PROFILE SUMMARY

Business Analyst with 4+ years of experience delivering Banking, SaaS, and E-Procurement solutions across Agile environments. Experienced in requirement gathering, stakeholder management, business process analysis, API integrations, UAT, release management, and production deployments. Skilled at translating business requirements into functional solutions, collaborating with cross-functional teams, and driving successful project delivery using JIRA, Postman, SQL, and Agile methodologies. Strong domain expertise in T24, ITSM/CSM platforms, and enterprise SaaS applications.

WORK EXPERIENCE

Wolken Software | Senior Business Analyst

Bangalore, India | July 2025 – Present

- **Led client onboarding** by conducting **product demonstrations**, **configuring enterprise SaaS solutions**, and ensuring successful **product adoption**.
- **Gathered client API integration requirements**, collaborated with **developers** to configure new **REST APIs**, and validated **endpoints**, **request/response payloads**, **authentication**, and functionality using **Postman** to support **UAT** and successful **client delivery**.
- **Deployed application releases** to the **Sandbox (SB) environment**, performed **post-deployment validation**, collaborated with **Development** and **QA** teams to resolve **regression defects**, and ensured successful **production-ready releases**.
- **Elicited, analyzed, and documented business requirements** by collaborating with **clients** and **stakeholders**, translating business needs into **user stories**, **functional specifications**, and **prioritized backlog items**.
- Reduced the **Broadcom ticket backlog** from **50+ to ~20 tickets** by collaborating with **Development**, **DevOps**, and **QA** teams, improving **issue resolution efficiency**.
- **Owned end-to-end delivery** of **ITSM** and **CSM portal enhancements**, from **requirement gathering** and **solution design** through **UAT**, **deployment**, and successful **production go-live**.
- Led the implementation of the **Case Summary enhancement** by integrating the **Configuration Management Database (CMDB)**, improving **operational visibility** and **service efficiency**.
- Configured and optimized **SLA policies**, **Business Rules**, **workflows**, and **status/sub-status models** across **ITSM** and **CSM** modules to streamline **service management processes**.
- Configured **JIRA workflows**, **issue types**, **statuses**, and **lifecycle processes**, improving **project tracking**, **process standardization**, and **team productivity**.
- Facilitated **Sprint Reviews**, **client demonstrations**, and **stakeholder walkthroughs** to gather **feedback**, validate **business requirements**, and drive **feature adoption**.
- Performed **Root Cause Analysis (RCA)** on recurring **production issues** and recommended **process improvements** to enhance **system stability** and **customer satisfaction**.
- Delivered the **CSG PRISM project** by designing **end-to-end user journey workflow diagrams** using **Whimsical**, improving **process visualization** and **user experience**.

Temenos India Pvt Ltd | Business Analyst

Bangalore, India | Feb 2024 – June 2025

- Applied **functional expertise** in **Temenos Transact (T24)** across **Lending (LD)**, **Payment Due (PD)**, **COB**, and **OFS** modules to support **implementation** and **production support** activities.

- Collaborated with **business stakeholders** and **development teams** to deliver **client-specific banking solutions** across **Lending (LD)**, **Payment Due (PD)**, and **COB** modules.
- Managed **end-to-end T24 implementation** activities, including **requirement analysis**, **Root Cause Analysis (RCA)**, **functional testing**, and **issue resolution**, reducing average resolution time by **25%**.
- Developed **data extraction** and **data correction routines** using **InfoBasic (JBC)**, **Design Studio**, and **JQL**, improving **data reconciliation** and **operational efficiency**.
- Created **Knowledge Base (KB)** articles and **technical documentation**, improving **knowledge sharing**, **process documentation**, and **analyst onboarding**.

DXC TECHNOLOGY | Business Analyst

Bangalore, India | Nov 2021 – Dec 2023

- **Gathered, analyzed, and documented business requirements** for the **Karnataka e-Procurement platform**, ensuring alignment with **stakeholder objectives**.
- Translated **business requirements** into **functional specifications** and **user stories** for **e-Sourcing**, **e-Tendering**, and **e-Auction** modules.
- Collaborated with **cross-functional teams** to perform **Root Cause Analysis (RCA)**, reducing **issue resolution time** by **20%**.
- Analyzed **application logs** and **business data** to generate **actionable insights** and support **business decision-making**.
- Validated **defect fixes**, documented **business impact**, and supported **application testing** to ensure **solution quality**.
