• Scope / Timeline / Budget & Cost Tracking	• Regulatory & Compliance Delivery
• UAT / Production Readiness	• Vendor & Third-Party Management
• JIRA / Confluence / MS Project	• Agile / Waterfall / SDLC

PROFESSIONAL EXPERIENCE

PROJECT MANAGER | WIPRO LIMITED Jan 2026 – Present

Lloyds Bank – Payments Domain

Leading payment-related initiatives across the European region covering ISO 20022 MX messaging, Instant and Classic Payments, ACH, SWIFT, payment gateways, platforms and digital payment journeys.

- Lead end-to-end payment project delivery covering scope, objectives, deliverables, milestones, resource planning, risk assessment and delivery controls.
- Drive ISO 20022 initiatives covering PACS, PAIN and CAMT messages within EPC guidelines, with focus on compliant and secure payment delivery.
- Establish project governance frameworks, roles, decision-making structures and controls; monitor risk, compliance, performance and stakeholder alignment.
- Manage project budgets and cost tracking; prepare project plans, timelines, milestones, resource plans, business cases, SOWs and high-level estimates.
- Lead payments delivery across payment gateways, payment processors, merchant onboarding, Instant and Classic Payments, including authorization, clearing, settlement and reconciliation flows.
- Engage business, technology, IT, compliance, finance, operations, architects, financial institutions and executive leadership; conduct status meetings, steering committees and executive updates.
- Maintain RAID logs and mitigation plans; coordinate audits, certifications and regulatory submissions.
- Manage payment gateway, core banking and fraud-solution vendors and third parties; support regulatory requirements including PCI-DSS and AML/KYC.

Nordea Bank – Payments Domain

Led payment initiatives across Finland, Norway, Denmark and Sweden, with primary focus on SEPA enhancement, compliance and ISO 20022 migration.

- Led SEPA payment enhancement, compliance and migration initiatives into ISO 20022 MX messages including PACS, PAIN and CAMT under SEPA/EPC/NPC guidelines.
- Owned end-to-end delivery of payment technology and strategic initiatives, ensuring delivery within agreed scope, time and budget.
- Established governance frameworks, roles, decision-making structures and project controls; managed status, requirements, feasibility and risk assessments.
- Developed and implemented payment risk-management strategies covering fraud, compliance issues and technology failures; maintained mitigation plans.
- Led cross-functional teams across IT, finance, operations and compliance, coordinating developers, UX/UI, compliance teams, financial institutions and executive stakeholders.
- Maintained project plans, status reports, risk registers and lessons learned; provided regular progress, issue and risk updates to senior management.
- Oversaw UAT and testing phases for payment systems and coordinated stakeholder feedback through implementation.
- Managed regulatory alignment across SEPA/EPC/NPC requirements and other relevant payment standards and regulatory considerations.

PROJECT MANAGER & BUSINESS ANALYST | LTIMINDTREE Apr 2022 – Nov 2022

HSBC Bank – Seeburger Payments Transformation

Payment transformation programme integrating Seeburger as a global platform for HSBC payment applications.

- Led payment transformation and legacy migration from Heritage Connect to Seeburger Digital Connect, including cloud migration, API enablement and partner/customer onboarding.
- Managed integration across APIs, HSBC Net File Upload, Sterling File Gateway and SWIFT channels.
- Worked with stakeholders on ISO 20022, SWIFT, cross-border payments, Direct Debit, ACH and Wire Transfer initiatives.
- Managed full SDLC delivery and supported solution vision, objectives, requirements, quality, time and cost controls.

- Analyzed legacy issues and implemented improvements to strengthen API support and reduce customer onboarding time.

PROJECT MANAGER & BUSINESS ANALYST | TATA CONSULTANCY SERVICES (TCS) Jun 2018 – Mar 2022

Citibank – GPPSP Payments Domain

Supported a global integrated payments solution for Citibank customers, with focus on cross-border, instant and high-value payments.

- Worked on payment transformation across Cross-Border, Instant and High Value Payments modules.
- Managed and monitored cross-border payment requirements and developed process flows for Instant Payments, High Value Payments, Cross-Border Payments and Wires.
- Coordinated with Operations, Technology and Business teams; conducted walkthroughs and maintained client-approved payment documentation.
- Used JIRA and Confluence for requirements and project documentation; held regular progress calls, identified risks and tracked delivery quality.

BUSINESS ANALYST | TATA CONSULTANCY SERVICES (TCS) Sep 2017 – Jun 2018

Access Management

Business analysis and application support for the RIGHTS access-management solution.

- Managed application requirements, customer issues, demonstrations, training and service objectives.

SOFTWARE QA TEST LEAD | TATA CONSULTANCY SERVICES (TCS) Nov 2015 – Sep 2017

Citibank – Payments Domain

QA leadership for ALTO/Flexcube payment systems.

- Led test planning, execution and defect management for payment transactions and system analysis; mentored testers and maintained quality documentation.
- Improved QA testing efficiency by 20% and built a defect database supporting consistency and compliance.

TEAM LEAD & SME | TATA CONSULTANCY SERVICES (TCS) May 2014 – Nov 2015

Prospect Mortgage – US Mortgage Underwriting

Operational leadership, performance tracking, risk assessment and status reporting.

OPERATIONS MANAGER & SME | TATA CONSULTANCY SERVICES (TCS) Apr 2012 – May 2014
