- Data Mapping, Validation & Transformation
- REST API Concepts & API Explorer
- Automation Troubleshooting & Error Handling
- System Audits & Data Optimization
- Requirements Analysis & Stakeholder Coordination
- Process Mapping & Documentation
- User Support, Training & Troubleshooting
- Cross-Functional Collaboration
- Problem-Solving & Operational Execution
- Salesforce Administration, Reports & Dashboards

Profile

Adobe Workfront Analyst / Developer with 4+ years of experience configuring, administering, and optimizing Workfront for project and content execution, workflow automation, **reporting**, and governance. Strong expertise in templates, approval workflows, custom forms, Reports, dashboards, and system administration, with **hands-on experience using Adobe Workfront Fusion for automation and API-based integrations**. Skilled in requirements analysis, **troubleshooting and error handling**, data validation, reporting, and process improvement across cross-functional teams.

Work Experience

Workfront Analyst (Service Delivery Analyst),
ACCENTURE SOLUTIONS PVT. LTD.

02/2022 – Present | Mumbai

- Led end-to-end **configuration and administration of Adobe Workfront** environments, including project structures, workflows, approval paths, layouts, job roles, schedules, and governance settings.
- Partnered with business stakeholders to **gather and translate service delivery requirements** into scalable Workfront solutions aligned with **PMO and operational standards**.
- Designed and implemented **Adobe Workfront instances from scratch**, including layout templates, project and request templates, custom forms, request queues, teams, groups, boards, calendars, and proofing workflows.
- Acted as the primary **Workfront System Administrator**, managing project preferences, access levels, users, roles, resource management rules, portfolios, programs, and intake processes in a **high-volume FMCG environment**.
- Built and maintained **150+ advanced reports and 50+ dashboards**, providing leadership with visibility into project health, workload distribution, SLA adherence, and resource utilization.
- **Extended native Workfront workflows using Adobe Workfront Fusion** to implement **event-driven automation, workflow orchestration, and conditional process logic** across Workfront processes.
- Developed and supported **Fusion scenarios** to automate business processes by responding to **real-time events** and coordinating actions across **tasks, approvals, and intake workflows**, using **Watch Events, filters, routers, and core Workfront actions** (Create, Get, Search, Update, Delete).
- Performed **API-based interactions within Adobe Workfront Fusion** using **REST APIs**, working with endpoints, request/response data, and supported operations, along with **iterators, aggregators, and data validation logic** to handle multi-record processing, prevent duplicates, and ensure reliable scenario execution.

Certificates

- **Adobe Workfront Core Developer – Professional (Certification in Progress)**
- **Adobe Workfront Fusion Developer – Professional (Planned)**

Education

Bachelor of Management Studies (BMS) Marketing,
Mulund College of Commerce
2012 – 2016

- Performed **troubleshooting and error handling across Workfront and Fusion** by reviewing the **Fusion Execution Inspector**, validating data, conducting QA checks, and resolving configuration or automation issues.
- Successfully supported **100+ projects** with durations ranging from 3 months to 1 year, assisting project managers with scheduling, task mapping, and resource allocation while ensuring governance compliance.
- Created and maintained **SOPs, configuration guides, governance documentation, and handover materials**, and collaborated with cross-functional teams to **support Workfront releases and continuous improvements**.

Salesforce Administrator / Analyst (Project-Based),
Accenture Solutions Pvt. Ltd. / Mumbai
02/2021 – 01/2022

- Supported **Salesforce administration and configuration**, including users, roles, profiles, permissions, and access controls for internal and client-facing teams.
- Designed and maintained **Salesforce reports and dashboards** to track service delivery KPIs such as case status, turnaround time, workload, and productivity.
- Ensured **data accuracy and reliable reporting** through validation, clean-up, documentation, and user support.

Accounts Receivable Associate,
GEBBS HEALTHCARE SOLUTIONS PVT. LTD.
05/2019 – 03/2020 | Mumbai

- Processed insurance claims with accuracy and complied with documentation standards.
- Prepared appeal packages and maintained high-quality reporting accuracy.

Operations Consultant (Onboarding & KYC),
UBER RIDES/EATS - RANDSTAD/KELLY PVT. LTD.
09/2016 – 04/2019 | Mumbai

- Managed partner onboarding workflows, ensuring accurate documentation and verification.
- Streamlined verification steps to improve onboarding efficiency and reduce turnaround time.
