KEY STRENGTHS:

ServiceNow Administration | CAD | ITSM | CSM | Custom Application Development | REST Integrations | IntegrationHub | Flow Designer | Service Catalog | Service Portal | App Engine Studio | JavaScript | Production Support

EXPERIENCE

ServiceNow Developer

PwC

August 2025 – Present

Bangalore

Project: Life Point (August 2025 – Present)

- Develop and enhance ServiceNow Service Catalog capabilities including Catalog Items, Record Producers, and Order Guides to support enterprise service-request processes.
- Customize Service Portal pages and widgets and enhance user-facing experiences using HTML, CSS, and AngularJS.
- Develop and configure REST API integrations and leverage IntegrationHub capabilities for system integration and data exchange.
- Build Flow Designer automations and Decision Table logic to streamline business processes and reduce manual activities.
- Configure Business Rules, Script Includes, Client Scripts, Catalog Client Scripts, UI Policies, UI Actions, ACLs, and Server-Side Scripts based on business requirements.
- Configure Import Sets, Transform Maps, Scheduled Jobs, Email Notifications, and Email Scripts for data processing and platform automation.
- Develop and maintain Reports, Dashboards, and Performance Analytics to support operational visibility.
- Participate in requirement gathering, Agile ceremonies, development, testing, UAT, deployment, and production support activities.
- Troubleshoot application and platform issues and support post-deployment stabilization and defect resolution.

ServiceNow Developer

Virtusa Consulting Services Pvt. Ltd.

May 2022 – July 2025

Bangalore

Project: UK Based Insurance Client (June 2022 – January 2024)

- Developed and configured custom ServiceNow applications, tables, ACLs, and application components using App Engine Studio.
- Developed Business Rules, Script Includes, Client Scripts, UI Policies, UI Actions, Notifications, Scheduled Jobs, and server-side scripting to implement business requirements.
- Configured and enhanced Service Catalog, Service Portal, workflow automation, and data migration capabilities.
- Implemented ServiceNow integrations and supported data exchange and synchronization requirements.
- Executed data migration activities using Import Sets and Transform Maps, including data validation and troubleshooting.
- Supported application testing, UAT, deployment, production support, and issue resolution.
- Collaborated with business and technical stakeholders to understand requirements and deliver ServiceNow enhancements in an Agile environment.

ServiceNow Developer

Virtusa Consulting Services Pvt. Ltd.

May 2022 – July 2025

Bangalore

Project: UK Based Retail Client (February 2024 – July 2025)

- Administered and supported ServiceNow ITSM processes including Incident, Change, Problem, and Service Request Management.
- Managed users, groups, roles, ACLs, access controls, and platform configuration as part of day-to-day ServiceNow administration.
- Configured Client Scripts, Business Rules, UI Policies, Notifications, Approvals, SLAs, and Transform Maps.
- Supported production troubleshooting, testing, access management, platform maintenance, and issue resolution.
- Worked with stakeholders to analyze requirements and implement ServiceNow configuration and enhancement requests.

Intern

Virtusa Consulting Services Pvt. Ltd.

January 2022 – May 2022

Bangalore

- Completed ServiceNow training and gained foundational knowledge of the ServiceNow platform, ITSM processes, Service Catalog, workflows, administration concepts, navigation, and scripting fundamentals.
- Participated in hands-on learning exercises and platform familiarization activities as part of the ServiceNow onboarding program.
