

HIMANSHU RAJPALI

Certified Business Analysis Professional (CBAP)

Pune, India | rajpali.himanshu@gmail.com | +91 9755755799

PROFESSIONAL SUMMARY

CBAP-certified Lead Business Analyst with 12+ years of experience spanning Digital Transformation and complex BFSI domains (Payments, Transaction Monitoring, Capital Markets). Proven expertise leading high-impact initiatives, including retail mobile application delivery, global SWIFT/ISO 20022 messaging engine implementations, and complex ELT data pipelines. Expert at bridging technical development teams and global business stakeholders to drive service automation, regulatory compliance, and operational efficiency.

CORE COMPETENCIES

Methodologies: Agile/Scrum, Waterfall, BDD, Requirements Lifecycle Management, Change Management

Domain Expertise: Digital Transformation, SWIFT Payments (MT/ISO 20022), Transaction Monitoring (AML), ELT Data Sourcing, Capital Markets

Tools & Tech: JIRA, Confluence, SQL, Excel, draw.io, ServiceNow, GCP, Oracle, MS SQL

PROFESSIONAL EXPERIENCE

CGI | Lead Business Analyst

Aug 2021 – Present | Pune, India

Client: AS Watson (Digital Transformation – Retail Mobility)

- **Mobile App Development:** Spearheaded business analysis and requirement engineering for a store-employee-facing mobile application designed to digitize retail operations.
- **Process Automation:** Maintained end-to-end responsibility for features enabling real-time wireless printing of shelf edge labels directly from the shop floor, streamlining store inventory management.

Client: Deutsche Bank (Transaction Monitoring & Service Automation)

- **ELT Data Pipeline Delivery:** Acted as the Lead BA within the core Transaction Monitoring Data team, managing complex ELT (Extract, Load, Transform) logic to source, validate, and feed clean financial data into AML and sanctions screening applications.
- **Service Automation:** Directed business analysis for service automation workflows across multiple key digital transformation initiatives, cutting operational overhead.
- **Compliance Optimization:** Refined alert segmentation rules, reducing false-positive rates by ~20% and improving overall investigative workflow efficiency.

Client: CIBC (Payments Modernization)

- **Payments Engine Implementation:** Led business analysis for a high-volume central payments engine responsible for processing all inbound and outbound financial messaging across the bank and its global subsidiaries.

- **SWIFT & ISO 20022 Migration:** Mapped complex legacy MT message flows (MT103, MT202, MT202 COV) to modern ISO 20022 XML formats, increasing Straight Through Processing (STP) rates and decreasing manual interventions by 30%.
- **Agile Leadership:** Functioned as Agile BA and Project Lead—facilitating sprint ceremonies, managing product backlogs, and leading cross-functional coordination across regions.

Cognizant | Associate Business Analyst

Aug 2018 – Aug 2021 | Pune, India

- **Data Migration:** Served as Lead Business Analyst for data migration projects, smoothly transitioning legacy asset reconciliation systems to Gresham CTC with zero production downtime.
- **Data Mapping & Rules:** Authored extensive target data mappings, complex validation logic, build reconciliation rules to ensure high-fidelity financial reporting.
- **Technical Optimization:** Developed and optimized SQL scripts to accelerate reconciliation speed and ensure full compliance documentation (traceability matrices, audit trails).

FIS Global | Senior Software Engineer

Apr 2014 – Aug 2018 | Pune, India

Project: Securities 360

- **Client Services Engineering:** Handled core software development and production support within the client services team for a major Capital Markets platform.
- **Domain Mastery:** Gained deep technical and functional knowledge of the end-to-end trade lifecycle, covering trade capture, post-trade asset processing, settlement, and reconciliation.
- **Collaborative Delivery:** Partnered closely with consulting business analysts and global banking clients to design and deploy platform enhancements aligned with regulatory standards.

CERTIFICATIONS

- CBAP (Certified Business Analysis Professional) – IIBA
- Generative AI Leader (GAIL) – Google
- Microsoft Azure Fundamentals – Microsoft

EDUCATION

- MBA (FinTech) | BITS Pilani | 2023
- BE (Computer Science) | RGPV | 2012

KEY ACHIEVEMENTS

- **Silver Award (CGI):** Recognized for the on-time, high-quality delivery of a critical banking system enhancement that expanded client business footprint.
