PROFESSIONAL EXPERIENCE

Team Lead – Data Management

Bank of America | Sep 2026 – Present | Mumbai

- Currently working as Team Lead in Data Management, with responsibility for team coordination and data-management activities.

Regulatory & Transaction Reporting Analyst 3 (Senior Analyst)

Morgan Stanley | Apr 2025 – Aug 2026 | Mumbai

- Managed end-to-end regulatory and transaction reporting activities across OTC derivatives, equity derivatives, equity swaps, options, FX, fixed income and equities.
- Prepared and submitted accurate regulatory reports, ensuring completeness, accuracy and timeliness in line with applicable regulatory requirements.
- Worked across EMIR, MiFID and other global regulatory reporting frameworks, validating transaction data and reporting outputs against regulatory requirements.
- Gathered, validated and analysed transaction-level data from multiple upstream sources to identify discrepancies, missing attributes and reporting exceptions.
- Investigated reporting discrepancies, exceptions and data-quality issues, performed root-cause analysis and coordinated corrective actions through final resolution.
- Managed client regulatory queries and reporting enquiries, understanding client requirements, investigating issues and coordinating with internal teams to deliver timely resolution.
- Handled client escalations related to regulatory reporting discrepancies, data issues and reporting status, ensuring end-to-end follow-up through closure.
- Coordinated with clients, brokers, Compliance, Risk, Finance and Operations teams to resolve reporting issues within defined SLAs and regulatory timelines.
- Supported clients in understanding reporting requirements, data issues and resolution procedures, providing clear explanations and status updates throughout the issue lifecycle.
- Managed daily client enquiries and requests, prioritising issues based on regulatory impact and ensuring timely communication through resolution.
- Supported regulatory reporting controls and validation processes to ensure reported transactions accurately reflected underlying trade data.

- Monitored regulatory changes and supported implementation of reporting-control enhancements to meet evolving regulatory requirements.
- Assisted with UAT and validation for reporting-process changes, including test execution, output validation, defect identification and resolution prior to production implementation.
- Prepared management information packs and reporting dashboards covering reporting status, exceptions, remediation progress and key operational metrics for senior stakeholders.
- Collaborated with cross-functional teams to strengthen controls, improve reporting processes and enhance transaction-reporting quality and operational efficiency.

Compliance Analyst

MUFG | Apr 2023 – Apr 2025 | Mumbai

- Conducted audits of disclosure documents for accuracy and completeness and resolved discrepancies to ensure compliance.
- Executed client contracts across the APAC region, ensuring adherence to agency-agreement and compliance requirements.
- Maintained investor-relations data, logged meetings and prepared briefing books supporting CRM activities.
- Audited investor-relations data and generated share-registry reports for internal stakeholders.
- Built long-term client relationships across multiple stock exchanges through disciplined compliance procedures.
