network troubleshooting calls with clients.
- Conducting KT sessions for junior engineers on network diagrams and daily WAN operations
- This profile includes design participations with customers, performing HLD,LLD
- Creating and troubleshooting Fortigate firewall rules
- 

**Prodapt Private Ltd - AT &T      August 2024 - July 2025 Network engineer**

- Working on Network migrations/implementations for worldwide AT & T customers
- Working remotely and supporting the AT & T customers across the globe
- Handling client interactions through Cisco Finesse, managing email communications, daily assigned tasks, and performing pre-checks and post-checks for ongoing network activities
- Familiar with network security -Paloalto, and FortiGate 3000D devices
- Supporting to the customers on- Security and Datacentre services.
- Worked for individual projects- Cisco Datacentre Nexus migrations, IOS patching devices for across in the globe.
- Involving the client meetings- leading in front of the escalations matrix.
- Working on Nexus 7k, 9k, Cisco 7613 and 6500 Series. NXOS & IOS
- upgrade for cisco switches and routers.

**Capgemini Private Ltd - IBM      September 2022 - July 2024 Network engineer**

- Supporting Cisco Data centre across globe Handling on Incidents and troubleshooting and supporting Datacentre issues and implementations.
- Active participant in DC Migrations, Implementations.
- Working on Paloalto-panorama & Fortigate firewalls, creating and implementing firewall rules
- Creating HA configuration, NAT rules
- Direct interaction with customers and attending Customer call/auditing projects.
- Responsible for all changes in routing and switching related to Data centre.
- Preparing POA & Roll Back plan for new activities and changes.
- Preparing SOP and other process related documents to streamline the process.
- Part of transition team of data center.
- URL filtering on Checkpoint firewall.
- NXOS & IOS upgrade for cisco switches and routers.
- Working on Nexus 7k, 9k, Cisco 7613 and 6500 Series.
- Troubleshooting and incident handling for all Level-2 issues and involving with TAC.
- 

**IDC Technologies- WIPRO LTD      September 2021 - August 2022 Network Engineer**

- Implementing and supporting Cisco Data Center Operations and DC DRILL activities
- Provide 24x7 Technical Supports for Trane technology NOC, Network Monitoring, supporting.

- Active participant in DC Migrations, Implementations.
- Monitor network health (latency, packet loss, RTO, link flaps) across core, distribution, and edge segments.
- Troubleshooting and incident handling for all Level-1 issues and involving with TAC.
- Responsible for all changes in routing and switching related to Data center.
- Preparing CR, POA & Roll Back plan for new activities and changes.
- Perform first-level diagnostics on interface down issues, BGP session down, and device reachability problems.
- Execute basic commands on Juniper, Arista, and Cisco devices to check interface status, errors, and operational state.
- Working on ITIL management process on reactive and proactive tickets.

#### **Man Power pvt ltd: Orange Business Services pvt ltd. May 2017 - October 2018 Network Engineer**

- Worked on 24/7 Team for HCL's LAN, WAN infra networks.  
Provide 24x7 Technical Supports for British Telecom P&G NOC, Network Monitoring, supporting.
- Spectrum, HP NA, Cisco works tool monitoring experience.
- Hands on experience on below devices • Router - 7200, 3800, 2600, 2500 Series.
- Switches - Cisco Catalyst L2 & L3 - 6500, 4500, 3750, and 2950
- Configuration and troubleshooting knowledge on Wireless technology.
- Switching STACK connectivity, VLAN VTP, DC LINK extending, cable patching supports. Managing all
- location network assets, Cisco VOIP IP segments, and VLAN and switch port security managements.  
Configuring Location CISCO Network devices, CISCO VOIP (7942/7940) Switch's (Catalyst
- 4000, POE-3750g series switches)  
Monitoring & initial troubleshooting of Network devices and Servers. Helpline call handling and
- raising Change requests (RFC) for carrying out network level changes. Ensure scheduled and unscheduled IOS upgrades and Network backups.
- 

---

#### **PROFESSIONAL CERTIFICATION**

- Cisco Certified Network Associate (**CCNA**)
  - Palo alto **PCNSE** certified on July 12, 2024 valid till July 12, 2026 **ITIL v3**
  - **Course completed:** CCNP, Fortinet NSE4
- 

#### **EDUCATION**

BE in Computer Science, Visvesvaraya Technological University, 2016  
PUC in Science (PCMB), Pre-University Education  
SSLC from state board of Karnataka
