Financial Reporting · Reconciliation · General ledger · Fund Accounting · Analytical Skill · Troubleshooting · SQL · Financial Analysis

Experience

State Street Corporation [Process Migrated from Ameriprise India LLP].

Noida, India

Finance Accountant

10/2025 - Present

- Lead end-to-end reconciliation process for multi-asset portfolios, ensuring accurate alignment between internal records and J.P. Morgan custodial files across cash, positions, and transactions.
- Identify, analyze, and resolve complex breaks; investigate root causes and implement sustainable corrective actions to minimize recurrence.
- Reviewed and validated complex financial instruments including equities, fixed income, FX, and derivatives to ensure accurate NAV reporting and accounting integrity.
- Ensure all reconciliations are completed within established SLAs and comply with regulatory and audit standards.
- Highlight high-risk breaks and escalate issues impacting NAV accuracy.
- Manage month-end close activities and handle custodian processes, including trade/settlement matching, cash and position verification, and query resolution with JPM.
- Monitor corporate actions and income posting (dividends and interest) to ensure accurate booking.
- Experience using FIS Invest One accounting tool and FIS Control Center tool to reconcile data.
- Successfully supported end-to-end process migration from Ameriprise to State Street Corporation with zero operational disruption.
- Ensured seamless transition of NAV, reconciliation, and custodian processes, maintaining 100% delivery timelines during the transition phase.
- Played a key role in stabilizing operations post-transition and acted as a key contributor in knowledge transfer, ensuring smooth handover and process continuity.
- Performed trade enrichment by validating and enriching trade attributes including settlement instructions, broker details, account information, instrument reference data, and trade economics before downstream processing.
- Worked on SSI (Standard Settlement Instructions) validation and maintenance to ensure accurate settlement routing and minimize settlement failures.
- Utilized Duco for automated cash, trade, and position reconciliations, investigating unmatched items and driving timely resolution of reconciliation exceptions.
- Utilized TLM (Transaction Lifecycle Management) for reconciliation monitoring, exception management, and operational break resolution.
- Conducted pre-upload validation of trade files, ensuring data completeness and accuracy before processing into downstream fund accounting and portfolio management systems.
- Performed STP break investigation by identifying trade, cash, and position exceptions, analyzing root causes, and coordinating with internal teams, custodians, and counterparties for resolution.
- Supported post-trade operations including trade confirmation validation, trade enrichment, settlement validation, and post-trade reconciliation to ensure timely processing across multiple asset classes.
- Validated trade capture, amendments, cancellations, and settlement instructions across Equities, Fixed Income, FX, OTC Derivatives, and Private Equity instruments.
- Worked closely with custodians, fund administrators, and counterparties to resolve trade matching and settlement exceptions within defined SLAs.
- Supported SWIFT-based settlement operations by validating settlement instructions, monitoring trade settlement messages, coordinating with custodians, and resolving settlement exceptions to ensure timely processing

Nirvana Solutions India Pvt Ltd.

Gurugram, India

Financial Data Analyst

06/2022 - 12/2023

- Experienced Financial Data Analyst with a demonstrated history of working in the financial services industry. Skilled in team management, reconciliation, reporting, hedge fund accounting, new client onboarding/integrations, internal audit, and management.
- Consolidates and manages data across multiple asset classes, funds, accounts, traders, prime brokers, and custodians in a single integrated platform and reporting solutions.
- Oversees daily, monthly, and quarterly reconciliation of trade, position, and cash covering a wide range of asset classes (equity, derivative, fixed income, FX).
- Reviews and maintains daily trade activity, implements dividend/corporate actions in the portfolio, and prepares portfolio reports and other regular financial statements for clients.
- Analyzes and implements data for corporate actions like ticker change, spin-off, split, reverse stock split from Bloomberg, Yahoo Finance, E-Signal, and Dividend Investor.
- Managed daily trade processing across multiple asset classes including equities, fixed income, OTC derivatives, FX, and private equity investments.
- Performed trade capture validation by reviewing executed trades, validating trade attributes, and ensuring accurate portfolio updates before downstream

processing.

- Supported the complete trade lifecycle from trade capture through reconciliation, settlement validation, corporate action updates, and NAV reporting.
- Performed pre-upload validation of trade, position, and cash files before system processing to ensure data integrity and minimize downstream reconciliation breaks.
- Investigated STP breaks by performing root cause analysis on trade, position, and cash exceptions and coordinating with custodians and internal teams for timely resolution.
- Worked with custodians and fund administrators to validate trade settlement status, cash movements, and position balances across global markets.
- Supported new fund onboarding and migration activities including reconciliation validation, UAT execution, and production readiness testing.
- Delivered NAV reports to stakeholders with a focus on accuracy, compliance, and transparency, supporting fund performance evaluation and investor confidence.
- Participates in new fund/custodian onboarding and system migration testing to ensure seamless integration with clients.
- Participated in User Acceptance Testing (UAT) and system migration projects to validate functionality and ensure seamless client transitions.
- Possesses knowledge of private equity fund accounting such as capital call, LC, GP, LP, funds of funds, distress equity, venture capital, LBO, etc.
- Has strong knowledge of capital markets, trade lifecycle, OTC derivative products, and settlement processes.
- Provided training and mentorship to new hires on finance, company domain, and workflow processes, enhancing team productivity.
