PROFESSIONAL SUMMARY

Results-driven **RPA Developer** with **4.3+ years of experience** in end-to-end automation lifecycle using **UiPath** and **Power Automate**. Proven expertise in **bot development, migration, AI integration, and process optimization** with hands-on delivery of **18+ automation solutions**. Skilled at collaborating with stakeholders, resolving production issues, and driving digital transformation with measurable cost savings.

CORE SKILLS

- RPA Tools: UiPath, Power Automate Desktop & Cloud
- AI & Automation: Agentic AI (LangChain, CrewAI), SAP Scripting
- Taken on RPA Lead responsibilities, monitoring development progress and managing the team
- Data & Analytics: Power BI, Kibana, Oracle OCI Database
- DevOps & Cloud: GitHub, AWS (Cloud Practitioner Certified)
- Other: Process Optimization, Secure Authentication (MFA), API Integration

PROFESSIONAL EXPERIENCE

Hindustan Coca-Cola Beverages Pvt. Ltd. | Senior RPA Developer

April 2025 – Present

- Designed and executed a UiPath-to-Power Automate migration plan, reducing license costs significantly.
- Delivered 2 successful bot migrations to Power Automate, ensuring seamless business continuity.
- Built reusable automation components in Power Automate to accelerate future development.
- Developed 5+ end-to-end automation solutions using UiPath.
- Developed a SAP-integrated bot, streamlining core business processes.
- Actively resolved production issues and implemented change requests, improving bot reliability.
- Created a sample Agentic AI use case (LangChain & CrewAI) to demonstrate AI-powered automation.

Accenture Pvt. Ltd. | Application Development Analyst

October 2021 – April 2025

- Developed 10+ end-to-end automation solutions using UiPath.
- Developed 8+ end-to-end automation solutions using Power Automate Desktop & Cloud.
- Migrated around 160+ Automations from UiPath to Power Automate
- Built a RE Framework template in Power Automate, standardizing automation design.
- Automated credential expiry monitoring for third-party portals, reducing downtime risks.
- Created automation to track UiPath license utilization, improving resource planning.
- Designed Power Automate bots using JIRA APIs, enhancing project tracking.
- Migrated multiple automations from UiPath to Power Automate with minimal disruption.

- Implemented MFA login in UiPath Orchestrator & Action Center, strengthening security.
- Worked on Kibana dashboards & monitoring tools for automation performance analytics.
- Upgraded UiPath infrastructure from 2020.10.2 to 2022.10.4 (Classical to Modern).
- Contributed to client interactions, TDDs, deployments, and UAT support, ensuring smooth project delivery.
- Recognized with Best Employee Award and Pinnacle Award FY24 (Accenture).

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft: PL-900, PL-400, PL-500
- Certified Automation Practitioner
- AWS Cloud Practitioner (Course Completed)
- Awards: Pinnacle Award FY24 – Accenture, Best Employee Award

EDUCATION

- B.Tech in Electrical & Electronics Engineering – 7.21 CGPA (2018–2021)
- Diploma in Electrical & Electronics Engineering – 78.6% (2015–2018)
