Maruti Champli

Fund Accounting Team Lead with 8 years of experience at State Street, managing 600+ funds across diverse structures including Hedge Funds, Private Equity, LP Funds, Commingled, Derivative, Domestic and Global Equity, and Fixed Income Funds. Expertise in NAV calculation and validation, trade booking, security pricing, cash and position reconciliation, dividend and interest income processing, expenses and capital activity administration. Demonstrated leadership in team management, client escalation resolution, root cause analysis (RCA), process improvement, and audit readiness. Skilled at mentoring high-performing teams, conducting team huddles, assisting in fund allocation, and implementing robust internal controls while ensuring SLA/KPI compliance.

Work Experience

Team Lead – Fund Accounting | State Street Corporation – Mumbai, India

Team Leadership & Operational Management:

- Lead and mentor a team of 8+ fund accountants managing 600+ funds, conducting daily team huddles, performance reviews, onboarding, and technical upskilling.
- Allocate and prioritise daily and month-end tasks, ensuring efficient processing and timely completion of NAV cycles, reconciliations, and accounting activities.
- Serve as primary escalation point for operational issues, providing guidance, troubleshooting, and resolution strategies.
- Support managers in fund allocation, resource planning, and workflow optimization, ensuring high operational efficiency.

Client & Stakeholder Management:

- Handle client escalations, cash/position calls, and ad-hoc queries, coordinating with onshore/offshore teams to ensure SLA and regulatory compliance.
- Prepare and present Root Cause Analysis (RCA) reports for operational discrepancies to management and clients.
- Maintain robust client relationships by delivering accurate, timely, and comprehensive fund accounting reports.
- Participate in internal and external audits, providing detailed reconciliations, documentation, and explanations as required.

Technical & Fund Accounting Oversight:

- Oversee monthly NAV calculation and validation for 600+ funds, ensuring completeness, accuracy, and adherence to accounting policies.
- Perform security pricing as per Investment Manager (IM) statements, validating against approved market sources.
- Book management fees, audit fees, and fund expenses, ensuring proper allocation and accurate posting in the ledger.
- Process capital activities including subscriptions, redemptions, capital calls, and distributions.
- Reconcile Investment Manager (IM) vs Custodian positions and cash, ensuring zero breaks.
- Record dividend and interest income as per statements and process dividend reinvestments accurately.
- Validate pricing tolerances, rates of return (ROR), and mark-to-market adjustments.
- Review and resolve failed trades, outstanding income, and expense postings, maintaining clean trial balances.
- Conduct daily cash and position reconciliations, ensuring general ledger and sub-ledger alignment.
- Prepare and maintain mutual fund trackers, reconciliation trackers, and KPI dashboards for internal and client reporting.
- Implement internal controls and risk mitigation measures, reducing operational errors and improving efficiency.
