

KAUSTUBH CHAVAN

Data Engineer

Mobile: +91 9867004490 | **Email:** kaustubh.chavan89@rediffmail.com | **Location:** Thane, Mumbai

Portfolio: <https://github.com/kpc12/>

PROFESSIONAL SUMMARY

Data Engineer with 12 years of IT experience and 4 years specializing in Data Engineering. Strong expertise in ETL processes, data warehousing, big data technologies, data analytics, and reporting. Proven track record of helping organizations drive decision-making by unlocking insights from complex data systems.

TECHNICAL SKILLS

Big Data: Hadoop (HDFS, YARN), Apache Spark, Hive, Delta Lake | **Cloud:** AWS

Programming: SQL, Scala, Python | **ETL & Tools:** Airflow, Unix/Linux, Sqoop, GitHub, Postman

PROFESSIONAL EXPERIENCE

Big Data Training Consultant | Freelancer | Aug 2025 – Present

- Deliver training on big data technologies including Hadoop, Spark, and data engineering best practices
- Mentor professionals in SQL, Python, and Scala Spark with hands-on guidance
- Design curriculum for data engineering courses and support real-world application learning

Senior Software Engineer | Circana | Jan 2024 – Aug 2025

- Developed data transformations including pivots, incremental loads, and CDC using Scala Spark
- Implemented Delta Lake solutions for data versioning and integrated data from RDBMS, APIs, and S3
- Managed data warehousing with Amazon Redshift and orchestrated pipelines using Apache Airflow
- Built Scala based functional packages to perform ETL operations.
- Used Scala based Testing Framework FunSuite, FlatSpec

Data Engineer | Finicity, a Mastercard Company | Feb 2021 – Jan 2024

- Built ETL pipelines using Scala Spark on AWS Glue and managed Hadoop ecosystem (HDFS, Hive, Spark)
- Optimized data structures using partitioning and bucketing in Hive
- Automated workflows and scheduled jobs using Apache Airflow

Associate | Suryoday Small Finance Bank | Sept 2020 – Dec 2020

- Automated SQL scripts in MSSQL Server and performed data import/export using Sqoop
- Executed Spark jobs on cluster environments and queried OLAP systems using Hive-Spark connections

Senior Analyst | Capgemini Technology | June 2019 – May 2020

- Performed database analysis using Spark SQL and implemented workflow orchestration using Airflow
- Designed data pipelines for structured and semi-structured data formats

MIS Executive | Ipca Laboratories | July 2017 – June 2019

- Generated automated MIS reports and conducted data analysis using SQL

MIS Assistant | Meyer Organics | Feb 2016 – July 2017

- Performed data analysis for sales operations and prepared reports for sales teams

Computer Faculty | ICIT Computer Institute | May 2015 – Feb 2016

- Taught C, C++, Core Java, HTML, and SQL to students

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) | Graduated: 2013
