PROFESSIONAL SUMMARY

Results-driven investment operations and securities valuation professional with 8+ years of experience, including 5+ years at State Street, one of the world's leading custodian banks. Sole Point of Contact (SPOC) for 2 major institutional clients, managing end-to-end securities operations across 500+ daily securities exceptions, ensuring zero SLA breaches and full compliance with audit controls. Deep expertise in securities pricing, portfolio valuation, NAV calculation, corporate actions, and OTC derivatives across multi-asset portfolios. Adept at leveraging Bloomberg, ICE, Reuters, and JPM systems to drive data accuracy, reduce exception resolution time, and deliver operational excellence. MBA-Finance graduate with strong cross-functional collaboration and stakeholder communication skills.

KEY ACHIEVEMENTS

- Designated SPOC for 2 major institutional clients at State Street, managing full lifecycle of investment operations and serving as the primary escalation point for all client queries and exceptions.
- Resolved 500+ daily securities exceptions across multi-asset portfolios, maintaining 100% SLA adherence and zero critical escalations through proactive root cause analysis and vendor coordination.
- Reduced pricing exception resolution time by 20% by optimising cross-vendor workflows across Bloomberg, ICE, and Reuters through systematic process improvements and proactive broker outreach.
- Contributed to process automation initiatives that reduced manual operational effort by an estimated 30%, improving team throughput and reporting accuracy across fund accounting workflows.
- Trained and onboarded multiple new team members on securities operations, fund accounting procedures, and audit controls – ensuring consistent service quality and knowledge continuity.

CORE COMPETENCIES

Investment Operations: Securities Valuation, Trade Validation, Custody Operations, Settlement, Corporate Actions

Soft Skills: Client Relationship Management, SPOC Accountability, Stakeholder Communication, Team Training

PROFESSIONAL EXPERIENCE

Senior Associate – Investment Operations & Portfolio Valuation | [State Street](#)

 Coimbatore, India

h e s w l s d g 0

- Serve as sole SPOC (Single Point of Contact) for 2 major institutional clients, owning end-to-end investment operations, exception management, and client communication – handling 500+ daily securities exceptions across equities, fixed income, derivatives, and fund instruments.

- Perform daily securities valuation and pricing across Equities, Bonds, Mutual Funds, ETFs, Options, Futures, and OTC derivatives, ensuring 100% SLA adherence and pricing accuracy across all client portfolios.
- Manage Corporate Actions (dividends, stock splits, mergers, acquisitions, rights issues, spin-offs) for client portfolios, ensuring timely processing, accurate securities record updates, and correct client impact assessment.
- Support fund accounting operations including FX rate calculation, amortized cost validation, and NAV

computation for mutual funds and hedge funds across multi-currency, multi-asset structures.

- Conduct cross-vendor price benchmarking across Bloomberg, ICE, Reuters, and JPM; analyse tolerance breaks, identify root causes, and coordinate upstream/downstream resolution – reducing exception resolution time by 20%.
- Manually price OTC derivative instruments; analyse derivative positions and validate against system parameters to ensure portfolio valuation accuracy and compliance with prescribed controls.
- Perform daily trade validations including security contributions, withdrawals, income postings, and tax-free exchanges; reconcile positions between internal record-keeping and portfolio systems, resolving all breaks within SLA.
- Generate and distribute comprehensive client reports covering stale prices, suspended securities, tolerance failures, missing prices, matured, and halted securities – maintaining full transparency with institutional clients.
- Ensure compliance with audit controls; maintain and update Standard Operating Procedures (SOPs); collaborate with Fund Services, Portfolio Management, Oversight Teams, and Technology to maintain data integrity.
- Contribute to process automation initiatives, reducing manual effort by ~30% and significantly improving operational efficiency and reporting accuracy across fund accounting workflows.

Data Entry Operator | [Onerouf Resources Pvt. Limited](#)

 Coimbatore, India

in

- Managed fund operations for 2 major fund houses (HDFC & ICICI), handling daily transaction processing including SIP registrations, reconciliations, and redemptions across high-volume mutual fund portfolios.
- Validated fund data and transaction errors using SQL queries, identifying and resolving discrepancies in SIP registration processes to maintain accurate fund records and ensure regulatory compliance.
- Generated operational reports and financial data summaries for management review; performed error rectification to maintain data accuracy across fund administration workflows.
- Demonstrated consistent accuracy, personal accountability, and strong work ethic in managing high-volume fund operations within strict daily deadlines.
