PROFESSIONAL SUMMARY

Experienced **ServiceNow** Developer with 4.5+ years of expertise in designing, developing, and implementing **ITSM** solutions on the ServiceNow platform. Proficient in **GlideRecord**, **GlideSystem**, **Update Sets**, **CMDB**, **server-side and client-side scripting**, and **REST/SOAP** integrations. Skilled in **configuring modules**, **building Service Catalogs**, **automating workflows** using **Flow Designer**, and **optimizing processes to improve efficiency and user experience**. Experienced in working with **Agile/Scrum methodologies** and collaborating with stakeholders to deliver solutions on time. Holds four **ServiceNow certifications** including **CIS-ITSM** and **CIS-CSM**. Recognized for strong problem-solving and communication skills, consistently delivering high-quality results and driving measurable business outcomes.

TECHNICAL SKILLS

- ServiceNow Development
- ServiceNow Scripting
- ITSM Modules(Incident,Problem,Change,Request,etc.)
- Workflows and Flow Designers
- JavaScript
- Configuring SLAs and ACLs
- Troubleshooting and Debugging
- REST and SOAP Integrations
- GlideRecord and GlideSystem APIs
- CMDB (Configuration Management Database)
- Update Sets and Deployment Management
- Service Catalog Management
- Change Management
- Agile / Scrum Methodology
- MID Server Configuration
- ServiceNow Administration
- Data Sources, Transform Maps and Import Sets
- Email Notifications and Inbound Actions
- Performance Analytics and Dashboards
- UI Policies, UI Actions, Data Policies & Script Includes

PROFESSIONAL EXPERIENCE

Senior Analyst | Capgemini (Oct 2021–Present)

- Delivered 4.5+ years of ServiceNow development expertise, building scalable ITSM solutions across enterprise environments.
- Designed and automated workflows using **Flow Designer**, reducing manual effort and accelerating process execution by **40%**.
- Engineered **server-side and client-side scripts** using **JavaScript**, **GlideRecord**, and **GlideSystem APIs**, improving application performance and data retrieval efficiency.
- Partnered with stakeholders following **Agile/Scrum** methodology to gather requirements and deliver solutions on time, earning consistent client recognition.
- Streamlined data management by leveraging **Data Sources**, **Transform Maps**, and **Import Sets**, ensuring **99%+ data accuracy**.
- Expertise in troubleshooting and debugging ServiceNow issues/bugs, resulting in a **30% reduction in downtime** and improved user satisfaction scores.
- Managed end-to-end **Update Set** creation, testing, and production deployments, ensuring zero-defect releases.
- Designed and published **Performance Analytics dashboards** and database views, enabling real-time visibility for stakeholders.
- Automated recurring tasks with **Scheduled Jobs**, **Export Sets**, and **scripts**, improving operational efficiency.
- Directed key enhancements and production rollouts, ensuring smooth deployments and minimal disruption to services.

PROJECTS

Senior ServiceNow Developer | Baker Hughes (Jan 2022– Present)

- Served as ServiceNow Developer and Administrator, leading **ITSM** and **ITAM** initiatives to deliver enterprise-grade solutions across a large-scale energy sector client.
- Led **ITSM module** requirements and issue resolution, ensuring timely delivery and effective client support across Incident, Change, and Request processes.
- Implemented **Incident Management**, **Problem Management**, and **Service Request Management** processes, streamlining workflows and reducing resolution times.
- Developed **UI Policies**, **UI Actions**, and **Script Includes** to enhance system functionality and user experience.
- Built **workflows**, **business rules**, **client scripts**, **ACLs**, and **REST/SOAP integrations** to automate processes and improve operational efficiency.

- Utilized **GlideRecord and GlideSystem APIs** for complex server-side scripting, improving data retrieval performance and application reliability.
- Maintained **CMDB** accuracy through regular audits and data reconciliation using Discovery and Import Sets.
- Configured and maintained MID Server to facilitate secure communication between the ServiceNow instance and enterprise network, supporting integrations and data collection activities.
- Migrated legacy homepages into **Performance Analytics dashboards**, improving usability and reporting accuracy for stakeholders.
- Managed end-to-end **Update Set** creation, testing, and production deployments, ensuring smooth rollouts with minimal disruption to services.
- **Delivered integrations and data migrations**, reducing manual effort and improving data accuracy across enterprise systems.
- Built **Service Catalog** items and automated flows with **Flow Designer and Workflows**, aligning with client requirements.
- Automated reporting through **Export Sets**, improving visibility and reducing manual reporting tasks by significant margin.
- Developed and optimized server-side and client-side scripts to meet evolving business needs using **GlideRecord, Business Rules, and Fix Scripts**.
- **Managed ServiceNow Administration** tasks including account creation, roles, groups, and access control.
- Imported data from Excel into ServiceNow using **Data Sources and Transform Maps** with high accuracy.
- Followed **Agile/Scrum** methodology, participating in sprint planning, daily standups, and retrospectives with client stakeholders.
- Automated daily data uploads via **workflows and business rules**, eliminating manual intervention.
- Developed **Fix Scripts and Script Includes** to handle complex backend logic and support evolving business requirements.
- Configured **email notifications, templates, and inbound actions** to improve communication efficiency across teams.

EDUCATION

Bachelor of Technology (B.Tech), Vishnu Institute of Technology, Bhimavaram, 2021

CERTIFICATIONS

- Certified ServiceNow System Administrator
- Certified Application Developer
- CIS- Customer Service Management
- CIS- ITSM
