PROFESSIONAL SUMMARY

Results-driven Technology Project Manager with 15+ years of experience across Banking and Financial Services, specialising in Payments, Core Banking, and large-scale technology transformation programs. Proven track record leading end-to-end project lifecycles — from planning, budgeting, and resourcing through delivery and production support — at BNY Mellon, Citibank, and Webster Bank. Deep expertise in ISO 20022 migration (TWIST, CAMT.086, EDI 822), Agile/Scrum delivery, cross-functional team management, and stakeholder engagement at senior levels. Adept at managing SIT, UAT, regression, and DR testing cycles, driving automation initiatives, and overseeing cloud-based data transformation projects across US, Asia, LATAM, and CEEMEA regions.

CORE COMPETENCIES

Project Delivery: End-to-end project lifecycle management | Planning, estimation, budgeting & resourcing | Agile/Scrum delivery | Sprint planning & release management

Payments & Banking: ISO 20022 migration (TWIST XML/BSB, CAMT.086, EDI 822) | Core Banking & Corporate Banking | Fixed Income, Derivatives & Securities Operations | Global Billing (ORMB)

Testing & Quality: SIT, UAT, Regression, DR & Performance Testing | Test strategy & defect resolution | End-to-end validation across parallel environments

Data & Technology: Data migration & transformation | Cloud (AWS, Snowflake) | SQL & PL/SQL | API & integration validation | BI (Tableau, SAP BO) | AI/GenAI

Leadership: Cross-functional team management | Stakeholder & executive engagement | Risk, controls & governance | Change & transformation management

Tools: JIRA · Confluence · SharePoint · Oracle ORMB · SmartStream TLM · Tableau · SAP BO · SQL · Excel · Visio · NDM · SFTP

PROFESSIONAL EXPERIENCE

AVP – Senior Specialist, Business Technology Liaison (Reconciliation) | Bank of New York Mellon (BNY) | Jan 2023 – Apr 2026

- **Project Delivery:** Led end-to-end daily, weekly, and monthly Cash, Position, and Digital Asset reconciliation transformation programme across Custody, Fund Accounting, Middle Office, and AIS for fixed income, financing, and related products — ensuring completion before trading-hour deadlines across global regions.
- **Lifecycle Management:** Managed full project lifecycle including requirement gathering, test strategy definition (SIT, UAT, regression), milestone tracking, RAID logs, and action item trackers across all reconciliation workstreams.
- **Transformation & Automation:** Drove reconciliation automation and AI-enabled capabilities spanning multiple source systems (FTS, Geneva, GSP, Treasury Edge, Invest One/FIS), reducing operational risk and manual data load.
- **Data Migration:** Defined Business Requirement Documents, workflows, and validation criteria for internal and external data migration to the RDZ platform via NDM/SFTP — aligning with data transformation and integration best practices.
- **Process Improvement:** Enabled Feed Advancement (Time Discrepancy) and Unknown Data Cleansing initiatives, accelerating early reconciliation and NAV calculation for trading teams.
- **Team Leadership:** Managed and mentored a team of 6 analysts across multiple transformation workstreams, fostering professional growth and operational excellence.
- **Stakeholder Management:** Acted as primary liaison between Business, Client, and Technology teams; managed escalations with custodians on break resolution, trade settlements, and SLA compliance.
- **Governance & Reporting:** Maintained project artefacts including charters, integrated timelines, and process flows in JIRA and Confluence; provided regular status updates to senior stakeholders.
- **Risk & Compliance:** Continually reassessed operational and technology risks in line with regulatory requirements and governance frameworks.

System Engineer – Lead Analyst | Tata Consultancy Services (Webster Bank Engagement) | Jan 2021 – Dec 2022

- **Cloud Data Transformation:** Led end-to-end data migration from Central Data Repository (CDR/Oracle) to AWS-based Webster Data Repository (WDR) using Snowflake — ensuring data quality, regulatory compliance, and integration integrity throughout.
- **BI Modernisation:** Managed migration of SAP Business Objects reports to Tableau, delivering modern self-service BI capabilities for business users across the organisation.
- **Requirements & Testing:** Defined business requirements, led UAT testing, and developed process flows to enhance system integration efficiency; provided training on new platform SOPs.
- **Delivery:** Delivered cloud-based reporting architecture enabling data-driven decision-making — demonstrating hands-on experience with cloud technologies and data integration platforms.

System Engineer – Project Manager, Global Billing Analytics (CIB) / Cash Operations | Tata Consultancy Services (Citibank) | Jul 2015 – Aug 2020

- **ISO 20022 & ORMB Leadership:** Led end-to-end ORMB onboarding, implementation, and rollout across Trade and Treasury Solutions as Subject Matter Expert for ISO 20022 Global Billing including TWIST XML/BSB, CAMT.086, EDI 822, and CSS formats across US, Canada, Asia, LATAM, and CEEMEA.
- **Testing:** Executed comprehensive UAT, SIT, Functional, Regression, and Performance testing cycles for ORMB and enterprise billing platforms — validating billing configurations, pricing calculations, invoicing workflows, payment processing, and transaction accuracy across multiple parallel environments.
- **Budget & Resource Management:** Managed project budgets, resource planning, and delivery milestones; prepared Cap Plan, MIS, KPI, and ad hoc tracker reports for senior stakeholder review during weekly and monthly business reviews.
- **Re-engineering & Automation:** Led multiple platform re-engineering and automation initiatives across ORMB, GCAR, ECIF, Vanguard Big Data, IGS, and CRM notification distribution — significantly reducing manual reporting effort and improving data accuracy.
- **Client Onboarding:** Managed client onboarding for Turkey, Puerto Rico, UAE, Hong Kong, and Singapore with zero data quality issues; coordinated UAT sign-off and end-to-end validation for global billing invoices.
- **API & Integration:** Supported API and integration validation for billing system interfaces; performed backend validation using Oracle SQL for billing data reconciliation and pricing accuracy checks.
- **Team Management:** Led a team of 4, championing an inclusive mentoring culture and promoting compliance, accountability, and operational excellence.

Workflow Specialist – Loss Mitigation | Tata Consultancy Services (CitiMortgage) | Oct 2010 – Jul 2015

- Managed Citi Mortgage Loss Mitigation Programme under FHA, VA, FHLMC, and FNMA guidelines; prepared MIS, KPI, and audit reports ensuring SLA compliance.
- Trained and mentored new employees on loan modifications, HAMP, short sale programmes, and financial documentation requirements.

Senior Customer Service Executive | Intelnet Global Services (Barclays) / Wipro BPO (Delta Airlines) | Feb 2005 – Oct 2010

- Resolved inbound customer queries across Online, Branch, and Funds Transfer banking; mentored new joiners on COPC guidelines. Awarded Best Advisor for 100% RBSM Quality Scores (Oct–Nov 2009).
- Handled airline reservations, cancellations, and ticket reissues; trained on IATA, Galileo, and CRM platforms. Recognised as Rep of the Quarter (2005).

KEY ACHIEVEMENTS

- Led ISO 20022 transformation (TWIST, CAMT.086, EDI 822) across 5+ global regions at Citibank with zero data quality issues — directly relevant to enterprise-scale payments modernisation programmes.
- Directed cloud data migration (Oracle CDR to AWS/Snowflake) at Webster Bank, demonstrating hands-on delivery of large-scale cloud-based integration programmes.
- Automated multiple manual reconciliation processes across Eagle, FTS, Geneva, GSP, Treasury Edge, and Invest One at BNY Mellon, eliminating manual dependency and accelerating NAV calculation for traders.
- Led daily Cash, Position, and Digital Asset reconciliation cycles across Custody, Fund Accounting, Middle Office, and AIS, ensuring accuracy prior to trading-hour deadlines across global regions.

- Drove Vanguard Big Data TWIST migration, ensuring data quality parity between new and legacy Linux-based environments.
- Directed Unknown Data Cleansing initiative, strengthening compliance posture and data governance across multi-region operations.
- Received direct client recognition for organisational excellence, backup data availability, and follow-through on complex reconciliation investigations.

EDUCATION & CERTIFICATIONS

Bachelor of Commerce (B.Com) – Mumbai University, 2021

Certifications: Certified Scrum Product Owner (Scrum Alliance) · Certified Scrum Master (TCS MasterCraft) · Six Sigma Green Belt (TCS) · Project Management E0 – Strategic Project Planning (TCS) · Agile Way of Working & Statistics/Analytics Foundation (TCS) · TCS Wings: UI/UX Design, BFSI Platforms, Digital Banking · BDA: Cash Management, AML, Digital Transformation
