## Senior Associate – Capital Markets Operations

kirangaikwadkg1@gmail.com | 9834994060 | Pune, Maharashtra, India

### PROFESSIONAL SUMMARY

Capital Markets Operations professional of experience across Trade Processing, Settlements, Reconciliation, Exception Management, Risk & Controls, and Client Service. Proven ability to manage end-to-end trade lifecycle activities across US brokerage and wealth management environments, resolve complex operational exceptions, handle client escalations, and lead teams toward operational excellence. Adept at stakeholder management, root cause analysis, process improvement, and driving automation and continuous improvement initiatives.

### PROFESSIONAL EXPERIENCE

#### Senior Associate / Operations Specialist | State Street Pvt. Ltd., Pune – Hinjewadi

June 2022 – May 2026

##### Trade Processing & Settlements

- Managed end-to-end trade processing and settlement activities across a broad range of capital market products.
- Processed and monitored settlements through Euroclear, Clearstream, and Depository Trust Company (DTC) platforms, ensuring compliance with market deadlines and settlement requirements.
- Supported ETD (Electronic Trade Delivery) trade processing and settlement activities, ensuring accurate trade capture, reconciliation, and lifecycle event management.
- Investigated and resolved cash, position, and settlement breaks within defined SLA timelines, preventing downstream risk.
- Acted as primary escalation point for complex trade and reconciliation issues, coordinating resolution with brokers, custodians, and counterparties.
- Utilised GTM, MCH, eHorizon, and IMT for trade lifecycle management, ensuring accurate and timely settlement.
- Supported client queries and delivered high-quality service to institutional clients, maintaining zero major escalations.

##### Reconciliation & Risk Controls

- Performed daily reconciliation using Matching Utility (MU), TXR, Reverse Recon, ACAT, and Non-ACAT reports.
- Monitored operational risk, ensured adherence to internal controls, and maintained compliance with regulatory requirements.
- Prepared management reports, KPI/KRI metrics, and operational dashboards to support senior management decision-making.
- Conducted root cause analysis on recurring breaks and implemented corrective actions to prevent recurrence.

##### Leadership & Team Management

- Served as Acting Team Lead; managed daily workflow allocation, monitored team productivity, and ensured adherence to SLAs and KRIs.
- Provided coaching, mentoring, and structured training to new and existing team members, improving operational accuracy.
- Managed escalations from clients and senior stakeholders, ensuring timely and satisfactory resolution.
- Led process improvement and automation initiatives across reconciliation and settlement workflows, reducing manual effort and operational risk.
- Supported business change programmes and implementation of new operational controls.

#### Senior Transaction Processing Officer – Cost Basis Operations | Mphasis Pvt. Ltd., Pune – Kharadi

### Operations & Processing

- Managed end-to-end Cost Basis Operations for US brokerage and wealth management clients, ensuring accurate asset transfer and tax reporting.
- Processed Transfer of Assets (TOA), Mutual Fund transactions, Account Transfers, and DOD (Date of Death) valuations within strict SLA requirements.
- Conducted account, cash, and position reconciliations to ensure data integrity across multiple platforms.
- Investigated and resolved complex cost basis discrepancies, missing securities, transfer issues, and non-confirming transactions.
- Collaborated with brokerage firms, custodians, transfer agents, and internal teams to resolve operational exceptions.
- Supported corporate action processing — including mergers, acquisitions, and stock splits — ensuring accurate cost basis adjustments.
- Performed detailed quality checks and risk assessments to maintain regulatory compliance and operational accuracy.

### Subject Matter Expertise & Leadership

- Acted as SME for Cost Basis Operations; supported team members on complex transactions and exception resolution.
- Assisted Team Leads in workload allocation, queue management, and daily operational planning.
- Mentored and trained new hires on TOA processing, cost basis calculations, reconciliation procedures, and risk controls.
- Contributed to SOP creation, process documentation, and knowledge management activities.
- Participated in transition, migration, and process enhancement projects to improve operational efficiency.
