

Objective

Results-driven Lead Business Analyst with over 15+ years of experience in the BFSI domain. Adept at leading complex projects, facilitating digital transformation, and delivering strategic solutions across regulatory compliance, risk governance, and data management. Seeking to contribute expertise to a forward-thinking organization driving business excellence.

The value I deliver as a Senior Business Analyst

Lead and mentor business teams in problem identification, current state assessment, and future state solutions. Provide strategic and tactical guidance throughout medium to high complexity projects. Utilize strong analytical and project management skills to elicit business requirements and devise integrated solutions for digital transformation.
