CAREER SUMMARY

Results-driven Investment Banking Operations professional with 9 years in securities services and hedge fund reconciliation. Specializes in client relationship management and operational risk control for institutional clients in APAC and Hong Kong. Manages high-volume reconciliation and trade support, leads client escalations, and drives service delivery improvements. Committed to process automation and operational transformation to enhance efficiency.

PROFESSIONAL EXPERIENCE

JP Morgan Chase, Bangalore - Team Leader - Feb 2022 - Present

- Manage end-to-end operational delivery for institutional clients ensuring strict SLA adherence and operational accuracy.
- Manage trade processing across repo, mortgage-backed securities (MBS), TBA, collateral and fund-of-fund transactions.
- Served as Client Lead for assigned funds, managing client expectations and ensuring service quality standards are consistently met.
- Resolved non-operational escalations, addressing trade failures, break investigations, and complex cross-currency trade issues to maintain operational integrity.
- Led governance discussions with onshore teams and senior stakeholders, focusing on operational performance metrics and risk management strategies.
- Ensure adherence to internal controls, audit requirements and operational risk frameworks.
- Led initiatives to automate processes and improve efficiency across operations.

Process Automation

- Implemented automation initiatives using Alteryx and Frodo templates significantly reducing manual intervention.
- Reduced processing turnaround time from 10 minutes to 2 minutes and from 4 hours to 45 minutes.
- Automated client blotter reporting improving turnaround time and data accuracy.
- Translate operating model changes into clear communication for clients and internal stakeholders.
- Enhanced CAID processing to achieve consolidation of positions across clients and regions.

Tata Consultancy Services, Bangalore - Team Leader – Feb 2021 - Feb 2022

- Managed client-facing trade operations including booking, amendments, approvals and issue resolution within agreed SLAs.
- Collaborated with clients, settlements teams, and risk management teams to resolve trade exceptions and operational issues, enhancing overall transaction integrity.
- Identified and escalated operational and reputational risks, facilitating timely resolutions and safeguarding organizational reputation.
- Enhanced Straight-Through Processing (STP) rates by strengthening static data governance and controls.

Key Achievements

- Successfully on-boarded two clients simultaneously within 90 days under tight deadlines.
- Migrated numerous manual accounts to automated platforms within 5 months improving operational efficiency.
- Automated monthly reporting decks saving 12 hours of manual effort globally.
- Delivered process simplification initiatives resulting in 1.5 FTE operational efficiency gains.

State Street HCL Services (P) Limited, Coimbatore - Senior Analyst - 2016 to 2021

- Executed daily cash and position reconciliation across multiple prime brokers and internal accounting systems to ensure accurate financial reporting.
- Analyzed and resolved reconciliation breaks across equities, FX, swaps, repos, and OTC, Swift instruments, enhancing operational efficiency.
- Ensure timely reconciliation of delivery within strict intraday deadlines while maintaining high accuracy levels.
- Conducted break analysis using Bloomberg and internal systems coordinating with brokers and operations teams.
- Worked on SWIFT messages, Nav Calculation, Fund Accounting
- Oversaw multi-currency accounting entries, including income accruals, interest postings, and expense allocations, ensuring compliance with financial standards.

Awards and Achievements

- Best Senior Analyst for high-quality performance.

CERTIFICATION

- NISM module VII - Securities Operations and Risk Management Certification Examination.
