PROFESSIONAL EXPERIENCE

Vice President – Technology Program Manager • NatWest Group

VP (Dec 2021 – Present) Gurugram, India), **AVP (Jan 2015 – Dec 2021)** Gurugram, India)

- Lead end-to-end delivery of technology programmes and Agile Release Trains (ARTs) for Core Banking using the SAFe Agile framework, coordinating iterative delivery across mainframe, middleware, and digital (mobile, streaming, off-host) platforms.
- Oversee programme governance across global, cross-functional teams, ensuring adherence to timelines, product backlogs, budgets, and quality benchmarks. Overall team size varies between 50 to 85 team members.
- Collaborate with senior business and technology stakeholders to define programme scope, manage risks, and establish measurable success metrics.
- Lead vendor and supplier governance, including contract negotiations and performance management of third-party delivery teams.
- Champion digital transformation and regulatory compliance initiatives for Core Banking platforms, delivering modernisation programmes with quantifiable business outcomes.
- Recognised with multiple NatWest Living Our Values (LoV) awards for outstanding project delivery and collaborative leadership.

Software Designer (Senior Developer) • NatWest Group*Jan 2011 – Dec 2014**Gurugram, India*

- Served as Software Designer in mainframe technology, Subject Matter Expert (SME) for Core Outputs and Core Back-Office platforms, providing technical leadership on key applications: Central Despatch, CODS/Faster Payments, CUSREK, BD2, IRRS, and COI (Certificates of Interest).

Team Lead • Attra InfoTech (GE Money Australia & HSBC Global Technology Centre)*Jan 2009 – Jan 2011**Pune, India*

- Delivered Visa 9.1 compliance project for GE Money Australia ahead of deadline; team received a 5/5 client satisfaction rating and was awarded Monthly Spot Award for extraordinary performance.
- Designed and implemented new CICS/COBOL/DB2 applications for account origination and account opening processes at HSBC Pune location.
- Led technical design, Development and testing for HSBC Europe credit card migration to the One HSBC Card platform at HSBC Pune location.

Senior Software Engineer • Satyam Computers (Royal Bank of Scotland)*Feb 2008 – Dec 2008**Gurgaon, India*

- Developed new switched-account functionality enabling overdraft facilities for migrated customers (NICC Remedy G project). Designed and developed applications for real-time account maintenance within back-office banking systems.

Associate Consultant • Capgemini Consulting India (HSBC Card Services)*Jun 2005 – Feb 2008**Pune, India*

- Delivered multiple compliance and card-scheme migration projects (Visa/Mastercard, Europay-to-Mastercard IPM) for VisionPlus credit card software on Mainframe for HSBC bank.
- Developed fraud-detection enhancements using the FAS-RAPTOR scoring engine, strengthening real-time transaction security. Implemented new online authorisation systems to secure CVV2/CVC2 data within the VisionPlus platform HSBC bank. Delivered clearing, settlement, and promotions functionality for the B&Q store card launch. For HSBC Europe.
