EXECUTIVE SUMMARY

Senior Programme Manager with 13+ years of experience driving large scale business change and transformation programmes across BFSI and financial services. Known for leading complex, multi-workstream programs within financial crime, compliance, and regulatory transformation landscapes, managing senior stakeholder relationships, and delivering strategic business change initiatives on time and within scope.

Brings deep expertise in programme governance, dependency and risk management, business case development, executive presentation, and investment prioritization across complex banking transformation environments. Strong background in financial crime prevention including fraud risk management at NPCI and RBL Bank, providing direct domain adjacency to CLM, CDD, KYC, and AML transformation programmes. Experienced in coordinating across compliance, technology, operations, and business workstreams simultaneously in regulated banking environments including Mastercard, NPCI, and RBL Bank.

Seeking a Senior Programme Manager role within a global financial institution where business change leadership, CLM and CDD transformation governance, and senior stakeholder management are at the core.

CORE COMPETENCIES

- ✓ Cross-functional Multi-workstream Coordination
- ✓ Change Management and Organizational Change Leadership
- ✓ Agile, Hybrid and Waterfall Delivery
- ✓ JIRA, Confluence, Azure DevOps and MS Project
- ✓ PRINCE2 Agile | CSM | CSPO

PROFESSIONAL EXPERIENCE

Program Manager | **Pyx Tech Pvt. Ltd., Pune** | Apr 2025 - Jun 2026

- Led **large scale business change programmes** across 3 concurrent client engagements, driving strategic transformation initiatives involving multiple workstreams, senior stakeholders, and competing priorities simultaneously.
- Developed **business cases, executive presentations**, and high impact programme documentation for client leadership, directly influencing investment decisions and strategic priorities across all engagements.
- Established **programme governance frameworks** from scratch, managing dependencies, risks, and stakeholder expectations across all workstreams, ensuring consistent delivery standards and executive visibility throughout.
- Governed a **multi-partner transformation programme** for a global technology client, coordinating five independent external organizations simultaneously toward a single committed go-live date, managing integration dependencies and cutover execution.
- Delivered a real time **Reporting Dashboard** from requirements through production go-live, managing 30 defects across 8 one-week sprints through Azure DevOps pipelines, achieving zero disruption at production deployment.
- Led business change investment prioritization across all client accounts, aligning programme priorities with overall business and workstream strategies and ensuring resources were directed toward highest value initiatives.
- Managed programme budgets, financial governance, and variance analysis across all engagements, producing regular financial updates and forecasts for senior leadership.

Lead Technical Program Manager | **Mastercard, Pune** | May 2018 - Apr 2024

Mergers and Acquisitions, Technical Due Diligence

- Led **large scale business change and transformation** assessment programmes across multiple concurrent M&A engagements, coordinating cross-functional teams spanning engineering, security, legal, compliance, and product workstreams across India, US, and Australia.

- Developed **high-impact business case documentation**, technical clearance reports, and executive presentations for Corporate Development and C-suite leadership, directly informing strategic investment and deal structuring decisions.
- Led business change investment prioritization across multiple simultaneous M&A engagements, ensuring strategic alignment with corporate development objectives and compressing assessment cycles by **30-40 percent**.
- Managed programme governance, dependencies, risks, and senior stakeholder expectations across geographically distributed teams, maintaining consistent delivery standards and executive visibility throughout all engagements.

Senior Technical Program Manager, Corporate Security

- Governed complex **compliance and security transformation programmes** across Mastercard's global corporate security landscape, acting as the bridge between project teams and the Corporate Security function, ensuring regulatory and audit readiness throughout delivery.
- Managed **financial crime adjacent programmes** including security posture assessments, access management reviews, and infrastructure security initiatives, coordinating across compliance, technology, and operations workstreams.
- Proactively identified a resource and capacity risk on PayBy Account Australia, escalated to senior leadership with structured impact analysis and recommended solution, resulting in immediate course correction and on-track delivery.

Business Solutions Manager, Fraud Risk Management | **RBL Bank Ltd., Mumbai** | *Oct 2016 - Apr 2018*

- Led end-to-end implementation of SAS Fraud Management systems within RBL Bank's **financial crime compliance framework**, owning requirements gathering, BRD documentation, UAT management, and production deployment across multiple fraud channels.
- Worked directly within the **KYC and AML adjacent regulatory environment** of a regulated retail bank, understanding the compliance obligations, customer due diligence requirements, and fraud risk governance that govern banking operations.
- Coordinated across compliance, technology, operations, and vendor workstreams simultaneously, managing competing priorities and ensuring regulatory alignment throughout the implementation programme.
- Translated complex fraud monitoring and compliance requirements into structured BRDs, user stories, and acceptance criteria, bridging the gap between business need and technical delivery in a regulated banking environment.

Assistant Manager, Fraud Risk Management | **NPCI (National Payments Corporation of India), Mumbai** | *2011 - 2016*

- Managed fraud risk operations within India's central payments infrastructure, working directly within the **financial crime prevention and regulatory compliance ecosystem** that governs KYC, AML, and customer due diligence standards across India's banking network.
- Governed the onboarding of **15-20 member banks** onto NPCI's Fraud Risk Management system, managing the compliance, integration, and operational readiness requirements for each bank's entry into the national fraud monitoring framework.
- Maintained MI dashboards and regulatory reporting for fraud trends, system performance, and compliance metrics, directly supporting RBI's regulatory oversight requirements for India's payments infrastructure.
