- Mobile : 9686364439
- Location: **BENGALURU**

AWARDS & ACHIEVEMENTS:

- **Star Performer Award**
- **AI Innovation Award**
- Excellent rating for **2 consecutive years**.

PROFESSIONAL EXPERIENCE:

- **Relavent 5+ Years Experience.**
- **Senior ServiceNow Developer : 2+ Years**
- **ServiceNow Developer : 3+ Years**

ACADEMICS:

- B-Tech , 75% , Bengaluru.
- PUC , 87%
- School , 89%

PROFESSIONAL SUMMARY:

- Results-driven Senior ServiceNow Developer with 5 years of experience working in custom platform environments delivering solutions and **complex enterprise integrations**.
- Strategically guided a highly **customized platform** toward **ServiceNow best practices**, transitioning custom configurations to standard out-of-the-box (OOTB) modules
- Expert in designing scalable **automation** workflows (**ITSM + ITOM + AI**), driving data governance, and leading seamless platform upgrades.
- Demonstrated **technical leader** with a strong track record of business-driven engineering and experience managing a **5-member** development team.

SENIOR SERVICENOW DEVELOPER | NIELSEN: 2+ YEARS (2024-AUG - CURRENT)

- **Now Assist Change-Impact Nexus:** Gen AI-driven analysis framework designed to accelerate **Major Incident** resolution and slash **MTTR** by programmatically aligning incident telemetry with high-risk change initiatives executed in last **24-to-48-hour**.
- **Intelligent RAG Auditor for Enterprise Cases:** Deployed a custom **RAG retriever via NASK** to automate transactional Case policy **Compliance audits**.
- **Zero-Touch IT Onboarding:** Automated end-to-end onboarding and offboarding workflows via SFTP/REST APIs, eradicating manual administrative bottlenecks and reducing **days of work to mere hours**.
- **CMDB & Discovery:** Configured and deployed **ServiceNow Discovery** while actively maintaining CMDB **Health** , data accuracy, and infrastructure integrity. Successfully managed and maintained the CMDB.
- **AI-Driven Smart Route Automation:** Eliminated a **15-hour manual** triage delay for misrouted portal tickets. Implemented an AI-assisted(**Predictive Intelligence**) automation that predicts and suggest the relevant team.
- **Now Assist SLA Intelligence Engine:** Delivered highly efficient, **AI-generated improvement** suggestions and actionable **insights** directly to **managers**, eliminating manual audit hours by removing the need to search, open, and analyze **breached tickets** one by one.
- **Automated SAP Provisioning Engine:** Integrated SAP SuccessFactors and Active Directory to automate conditional system access. Built a zero-touch batch engine with **self-healing API** error handling, guaranteeing 100% compliance and saving 3 days of manual fulfillment.

- **Platform Lifecycle (ServiceNow Upgrades):** Prevented operational disruption during the Zurich platform upgrade. Drove rigorous testing and bug remediation to ensure peak stability and zero-disruption deployments.

SERVICENOW DEVELOPER | TECHMAHINDRA :3+ YEARS(2021 : 2024-AUG)

- **Integrations:** Implemented third-party system integrations using **REST Messages**, Inbound Email, **Integration Hub**, and Scripted REST APIs secured with **OAuth 2.0**.
- **Access Control & Governance:** Administered user accounts, role hierarchies, system permissions, and Access Control Lists (ACLs) to guarantee secure platform access and governance.
- **Process Automation:** Configured ServiceNow workflows, Business Rules, UI/Data Policies, Scheduled Jobs, Event and **MID Servers** utilizing Agile methodologies to streamline business operations.
- **Core Engineering:** Automated legacy User Administration tasks via Flow Designer and converted manual data migrations into automated workflows using Scheduled Import sets and Transform Maps.
- **Application Development:** Designed, developed, and implemented Scoped Application & Custom ServiceNow applications, modules, meeting specific business requirements.
- **Troubleshooting and Optimization:** Debugged and troubleshooted issues within ServiceNow applications, providing solutions to enhance performance and user experience.

TECHNICAL SKILLS:

- **Core Modules & Frameworks:** ITSM (Incident, Problem, Change, Knowledge), CMDB, HRSD, ITOM, Service Portal, CSM, ITIL NowAssist, Framework, SDLC.
- **Development & Scripting:** JavaScript, Client & Server-Side Scripting, Script Includes, Business Rules, Client Scripts, Fix Script, UI Actions, HTML, Glide APIs (GlideForm, GlideUser, GlideAjax), Background Scripts, Scoped & Custom Applications.
- **Automation & UI Configuration:** Flow Designer, ETL, Workflows, UI/Data Policies, Scheduled Jobs, Record Producers, Order Guides, Reference Qualifiers, CSDM, Mapping, Widgets, SLA, Pages, Form & Field Layouts, AI Agents, Agentic Workflow, RAG, MCP, Now Assist, LLM, Predictive Intelligence, ML, Virtual Agent, Gen AI, Employee Center, Knowledge Graph, UI Builder (UIB), App Engine Studio (AES), Platform analytics, ServiceNow Studio.
- **Integrations & Data Management:** Integrated with Zendesk, SAP, Jira, Salesforce, AWS, Ariba, JDBC REST API, APIs (Table, Import), SSO, JSON, Workspace, Robust transform engine, AIOps, Transform Maps, Import Sets, LDAP, Data Sources, MID Server, Inbound/Outbound Email.
- **Platform Admin & Tools:** Access Control Lists (ACL), Configuration Items (CI), ServiceNow Discovery, Upgrades, Update Sets (Batch/Remote), Reports & Dashboards, Script Debugger, System Policies, Platform Scalability & Performance.

PERSONAL DETAILS:

- Name : Madhusudhan H K
- DOB : 02-June-1998
- Languages : English, Kannada, Hindi.
- Hobbies : Chess, Cricket.

PROFESSIONAL CERTIFICATIONS:

- **Certified System Administrator. [CSA]**
- **Certified Application Developer. [CAD]**
- **Flow Designer. [Micro Certification]**
